The "Bissell"

No One Should Think of Buying Any Other Roller

Why? Because no other land roller will begin to give equal satisfaction.

Notice that the "Bissell" is a three-drum roller. It's true it costs more to make a three-drum roller than a two-drum, but you pay very little more for the "Bissell," and get far more value for your money.

The three-drum "Bissell" is heavier and stronger than a two-drum roller, because there are six heads instead of four. Besides, three short drums are easier to turn than two long ones.

And because the axle revolves with the drums and the roller bearings turn on the axle there is no friction, therefore rolling is hardly required. But, of course, you are anxious to have complete details about the "Bissell" Roller, so sit down now and write for our **Free Booklet to Dept. W**

Sold by local dealers everywhere.

Considering that it is the heaviest fence, as well as by far the stiffest and strongest,

SAMSON-LOCK FENCING

is much the cheapest wire fencing on the market at the price it can be erected for.

The Samson Lock has received the greatest praise from those who have experimented with other styles of locks. It is made of the toughest kind of specially selected heavy Bessemer Steel. Takes but a jiffy to lock on and its shape gives strength where most required. Many times stronger than other locks, and constructed so as to give a vise-like, immovable grip without kinking or injuring the wires. More information in our free booklet.
