

SCOPOLOMIN STOPS LYING, NOW IN USE

Renders Subjects Incapable of Mental Inhibition So They Cannot Lie

TRIED ON CONVICTS IN PENITENTIARY IN U. S.

Convicted Murderer Proved Innocent While Others Made Confessions

[Associated Press by Leased Wire] San Quentin, Calif., June 27.—Scopolamin, an alkaloid, was used in experiments on three inmates of San Quentin prison here yesterday, and John L. Farrar, convicted of the murder of a Chinese in Sacramento, was proved innocent; Eugene O'Leary, sentenced from Sacramento on a grand larceny charge, provided authorities with information as to his identity, and John L. Johnson, heard, admitted his guilt and confessed to participation in other crimes, according to the experimenters. Dr. R. E. House of Ferris, Texas, conducted the experiments before several prison officials and criminal investigators. Dr. House declared the scopolamin rendered the subjects incapable of mental inhibition and deprived them of reasoning power, so that they are incapable of lying under its influence. Other facilities, however, remained intact, he said. Acquittal Proves Correct. Berkeley, Calif., June 27.—Henry Wilkens, of San Francisco, who was acquitted of the murder of his wife, Mrs. Anna Wilkens, last March, was again acquitted on the charge at the Temple Hospital last night after he had submitted voluntarily to the scopolamin test, according to experimenters.

CLAIM INVENTION MOVIE PICTURES

Both Paris and Lyons Claiming the Distinction and Erecting Tablets

[Special Cable to The Daily Gleaner and The New York Herald. Copyright.] Paris, June 27.—France claims the invention of a French invention and the city of Lyons is preparing to place a tablet on an old building there where it is claimed that the first motion pictures were ever shown in public. It is firmly believed there that motion pictures were invented by the Lumiere brothers who, in their laboratory at Lyons, first developed the art. Their first experiments are said to have been made in photographing a flight of birds in the Tuilleries gardens here. Probably cautious, in its turn, Lyons, Paris now claims that the first motion picture performance was given in this city thirty years ago on a screen placed outside a house at the corner of the Boulevard Capucines and the Rue Scribe. It is suggested that a tablet be placed there also.

EMBARGO IS REMOVED

Domestics to Be Admitted to Canada Rapidly Now.

[John MacCormac's Special Cable to The Montreal Gazette and The Daily Gleaner. Registered in accordance with the Copyright Act.] London, June 27.—The Canadian immigration department seems to have reconsidered its resolve to restrict the immigration of British domestics into Canada. The regulations limiting the ingress of these highly necessary newcomers to 15 per week which were imposed from Ottawa, have been removed and they will be allowed to proceed as rapidly as they offer themselves. Despite the servant shortage in England there is no lack of inquiry.

Former Emperor's Palace In Forbidden City Burns

The Ancient Palace of the Chinese Emperors, Where the Youthful Hsuan Tung Has Been Practically Kept a Prisoner Since the Inauguration of the Republic, Destroyed

[Associated Press by Leased Wire] Peking, June 27.—Fire yesterday destroyed the palace of former Emperor Hsuan Tung in the Forbidden City, notwithstanding the efforts of the native and foreign firemen to save it. Hsuan Tung, the deposed boy Emperor of China, had resided in the ancient palace of the Forbidden City since the establishment of the Chinese republic. He receives a yearly allowance from the republic, with the right to maintain a royal establishment in keeping with the glory of the old Chinese Emperors. Since 1911 he has been practically a prisoner.

Mount Etna In Eruption Again—More Violent And Visible at Catania

[Associated Press by Leased Wire] LONDON, June 27.—A new and violent eruption broke out this morning near the summit on the south side of Mount Etna, plainly visible to the naked eye in Catania, says a Rome despatch to the Central News. It is feared the observatory has been overwhelmed. Professor Carrara reports the new flow of lava is progressing at the rate of a kilometre an hour.

