To Save One's Bacon. "To save one's bacon"—that is, to make a narrow escape—is supposed to refer to the Dunmow fitch. For many centuries it was the custom at Dunmow, in England, to present a fitch of bacon to a married couple of twenty years' standing who would make oath on the Scriptures that they had never had a quarrel. To come close to a quarrel without an actual rupture was, in the popular dialect, "to save one's bacon."

WHY THAT WEARINESS? You're uneasy, restless, without appetite. Still worse, you are thin and fagged out. Work must be done, but where is the strength to come from?

Make your blood nutritious and you'll have lots of strength. Your only hope is Ferrozone, an instant blood-purifier, blood-purifier, blood-enricher. It brings keen appetite, digests food and supplies nutrition for building up all the bodily tissues. Ferrozone makes muscle and nerve-fibre, increases your weight, instils a reserve of energy into the body that defies weariness or exhaustion from any cause. To have virility and healthy vigor use Ferrozone, which all dealers sell in 50c. boxes.

Every Bit as Good. "Have you a belt that will go about my waist?" asked the young lady with a smile as she entered the dry goods store.

"No, but I have something just as good," replied the young man who formerly worked in a drug store.

WOMEN WITH WEAKNESS.

For all weakness which girls and women suffer, no surer remedy exists than Dr. Hamilton's Pills. They maintain that bracing health every woman so earnestly desires; they uproot disease, and bring strength that lasts till old age.

"No medicine could be more beneficial than 'Dr. Hamilton's Pills,'" writes Mrs. Mary E. Ayton, of Victoria. "I have been strengthened, my digestion is better, I have improved in color and feel considerably better since using Dr. Hamilton's Pills." Sold everywhere, 25c. per box of five boxes for one dollar.

Dutch Champion Smokers.

A parliament of smokers which was organized at Laeken, in Holland, by a society which calls itself the Vlaamsche Pijpenrookers has ended in the victory of one Frank Kos in the principal contest. Kos established a record by keeping his pipe alight for three hours and seven minutes without asking for a second match. The second in this competition was a man named Mertens, who kept his alight for two hours and fifty-nine minutes, and the third was one Bruyneel, who smoked without a break for two hours and three-quarters.

Evolution of a Joke.

"What becomes of a joke when it gets too old for the almanac?" "The theatrical programme gets it." "And from there it's but a step to the musical comedy, eh?"—Philadelphia Bulletin.

COLD SETTLES IN THE BACK.

It hits people in a tender spot and makes it mighty hard to brace up. Nervine takes that kink out of your spinal column in short order; it soothes, that's why relief comes so soon. Nervine penetrates, that's why it cures. Five times stronger than ordinary remedies, Nervine can't fail to cure back, lumbago, sciatica, and neuralgia. Nervine is instant death to all muscular pain. For nearly fifty years it has been the largest selling liniment in Canada. Better try it.

An ounce of gold in the bank is worth a pound of luck.

MESSRS. C. C. RICHARDS & CO.

Gentlemen—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of La Grippe, and I have frequently proved it to be very effective in cases of inflammation.

VANITY'S VISIONS.

Russian Polo Troupe Still Worn in Fur-Fetching Opera Cloaks.

The Russian polo troupe is with us again in fur, and when made of squirrel and worn with a set of the same fur it is quite fetching.

An opera cloak of pastel pink broadcloth is lined with white silk and trimmed with bands of dark fur.

Fetching little lace jackets are to be seen at the lace counters. They are in bolero and Louis styles.

A celebrated French dressmaker has introduced the fashion of wearing pom-

padour silk skirts with short jackets of velvet. If one does not care to be so dressy, skirts of cashmere or cloth may be substituted for the silk. These coats are tight fitting, made on a boned lining and fastened almost to the neck. They have three inch belts of leather or silk fastened with very handsome buckles.

There is an attempt being made to introduce long drop earrings, but as yet the success has not been encouraging.

Kid piques are among the new things in gloves. They fasten with two large pearl buttons. The top of the glove has a smart flitch of two edges pinked, one below the other, and contrasting in color with the shade of the glove.

