It shows that he allowed it to be published the next morning in the Standard and in the Telegraph giving the date referred to as 1907, and also to be published in the newspapers all over Canada with the same error.

I enquired from my department about this and was told that this was so. As soon as I got this information I instructed my department to have the payment made to Mr. Mayes less a few thousand dollars, which I was informed was the cost of the work necessary to complete the Mayes' contract. Regarding this telegram in the light of my statement and the solemn declaration of Mr. Moore, Mr. McAvity and Mr. Holt, it will be clearly seen that Mr. Baxter was giving me the strongest possible intimation that unless the dredge was bought quickly Mr. Mayes would make a disclosure. As neither his threat nor Mr. Baxter's telegram produced the desired effect and he found I would not purchase the dredge he proceeded to carry out his threat and had Mr. Hazen read his declaration at the Conservative meeting on Monday night.

After I have had the opportunity of reading the second declaration of Mr. Mayes and that of Mr. Baxter, appearing in this morning's Standard, I will have some further remarks to make regarding them.

At the rally last night in the York (EXTRACT FROM DECLARATION. Assembly Rooms, the Conservatives took another step in their campaign of slander against Dr. Pugsley. The leadirg feature of the meeting was an affidavit presentel by J. B. M. Baxter, declaring that he had known nothing of the \$20,000 relate and that he was not financially interested in the Mayes'

Mr. Mayes was present and shmitted another lengthy affidavit regarding his dredging business. Mr. Mayes made a pitiable exhibition on the platform. To try to convict either Dr. Pugsley or Mr. McAvity of graft he had to convict himself of at least equal turpitude. His only excuse was the feeble one that he had been forced into an arrangement with Mr. McAvity. Robert Maxwell presided at the meet-

ing, and during the evening called on John E. Wilson and Dr. Daniel for Mr. Baxter's affidavit came first on the programme. He prefaced it with the remark that he did not think a

MR. BAXTER'S STATEMENT.

sworn declaration carried any more

weight than a simple statement.

J, John B. M. Baxter, of the City of Saint John, in the City and County of Saint John, in the Province of New Brunswick, barristerat-law, do solemnly declare that I have read the solemn declaration of George McAvity as printed in the Telegraph this morning. I say that on the 21st day of August last, and not in the month of September, I met Mr. McAvity near the Law Library and conveyed to him a message from G. S. Mayes to the effect that Mr. Mayes would pay him all he owed him if it was made part of one transaction, getting all their differences out of the way. I am positive that a rebate of \$20,000 for political purposes was never mentioned; and there was certainly no suggestion of any contribution by Mr. Mayes of any sum to a campaign fund. I told Mr. McAvity that Mr. Mayes would sell him the dredge for \$140,000. This was the

same price that Mr. Mayes gave him through me, months before, when Mr. McAvity was inquiring on behalf of some gentlemen who thought of engaging in dradging business This was the only conversation Mr. McAvity and I had at or near the Law Library. I had just come down from the York Theatre to see him, and the Central Railway inquiry was going on at the time in the Admiralty Court room, near the Library. We had no conversation at this place in the month of Septem ber, nor anywhere else, upon this subject, and I never at any place or time offered Mr. McAvity a rebate of \$20,000. In fact I never heard that sum mentioned until I heard of it in the declaration.

I further say that I have read the solemn declaration of John E. Moore, also published in this morning's Telegraph, in which it is stated that Percy W. Thomson called at his office and said that I had been in to se him about the Mayes dredge and had requested him to call upon the Minister and Mr. Moore about the matter. Mr. Moore is under some misapprehension in this matter. I called to see Mr. Thomson about some business I was transacting for his firm and we incidentally spoke of politics and referred to the Mayes' matter, about which he had apparently had a conversation with somebody I told him that I had no proposi tion to make and that if any were made it had better be made to Mr. Mayes. Mr. Thomson said he did not want to get mixed up in the matter, and so far as I am con-

cerned it dropped at that. Mr. Baxter's statement also declared that he had no personal interest in Mr. Mayes' dredge and that he had never been a party to any political arrangement in this connection.

WILSON SPEAKS. John E. Wilson next spoke. He de-

MR. MAYES CAME NEXT.

A large part of his lengthy affidavit was devoted to reiterating the statements made in his previous declaration, but giving further details of his alleged conversations with Dr. Pugsley. As some of these were held over three years ago, even his statement that he kept a diary hardly seemed to guarantee the correctness of his verpatim reports. The only new feature of any importance was his flat denial that he had offered the \$20,000 rebate for the Liberal campaign fund. He carefully avoided all further men-

tion of the \$2,000 which he had previously alleged Dr. Pugsley had extorted from him. He steered as clear of this as possible, merely touching on the date and claiming that he had corrected Mr. Hazen in the Queen's Rink when he came to the date 1907. He gave in full the text of the letter sent to Dr. Pugsley demanding payiner when he jumped on him, and it is ment of his claim as the result of which he claimed the settlement was

The following is an extract from the declaration which includes its most important statements: I deny most positively that I ever

offered, or caused to be offered, to Dr. Pugsley or George McAvity a rebate of \$20,000 or even one cent, or a contribution of any sum for political purposes. I further say that * * * T. made no request to Mr. Holt to act for me or make any approach in the matter to any one. All that was done by Mr. Holt was done at his own instance or at the suggestion of Mr. George McAvity and not at mine. I further say that up to four o'clock on the afternoon of the 12th inst. I had not given, or caused to be given to any member of the Conservative party any intimation that I was about to make the declaration which I did. During the afternoon I obtained an appointment with Hon. J. D. Hazen, to whom

DR. DANIEL FOLLOWS.

submitted the matter.

Dr. Daniel, who followed, commented on the statement just read. He said that while the price of the dredging could be raised to allow Mr. McAvity to get \$36,000, yet Dr. Pugsley could not get enough from his department to pay the whole cost of the Courtenay Bay borings. He then made a vicious attack on the scheme to dredge Courtenay Bay. He confessed that it would be necessary at some time to provide docks there, but wanted the work delayed until the G. T. P. was completed and the traffic ready to be shipped. He claimed that the dredging alone would cost \$4,624,000. His authority for these figures was the statement of a 'longhoreman who, he said, was "a very intelligent man, although he did not know what Borden's railway policy

Continuing, he condemned the Liberal tariff and said that if the Liberal party took any credit for Canada's prosperity during the past twelve years they must also take the blame for the recent world wide depression.

Mr. Maxwell, in the closing speech. made another venemous attack on Dr. Pugsley, saying that he had been guilty of "definite thefts-steals they were-from the Lublic treasury," and claiming that \$102,000 had been expended by those in charge of the Central :a'lway which they could not account

LOGAN TO SPEAK

FREDERICTON, N. Logan, M. P. for Cumberland, will also be present and address the meeting. Mr. Logan has broken an important engagement in Nova Scotia to meet the young Liberals' request for him to give them a hand here, and they are assured of a bumper house. Mr. Logan will arrive here on

the 8.10 p. m. train Friday. The farmers of Keswick and vicinity had a barrel of fun out of a pair of traveling Tory stumpers this afternoon at the close of the annual fair there. A. R. Slipp, M. P. P., and Fred. P. Robinson of Nashwaaksis essayed to address the electors and the affair was a regular frolic.. Mr. Slipp had just got nicely started when men in the audience commenced to hurl auestions at him respecting Foster and the Foresters, and after getting padly mixed up he subsided with a fifteen minute address interrupted throughout by howls and jeers. Mr. Robinson, who is a gentleman farmer and excellent at bridge, was also accorded a warm reception, and the meeting closed without visible results for the Tories.