"Million Dollar" Rain Has Brought Temporary Lull In N. B. Forest Fires Menace

[Associated Press by Leased Wire] New Brunswick, N. J., June 27.—A forest fire that started Sunday night near Franklin Park, a village about five miles west of here, spread so rapidly last night that it threatened the village. The fire, which was extinguished by firefighters from various parts of the surrounding country, were called out to battle the flames. About fifteen square miles of timberland have been razed by the flames, which last night were spreading rapidly through the remaining fifteen square miles of wooded territory in the tract. Several barns have been burned. The village of Franklin Park, which for a time appeared to be in danger, is now out of the path of the flames.

GREAT DAMAGE TO ONTARIO ORCHARDS

One Third of Fruit Trees Destroyed in Peel and Halton Counties.

Toronto, June 27.—Reports from Peel and Halton counties give indications that about one third of the fruit trees were destroyed during Monday's storm. The third, fourth and fifth lines of West Chincagoony were the worst sufferers from the storm. Between Inglewood, on the first line, and Cheltenham on the third, ten barns were completely demolished. There is no farm with a silo standing in an area three miles wide and eight miles long. Windmills were twisted out of shape by the wind and almost every barn on the west side of Peel in the storm area suffered some damage. Many orchards were spoiled. Reports from the Centre Road district, above Snellgrove, tell of barns lifted from their foundations and set down at a distance. The total damage or destroyed are bank barns and range in price from \$6,000 to \$8,000. Brampton's loss alone will scarcely be covered by \$100,000. The Georgetown section of Halton county trees were uprooted, many orchards destroyed, silos and barns blown down, roads blocked by fallen trees and telephone wires cut off. At a very conservative figure, the loss in this locality is estimated at \$150,000.

BOMAR LAW OFF FOR SOUTH COAST

[Associated Press by Leased Wire] London, June 27.—Andrew Bomar Law has sufficiently improved in health to be able to leave London for a resort on the south coast. It is authoritatively stated that there has been a slight but distinctly favorable result from the treatment the former Premier recently underwent.

Body of Raoul Delorme Is Being Exhumed To-day

[Associated Press by Leased Wire] Montreal, June 27.—Announcement was made this morning by R. L. Calder, K. C., Crown Prosecutor, that application had been made to the Attorney General of the province for permission to exhume the body of Raoul Delorme, is now on trial in the Court of King's Bench. Mr. Calder made his announcement when court opened today, and later announced that formal permission had been received and that the exhumation would take place today. The body lies in the Delorme family vault in Cote des Neiges Cemetery. The exhumation has been made necessary by the line of questions put by defence lawyers to the autopsyists, Dr. Derome and Dr. MacTaggart, which have left the impression that Raoul may have been killed from shots from two different revolvers and by two people. Two bullets which entered the body were not located. Another autopsy will be held in the event of permission being secured to exhume the body to locate these bullets and see if they are of the same calibre and fit the same gun as the two which were found and which have been exhibited in the case. Growing Interest in the Case. Indications of the growing interest in the case was to be found in the large crowd around the court room when the case re-opened this morning. Several people got into the room and were ejected. The members of the jury, who yesterday looked a little jaded after their long incarceration in the close atmosphere of the court room, were taken for a four hour automobile ride last night and today appeared refreshed. Making his announcement that

WANT BRITISH SHIPS TO USE HALIFAX PORT

Advantages of Geographical Position Referred to in British House

ADMIRAL GAUNT SAYS HALIFAX BEST PORT

Incident is Interesting in View of C. N. R.'s Proposed New Short Line

[Associated Press by Leased Wire] London, June 27.—Rear Admiral Sir Guy Gaunt has given notice of a question to the Under Secretary for Foreign Affairs for Thursday, which suggests that as it takes exactly the same time to get from Europe to New York via Halifax and railroad, as by the all-sea route to the first named port, with the additional advantage that there are better berthing facilities at Halifax, so that ships can be turned round in less time, and that since international difficulties connected with immigration laws and other domestic legislation of the United States are constantly arising, the British government should consider the advisability of recommending British steamships to make the Canadian city a port of arrival and departure.