Dog collars of silver and gilt in unique design studded with colored stones are as dainty and attractive in the French jewelry as in the genuine.

The hat illustrated is of dahlia felt simply trimmed with velvet ribbon of the same shade. The roses tone from mauve to pink.

Curis Sewed Under the Brims of Hats.

The Bang Again Popular. Some of the new French hats have curls sewed under the brim. All the curves and bendings in the smart hat must be filled with trimming of some kind or the hair stuffed out to supply the deficiency.

The wearing of a fringe over the forehead will make the new hats more becoming, for they are tilted too far over the brow to show a pompadour.

The tailor made costumes, except those strictly for business use, are to be made with a demitrait.

Invisible checked black voile is one of the most beautiful of all the new

black cloths. Checks, stripes and plaids, invisible except in side lights, come in all the good colors and black, forming a very aristocratic family of fabrics.

New girdles of silk knotted at the side and adorned with long fringed ends are seen in the belt department.

There is a perfect furor for mink silk applied as a trimming on cloth and velvet gowns. It is used for strapings and stichings of all descriptions and frequently in combination with braids, of which there are many.

An old feather boa that has served its purpose may be used to ornament a hat, pompons being made of the good portion with effective results.

Smart winter ties are of two styles—handsome hand embroidered designs on linen cut out around the design and half inch silk ties tied in a double bow-knot, with one end tucked under.

The little girl's cloth coat illustrated is one of the smartest models of the season. It has a circular skirt attached to a long waisted, double breasted bodice finished at the neck with three circular capes and a small turn-down collar.

IF WOMEN ONLY KNEW

Thousands of women suffer untold misery every day with aching backs that really have no business to ache. A woman's back wasn't made to ache. Under ordinary conditions it ought to be strong and ready to help her bear the burdens of life.

It is hard to do housework with an aching back. Hours of misery at leisure or at work. If women only knew the cause. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause in the world.

But they can't help it. If more work is put on them than they can stand it's not to be wondered that they get out of order. Backache is simply their cry for help.

DOAN'S KIDNEY PILLS

will help you. They're helping sick, over-worked kidneys all over the world—making them strong, healthy and vigorous. Mrs. P. Ryan, Douglas, Ont., writes: "For five months I was troubled with lame back and was unable to move without help. I tried all kinds of plasters and liniments but they were no use. At last I heard tell of Doan's Kidney Pills and after I had used three quarters of the box my back was as strong and well as ever."

Price 50 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

Perch Becoming Scarce.

The fishing season of 1905 will be remembered by anglers as the worst we ever had for the perch fishery, says The Goderich Star. It is claimed that the fish are getting scarce and that the disturbance to the water by the work on the breakwater drove the fish away, and it is probable that the reasons given were the cause of the small catches the past season.

CHAMBERLAIN'S COUGH REMEDY THE BEST MADE.

"In my opinion, Chamberlain's Cough Remedy is the best made for colds," says Mrs. Cora Walker, of Porterville, California. There is no doubt about its being the best. No other will cure a cold so quickly. No other is so sure a preventive of pneumonia. No other is so pleasant and safe to take. These are good reasons why it should be preferred to any other. The fact is that few people are satisfied with any other after having once used this remedy. For sale by all druggists.

A Queer Address.

"All kinds of queerly written addresses pass through the mails," a United States postmaster said. "Some are rhymes, some are anagrams, some are puzzles. If we can decipher them we do it. Otherwise they go to the dead letter office." He took a piece of paper and wrote upon it:

HILL.

MASS.

"That is the most ingenious puzzle address I ever saw," he said. "The envelope which bore it dully reached Mark Underhill, Andover, Mass."

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c. per bottle.

Take Hall's Family Pills for constipation.

The things we get for nothing are often dear at the price.

SORE THROAT AND COUGHS. A simple, effective and safe remedy for all throat irritations is found in Cresolene Antiseptic Tablets. They combine the germicidal values of Cresolene with the soothing properties of slippery elm and licorice.

Be wiser than people if you can, but do not tell them so.

