AT THE

SIGN OF THE BIG CLOCK

Some people spend so much of their time in trying to be amiable that they haven't time to earn a living.

BEING POPULAR.

Be Nice If You Want to Succeed in Attaining that End.

Popularity is won by a mixture of self-suppression and self-assertion. The first step toward learning how to please most people is by realizing that they are more interested in themselves than in you, and the measure of their regard will be the degree in which you minister to their pleasure and self-importance.

The way to be popular is to give much and take nothing. After all, we ourselves like best the friends who care to know details of our private experiences, so why should we act toward others as though their affairs were matters of indifference to us? Learn to rejoice when you hear of the success of an acquaintance, then you will not forget to congratulate her when she next meets you. Be sorry for a neighbor's clouded prospects—she will be gratified to find herself of consequence to you.

This worldly sermon has for its text "Be nice if you want to be popular." There is no need to debate the question "Is popularity worth seeking?" for all pursue this form of the bubble reputation. Society would dissolve into fragments if we did not.

Another essential ingredient of popularity is "cheek." Timidity is the extra spoonful of flour that spoils the cake. Modesty is a mistake, except in the company of highly gifted individuals, and even they would mostly rather be playfully than actually worshipped. Malicious gossip must be kept under the lock and key of the will. It repeated it alarms those whom it most amuses, who think "If Elizabeth would say such sharp things about Maud, what will she say of me?"

In conversation assist the backward and help the adventurous to execute clever manoeuvres; in literary discussion be as brilliant as you please, in short sentences, but exact the point for praise from the rambling arguments of others—in fact, remember always that a human being thinks "How can I acquire myself well?" not "How nice it is to meet with so much cleverness!"

Is all give and no take? True. But the reward is "being popular."

Boer Ladies at Home.

Some interesting notes about the ways and customs of the Dutch ladies appear in the British Weekly from a correspondent who spent some time in Boer households in the Transvaal district of the Transvaal. The ladies, we are told, have very pale complexions, in the whiteness of which they take their pride. To keep off the scorching sun's rays, they envelop their heads in white linen scarfs, worn like the nurses and sisters of mercy, and over this wear either the sunbonnet, or "cappie," or a large straw hat tied under the chin with strings. They have the impression that they "burn black," and know nothing of the becoming brown sunburn which English girls like to get.

In most Boer houses of the better class there is an American organ or "seraphine," and the girls are generally able to play simple tunes and accompany songs and hymns. Four girls in one house where the correspondent was staying surprised their visitor by singing the familiar old songs, "In the Gloaming" and "Just Before the Battle, Mother," in preference to Dutch songs. As only one seemed able to speak English, it was curious to hear the others join in the choruses. The daughter of the house is always the one to bring the customary cup of coffee to the visitors.

At the same house the daughters entertained their visitor in their bedroom by showing her box after box full of elaborate crocheted-work, counterpanes, antimacassars, and yards and yards of crocheted lace frillings, which they had made. They are also very clever makers of paper bowers, and many of the parlors and entertaining rooms are freely adorned with colored bunches and festoons of them. In some houses the bedroom walls are adorned with pages from fashion-books. The ignorance of the Boer girls is sometimes surprising. One old Dutch "frau" quite thought that there were Kaffirs or black people all over the world, and no doubt wondered how the English could get any work done with no servants at command.

Three Excellent Recipes.

CHEESE BISCUITS.—Place four ounces of Parmesan cheese and four ounces of pastry bower in a basin, with a little salt and a few grains of cayenne. Rub into this two ounces of butter and make into a stiff dough with the yolk of an egg. Roll the pastry out thinly, cut it into rounds, prick with a fork and bake in a cool oven until crisp. Keep these biscuits in a tin until quite cool.

PRUNE JELLY.—Take one quart of prunes stir until soft and mash through colander; half a box of gelatin; put in bowl, cover with cold water, let it soak for about five minutes; then let it soak for about five minutes; add a little of the gelatin, with three tablespoonsful of sugar; put on the stove, and let boil for five minutes; pour into jelly moulds and serve with cream.

EGGS A LA JOSEPHINE.—Boil six eggs twenty minutes. Remove the shells. Separate the yolks without breaking; put the whites in thin narrow slices, and mix them with an equal quantity of fine shredded cooked fish and a tablespoonful of parsley. Place the mixture on a platter in a circular or oval ring, and put the yolks in the centre. Set the platter in a steamer to heat the mixture. Make a pint of thick white sauce and pour around the edge of the dish.

Fish Not Brain Food.

The popular notion that "fish is a brain food" is a mistake, for eminent physiologists tell us that fish, no more than any other nitrogenous food, contributes to brain growth and development. All nitrogenous foods, such as fish, meat, eggs and so on, repair the waste tissues of the body, but fish is of no more importance than the others.

HOW ARE YOUR NERVES?

The Condition Determines the state of Your Health.

Paine's Celery Compound Is a Nerve Medicine and Nerve Food.

IT MAKES SICK PEOPLE WELL.

Too many people are ignorant of the fact that the nerves regulate the blood supply through the body. The condition of the nerves should therefore be our chief concern.

If the nerves are out of repair the result is loss of sleep, irritability, depression of spirits and lassitude, all of which are the beginning of serious ailments and diseases.

Paine's Celery Compound is a nerve medicine and nerve food as well as a purifier of the blood. When used it removes from the nerve centres all irritability, and by supplying abundant nutrition to the nerve tissue secures healthy action throughout the nervous system.

When men and women are worried and overworked in the home, workshop, store, or office, and find it hard to get sleep at night—when the used-up brain gets no time for repair, nothing so refreshing, strengthening and gives life as Paine's Celery Compound. It is the food for brain and nerves.