JUDET TREASON TRIAL IS OPENED

Paris Newspaper Editor is Charged With Communicating With Enemy

Paris, June 27.—The trial of Ernest Judet, the newspaper editor charged with communicating with the enemy during the war, opened today. Judet was editor of Le Petit Journal when that publication enjoyed the largest circulation in France, but he lost this by the unpopular side of the celebrated Dreyfus case. He then became editor of L'Eclair, which declined before the war from posterity to financial embarrassment. The editor, who moved to Switzerland early in 1918, was accused of treason in November, 1919, with his friend of twenty years' standing, Hans Rossard, a Swiss, and Deputy Paul Meunier and Madame Bernain de Ravisi. The cases dragged on until February of the present year, when Judet and Rossard were condemned by default to life imprisonment in a fortress. The Assises Court, presided over by Judge Gilbert, sat without a jury and as Judet was not represented at the trial the proceedings were purely formal, the accusation being read and sentence pronounced.

Body of Raoul Delorme Is Being Exhumed To-day

[Associated Press by Leased Wire] Montreal, June 27.—Announcement was made this morning by R. L. Calder, K. Ferguson Selecting New Cabinet to Take Over the Government of Ontario

Both Sides Claim Algoma

[Canadian Press by Leased Wire] 300, Ont., June 27.—Dr. A. G. Wallis, Liberal, this morning claims Algoma riding by seven and Dr. J. M. Robb, Conservative, claims it by six. All polls have been heard from but the exact figures are uncertain as corrections from the returns collected by telephone are being made as the returning officers' papers come in.

Ontario Gave up Extreme Experiment in Radicalism For Sane, Stable Government

Comment of New York Papers on Decisive Defeat of the Drury Government

GEORGE A. HILLMER. Who ran against Hon. E. C. Drury in Halton and was elected by a majority of 700.

75 CONSERVATIVES IS LATEST COUNT

Present Returns Give Liberals Algoma But the Result There is Doubtful

Toronto, June 27.—The standing of the Conservative party in Ontario remains unchanged from last night. The Conservatives have 75; U. F. O., 17; Liberals, 14; Labor, 4, and Independents 1. Algoma, which is placed in the Liberal column, is still much in doubt, with only a few votes separating the Liberal and Conservative candidates and several polls to hear from. Premier Drury formally placed the resignation of the Government in the hands of the Lieutenant Governor yesterday afternoon.

EMIGRANTS WHO SUCCEED IN CANADA

Lloyd-George Surprised at the Glass Who Have Made Gogd in the Dominion

London, June 27.—"When I visited Canada I was surprised at the kind of man who succeeded," declared former Premier Lloyd-George in the House of Commons today in discussing the settlement of British emigrants in Canada. "They were not agricultural laborers but men who had not previously put a spade in the soil and who had no soil in which to put a spade when they were in this country. These men went across to Canada, got their grant of 160 acres of land and are succeeding."

Majority For Government Controlled Sale Growing

The Majority in Favor of the Manitoba Moderation League Bill is Steadily Increasing as Returns From Rural Districts Come In and New Stand at 34,722

[Canadian Press by Leased Wire] Winnipeg, June 27.—Further returns on Friday's voting on the Moderation League bill for the government control of liquor which reached here yesterday, show the majority in favor of the measure steadily increasing and now standing at 34,722, with still a number of country polls to be heard from.