Coughs, Colds, Hoarseness, and other throat ailments are quickly relieved by Cresolene Tablets, ten cents per box. All druggists.

VALUE OF OLD MEN.

Those of Threescore Years Said to Be Most Useful Citizens.

America is the young man's country, we are told, because so many of the conspicuous figures among us are young men. The thing is said conventionally, as if there were some moral virtue in being young; as if, too, the greatest tragedy in American history was not the death some forty years ago of half a million men in the prime of life, which deprived our generation of its wisest counselors. Experience is the only school which gives a degree honored of all men, and a man of three-score, with the vigor of life still in him, should be the most useful citizen of a community. The awful catastrophe at Baltimore furnished a splendid instance. The conflagration had been raging for twelve hours. Chief Horton of the fire department had been disabled by a live wire. The fighters were without a head. Then William C. McAfee, veteran fire chief, retired for age and accounted an old man, offered his services to the mayor. They were accepted. Donning his oldskin and grabbing his trumpet, the old chief went into action. At once the men knew they had a leader. They needed one. The fire was roaring down to the river bank, where were some great resin works filled with turpentine. And as they went so must go East Baltimore.

"There will be the deuce to pay if the fire gets into that resin," yelled McAfee through his trumpet. "If enough of you men will follow me, we'll go in there and dump the whole outfit into the bay."

They followed the leader, and they saved East Baltimore.

TREE PLANTING.

Some Valuable Pointers That Are Well Worth Remembering.

First cut off smoothly the broken root ends which are over half an inch in diameter; next trim the top if it cannot be easily reached from the ground after planting. With an oak or other hardwood tree cut back severely, reducing the number of buds 60 per cent to 80 per cent. If the leader is cut off, a tree later forms two leaders, which are apt to split the trunk and ruin the tree.

After the hole has been prepared it should be partially refilled, so that the trees are at their natural level. Spread the roots out straight. Work fine, mellow soil under the center of the tree. In the case of fine roots it may be necessary to do this with the fingers. With coarse, fibrous roots the earth can be packed in with a pointed stick.

Next see that the tree stands vertically. The simplest way is to stand off, then hold up the shovel so that it forms a plumb bob and take a sight. Then stand around and look at the tree from a direction at right angles to the first line of sight, seeing that the trunk stands erect on both lines. Packing the earth firmly around the center will hold it in position in most instances.

Watering fall planted trees is rarely necessary, as the ground will generally have sufficient moisture.

Blind Men and Smoking.

"Why is it that a blind man never smokes?" asked Smith the other day.

"Because he would not know whether he was pulling on a lighted cigar or an unlighted one," replied Jones. "If a man shuts his eyes he can't tell whether he is smoking or not, unless he inhales his smoke. The inhaler is generally able to feel it passing through the double flues of his chimney nose. But I have seen the experiment made of blindfolding a smoker who doesn't inhale and then placing a lighted and unlighted cigar in his mouth alternately. He was never able to say when he was smoking. He was absolutely unconscious of the cloud of blue vapor that was blown from his mouth when he had the lighted Havana between his teeth. A man has to see it in order to enjoy a smoke."

An Odd Prescription.

Dr. William Osler in one of his Baltimore lectures recited a quaint old cure for the gout—a cure from a seventeenth century work that was designed to show gout's hopelessness. "First, pick," said this odd cure, "a handkerchief from the pocket of a spinster of thirty-five who never wished to wed; second, wash the handkerchief in an honest miller's pond; third, dry it on the hedge of a person who was never covetous; fourth, send it to the shop of a physician who never killed a patient; fifth, mark it with a lawyer's ink who never cheated a client, and, sixth, apply it hot to the gout tormented part. A speedy cure will follow."

A Little Ambiguous.

Mr. Gladstone was much bothered by young, unknown authors, who sent him their published works for his judgment. So his secretary was instructed to use this ingenious formula of acknowledgment: "My Dear Sir—Mr. Gladstone instructs me to say that he is in receipt of your book, for which he returns thanks. Be assured that he will lose no time in perusing it."