Paine's Celery Compound is the acknowledged chief of all medicines for the cure of diseases due to weakness or to a foul condition of the blood. It is the one real remedy known to-day that never fails to be beneficial. Get Paine's Celery Compound and only "Paine's" if you would be well and strong.

SAVED BY BENGAL LANCERS.

Americans in a Fight With 2000 Boxers at Matow—Chinese Were Routed.

Ten Tsin, Sept. 18, via Shanghai, Sept. 16.—A British signal officer reports a sharp engagement between a company of the 14th United Infantry (Matow) on the road to Pekin. The Americans made a gallant stand, and a detachment of the Bengal Lancers, nearby, hearing the firing, came to their rescue and charged the Boxers in the rear. The Chinese were routed, leaving 200 dead. The Americans had no casualties.

Give the true American a daily newspaper and a piece of pie and he will make himself at home anywhere on earth.

WHISKEY MEDICINES.

The temperance press is emphasizing the danger to the home in the use of "medicines" which are loaded with whiskey or alcohol. In this respect, as well as in the remarkable character of their cures, Dr. Pierce's medicines differ from other preparations. Dr. Pierce's Golden Medical Discovery and "Favorite Prescription" contain no alcohol, whiskey or other intoxicant, and are equally free from opium, cocaine and other narcotics. Every family should have a copy of the People's Common Sense Medical Adviser, sent absolutely free, on receipt of stamps to pay expense of mailing and customs. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

A STRONG SMITH MAN

Ald. Sulman Will Support the Popular Candidate—May Run Himself Some Day.

Ald. G. W. Sulman, whose name was suggested at the Conservative convention as a candidate for Kent, was busy but he found time to say a few words for the Conservative candidate.

"I didn't wish the nomination," said Mr. Sulman, "and for that reason I did not attend the convention. In the first place I felt that Mayor Smith should have the nomination and in the second place I could not afford to sacrifice my time from my business but, at some future time, George W. Sulman may be the member for Kent."

T. A. Smith is a man who will receive the support of the Conservative party. He has always been a consistent Conservative all his life and a hard worker in the party. He should receive the support of every citizen because he has always looked after the city's interests during his many years of municipal life. He worked hard for the city and devoted his whole time to municipal affairs. He has always been a friend of the laboring classes and has never done all in his power to assist them. When the railway strike was on T. A. was the first to step forward with a check for \$25.

KILLING A DOG COSTS MONEY.

Joseph Alexander, of Waterloo, Fined Heavily for His Recent Shooting.

Waterloo, Ont., Sept. 18.—The trial of Joseph Alexander, charged with the wounding of Nightwatchman, Jacob Peppier, was held here Saturday morning. Police Magistrate Weir, of Berlin, presided. A large number of witnesses were called and the circumstances of the shooting were thoroughly gone into. The case established and his counsel clearly for lenient sentence. A number of prominent men of the town testified to the prisoner's good character. Magistrate Weir allowed the prisoner to go on suspended sentence, but fined him for discharging firearms in the town, and for interfering with a police officer in the discharge of his duty, also \$25 in the discharge of his duty. The fines and costs which Alexander will have to pay amount to nearly \$200.

HINTS TO HOUSEKEEPERS

Oranges are refreshing and feeding, but are not good if the liver is out of order.

To remove kerosene oil from a carpet, cover with oat meal and leave for several hours. The oat meal will absorb the oil.

If ink has been spilled on a carpet, cover the spot with milk immediately, and wipe up without spreading the area of stain. Then wash off with soap and water.

Pour water around the roots of the maiden-hair fern, but not on the foliage.

Economical cooks do not boil the whole egg when only the hard-boiled yolk is needed. Either the yolk is dropped alone and unbroken into water and boiled hard in this way, the white being previously drained off, or, if the yolk is left in the shell and put thus into the boiling water.

The letters R. S. V. P. are out of place on a dinner invitation, it being understood that the reply should be prompt. In declining such an invitation it is courteous always to state the reason.

If a moth miller is seen in a closet, it is a good plan to burn a little camphor gum very promptly. Frequently, this simple precaution, if taken very early in the spring, will rid that closet of moths for the season.

"There is a general prejudice against eating before going to bed, which in many instances is unfounded," says a prominent physician. "In the case of persons who are feeble or sleep poorly a cup of hot milk taken just before retiring will often produce quiet sleep and provide needed nourishment. No one should go to bed hungry; but plain food, such as a bowl of bread and milk, a slice of bread and butter or a saucer of oatmeal and milk, is desirable. Many an hour of sleeplessness may be avoided by such a repast."

Apples supply the higher nerve and muscle food but do not give stay.

Prunes afford the highest nerve or brain food, supply heat and waste, but are not muscle feeding. They should be avoided by those who suffer from the liver.

A good substitute for suet in puddings may be found in well clarified dripping if a little soaked, finely crushed tapioca be added to the mixture.

A very young housekeeper frequently makes the mistake of planning for a great variety of dishes, when she might for the same outlay have the very best cuts of meat and an abundance of the substantial.

Left over stewed potatoes may be mashed fine with a fork, mixed parley added, formed into cakes, dipped into cracker crumbs and fried delicate in a little butter; they are delicious prepared this way.

Well washed potatoes are excellent breaded with cracker crumbs, fried in butter, and used as a border around meats; lay a sprig of parsley or watercress on each cake.

Keep a bottle of linseed oil and lime water (mixed in equal parts) in readiness to use for burns or scalds. Shake well, spread upon old table linen and bind on the injured place.
