

**A Small Investment Earns Big Returns**

To make a small outlay of capital and to have that capital double itself in a year's time, is what a

**BUCKEYE TRACTION DITCHER**

will do for you. You earn from \$15 to \$18 a day, net, digging machine-cut ditches, and you can work from eight to nine months in the year. There is no trouble keeping the machine busy, because farmers everywhere are insisting upon BUCKEYE ditches. The ditches are truer, of perfect grade, and they cost from twenty-five to fifty per cent. less than the old hand-labor method. You can dig from 100 to 150 rods a day, and only two men are required to operate the machine.

The up-keep of a BUCKEYE is remarkably low. Simple to operate, always ready to run, and there is no job too difficult.

Write to-day for our catalogue T.

FINDLAY, OHIO.

**There's No Getting Away**

**From a GREENER GUN**

No other gun can equal the Greener for regularity of pattern (i.e. even distribution of the shot) combined with efficient penetration "the force that kills"—it isn't what we say, facts prove it. W. W. Greener was the first gunmaker in the world to "harness" the shooting of a gun. Prior to the introduction of his world-famed system of choke boring, "pattern" had been the gunmakers' "will of the wisp." W. W. Greener made it his servant, and all the world's greatest honors have been won with GREENER GUNS.

This is the kind you want

Catalogue K2, describing 38 grades, mailed free.

**MOIST HEAT IS THE NATURAL HEAT**

Your house will "feel" warmer at 65° with moist air than at 70° with dry.

Door Open to fill pan. Door Open to fill pan. Either door may be used.

**Circular Water Pan.**

Has five times the evaporating surface of pans placed over furnace door. Runs clear around the back of the furnace. Will hold enough water to last 24 hours. May be filled at either door, as shown above.

Adding moisture to the air in your home will give you the same heat for less fuel.

A consideration, no doubt.

But that is not all.

Warm dry air, however pure, is not healthful. The

human body demands more moisture than is carried in the winter air.

The "Hecla" supplies this moisture in plenty. A large circular pan of water is placed where it will be easy to fill and where it will not be overlooked.

**"Hecla" Furnace**

**No Gas or Dust.**

And it is just as important to keep the air free from coal gas and dust.

In the "Hecla" every place gas might otherwise find an outlet has been fused absolutely tight by our patented process. The same fused joints keep out the dust and smoke.

**Saves Coal.**

By actual test the "Hecla" saves one ton of coal in seven. That is, it is so constructed as to

give the same heat for six tons of coal as you ever got from seven.

Do you want to know more about this furnace?

**Get this Booklet**

It tells about heating for Health as well as Comfort. It is yours for the asking.
