Dr. S. A. Tuttle:  
Dear Sir,—I have used your Elixir both  
for family use and also in stable, and  
would not do without either kind, if I  
could procure it. I cheerfully recommend  
it in all cases. Yours truly,  
**DAVID MAGEE.**

In consequence of the lamented decease  
of the late Mr. Philo L. Mills, his cele-  
brated breeding stock at Ruddington, near  
Nottingham, England, will be sold dur-

of Shorthorns will probably be dispersed  
on Thursday, May 3rd, the flock of  
Shropshire sheep in September, and the  
stud of Shire horses in October.

**TRADE TOPICS.**  
**A USEFUL ALMANAC.**  
The Weather Forecast and Diary Calen-  
dars Are the Strong Features of  
Dr. Chase's Almanac.  
Dr. Chase's popular Calendar Almanac  
for 1906, which has just been mailed, ap-  
pears this year in a new and attractive  
cover, and one of the most interesting  
features is Diary Contest, in which prizes  
amounting to \$200 are offered for the  
best record of events kept in this almanac.  
A useful part of the book is the  
weather forecast, which during the past  
year has proven very satisfactory, as  
evidenced by letters received similar to  
the following from the great West:  
McDonald Hills, Sask.,  
Nov. 24, 1905.  
Edmanson, Bates & Co., Toronto:  
Gentlemen,—I have been so well satis-  
fied with the correctness of the weather  
predictions given in Dr. Chase's Almanac  
during the year 1905 that I shall be  
obliged to you if you will forward me a  
copy of the 1906 edition.  
Yours faithfully,  
**WM. LEWIS.**

All almanacs to be entered for the  
Diary Contest for 1905 must be received  
not later than Jan. 15, 1906. Whether  
you have been keeping a diary during  
1905 or not, be sure to secure an almanac  
and enter the contest for 1906. A  
copy of Dr. Chase's Calendar Almanac  
will be sent free to anyone sending his  
name and address to Edmanson, Bates &  
Co., Toronto, and mentioning this paper.

**CONTROLLING NATURE.**—Everybody  
knows that of late years natural forces  
have been wonderfully subjected to man's  
need. We are dazzled by the spectacular  
achievements in steam and electricity, but  
are likely to forget the less noisy but no  
less marvellous conquest of animal and  
plant life. Horses are swifter, cattle  
heavier, cows give more milk and sheep  
finer fleeces than in days gone by. In  
plants, the transformation is even more  
marked. People now living can remem-  
ber when the number of edible fruits and  
vegetables was far less than at present,  
and even those that could be grown were  
vastly inferior to what we now have.  
For example, our parents knew nothing  
of the tomato, except as a curious orna-  
ment in the garden. Sweet corn was  
hardly better than the commonest field  
sorts. All oranges had seeds. Celery  
was little known and poor in quality. In  
the flower-bed, the magnificent pansy has  
replaced the insignificant Heart's Ease  
from which it was developed, and the  
sweet pea in all its dainty splendor traces  
its origin to the common garden vege-  
table.

This progress has been made in spite  
of the great tendency manifested in all  
plants and animals to go back to the  
original type. It is indeed a battle to  
keep strains pure and up to the standard  
they have already attained, let alone any  
improvement. The practical results are  
accomplished by men operating largely  
for love of the work, like Luther Bur-  
bank in California and Eckford in Eng-  
land, as well as by the great seed mer-  
chants, D. M. Ferry & Co., of Windsor,  
Ont., who are not only eternally vigilant to  
hold what ground has been gained, but  
have a corps of trained specialists backed  
by ample means to conduct new experi-  
ments. The results of their experience  
can be found in their 1906 Seed Annual,  
which they will send free to all appli-  
cants.

**"Clarke's" Moccasins**  
The stamp "A. R. Clarke & Co., Limited," on a moccasin means that that particular moccasin is guaranteed to be worth every cent that you pay for it—that it will do all that is claimed for it.  
We tan our own leather from the raw hide—do not buy it like other moccasin makers—and by doing so we save the tanner's big profit and give you the advantage in extra value.  
"Clarke's" Bullhide moccasin is made from real bullhide—is thick and heavy, heat and wet proof, wears like iron, and will stand scalding, scorching, etc., without hardening.  
Sold by enterprising dealers everywhere.  
Our catalogue tells all about our different kinds of moccasins, and is free for the asking. Write for it.  
**A. R. Clarke & Co., Limited Toronto Canada**  
Tanners and makers of all kinds of leather gloves, mitts, moccasins, etc., for outdoor hard wear.
