

Put the Load Where It Belongs

IF you are to make the most of your time and opportunities, you must have efficient tools to work with. You have enough hard, tiresome work without wasting your time and energy in such jobs as wood-sawing, water-pumping, grindstone-turning, and the like. Use an IHC engine to furnish power for such work. In far less time, the wood is sawed, the stock watered, the tools sharpened, all at one-tenth the expense of hand work. Put the heavy load where it belongs. Buy and use an

IHC Oil and Gas Engine

and save money as well as hard work. It is the cheapest engine you can buy—because it costs less per year of service than others. It is so simple that it is practically troubleproof. Perfect combustion makes it economical.

IHC oil and gas engines operate on gas, gasoline, naphtha, kerosene, distillate, alcohol. Sizes are 1 to 50-horse power. They are built vertical, horizontal, portable, stationary, skidded, air cooled and water cooled. Sawing, pumping, spraying outfits, etc. IHC oil tractors, 12 to 60-horse power for plowing, threshing, etc.

Look over an IHC engine at the IHC local agent's place of business. Learn from him what it will do for you, or, write the nearest branch house for catalogues.

Amatite ROOFING

It Takes The Pain Out Of Painting

IT'S certainly a painful process to keep on painting a roof every two or three years—you feel it in your back and in your pocketbook. Amatite Roofing never needs painting—sounds almost too good to be true, doesn't it.

Just lay it with an ordinary hammer, and you've solid roof comfort ahead for many years to come.

Costs less than similar roofings of same weight. The mineral surface is also fire-resisting.

Sample showing the pitch waterproofing and real mineral surface free on request.

The Paterson Mfg. Co., Limited

Montreal Toronto Winnipeg Vancouver
St. John, N. B. Halifax, N. S.

YOU can equip your horse stable like this at a very low cost—and the BT Iron Horse Stable Fittings will add greatly to the appearance and durability. If you use BT Iron Stall Partitions and Iron Stall Posts you will have a stable that you may well be proud of, and the best of it is it will look well, not alone when finished, but for years to come.

BT IRON HORSE STABLE FITTINGS

BT IRON STALL GUARDS

are made of 1/2-inch iron rods secured in a heavy frame. They allow the sunlight to flood every corner of the stable. They cannot be broken or in any way be disfigured by the horses.

THE BT IRON STALL POSTS

add greatly to the durability of the stable. No amount of battering will disfigure them.

THE BT IRON STALL POSTS

are grooved to receive the stall partitions, and so save much time in constructing the stable.

BT IRON FEED RACKS AND ADJUSTABLE MANGERS

allow the dust to escape from the hay. They can be adjusted for different widths of mangers.

It will pay you well to get our catalogue and prices, and find out how cheaply you can equip your stable with up-to-date Iron Fittings.

Free Silo Book

A 50-page illustrated treatise on how to prepare and preserve silage, how to select a silo, how to feed. A book worth money to farmers

NATCO EVERLASTING SILO

The one silo that is absolutely permanent—whose construction is such that it cannot burn, cannot be blown down, will never shrink, crack or swell and that never needs repairs. Built of hollow vitrified clay blocks that keep silage sweet and palatable. The most attractive silo made. Can be built by any mason. The most economical silo in the end.

Professor Van Pelt

The famous cow judge, has an article in our Silo Book. So has Valancey E. Fuller and other authorities on feeding stock. Every stock owner should get this book and read it. Send for copy to-day, asking for Catalogue 6.