LAND SETTLEMENT IN OLD SCOTLAND

Robert Smillie Says No Person Should Be Forced to Emigrate From Old Land

London, June 27.—The House of Commons was crowded yesterday to hear the maiden speech of the new Labor member, Robert Smillie, who was elected in the Morpeth by-election last week. He spoke on the subject of land settlement in Scotland. Speaking with studied brevity and moderation, Smillie humorously remarked that the Scottish landowners during the war passed resolutions to provide land and money for ex-soldiers, but the land was in Canada, or any place but in the country the men had fought to save. Let all emigrate who desired to do so, said Smillie, but no person should be forced to emigrate who could produce food at home. Sir Robert Hamilton, Conservative, observed that the government could put Jews on the land in Zion, therefore why could they not put Scotsmen on the land in Scotland. Honolulu, June 27.—United States customs officers here yesterday seized 253 quarts of liquor from the Tora Kisen Kabushiki-line Korea Maru. The Korea Maru was the first Japanese vessel to arrive here since the new rules governing supplies of liquor on board ships have become effective.

Honolulu, June 27.—United States customs officers here yesterday seized 253 quarts of liquor from the Tora Kisen Kabushiki-line Korea Maru. The Korea Maru was the first Japanese vessel to arrive here since the new rules governing supplies of liquor on board ships have become effective.

Nickle is Likely to be Provincial Finance Minister

SIR ADAM BECK IN GOVERNMENT

May Make Hydro Knight Minister of Power in The Cabinet.

[Canadian Press by Leased Wire] Toronto, June 27.—With a substantial majority assured the Conservatives in the Provincial Legislature and only one or two ridings still in doubt, public attention is turned to speculation on whom Hon. Howard Ferguson will select as his cabinet. Steps towards the change of administration moved quickly yesterday with the Premier-elect announcing that his Drury would be ready to assume control on July 16. It is evident that he has already pretty well decided on his ministry or at least a considerable portion of it. Some Probable Ministers Mr. Ferguson stated last night that Charles McCrea, barrister, former member for Sudbury, will be Minister of Mines. Mr. McCrea was one of the strongest debaters and one of the most consistent workers both in the House and in the committees among the Conservatives of the last legislature. Most of the cabinet pickers are selecting W. F. Nickle, of Kingston, as Provincial Treasurer, instead of Attorney General. A few months ago Mr. Nickle was looked upon as the successor of Mr. Raney should the Conservatives come into power, but during the campaign in the House he concentrated his attack on the management of the province's finances rather than on the enforcement of laws. Colonel Price, of Parkdale, Toronto, is looked upon as probable Attorney General. "Wyandotte King" Mentioned There is much speculation as to whether Hon. G. H. Henry will return to the portfolio he occupied under the Heaton government namely, Minister of Agriculture, or be Minister of Public Works. Mr. S. Martin, of Port Dover, commonly known as the "Wyandotte King," because of his great success in producing this breed of poultry, is being urged as Minister of Agriculture.

Beck to Be in Cabinet

Sir Adam Beck is looked upon as a sure member of the new cabinet. His swiftness of return from his home city of London and the defeat of the U. F. O. candidates in the constituencies more particularly affected by hydro, is heralded as a vindication of the "hydro knight" and the only doubt seems to be whether he will be the government's representative on the hydro commission holding a cabinet position upon portfolio, as Hon. D. Carmichael has under the present administration, or become Minister of Power with the government taking the hydro definitely under its wing and assuming responsibility for it as any other department. A Minister of Power with government responsibility instead of keeping the hydro non-political was frequently urged last session. The suggestion is made that M. M. MacBride, labor member for South Brant, may be Minister of Labor.

UNEARTH MASTODON ON ONTARIO FARM

It is Estimated That the Beast Weighed Between 30 and 50 Tons

London, Ont., June 27.—Wm. Jones, of the second concession of Delaware Township, has unearthed on his farm parts of the skeleton of a mastodon, or any place but in the country the men had fought to save. Let all emigrate who desired to do so, said Smillie, but no person should be forced to emigrate who could produce food at home. Sir Robert Hamilton, Conservative, observed that the government could put Jews on the land in Zion, therefore why could they not put Scotsmen on the land in Scotland. Honolulu, June 27.—United States customs officers here yesterday seized 253 quarts of liquor from the Tora Kisen Kabushiki-line Korea Maru. The Korea Maru was the first Japanese vessel to arrive here since the new rules governing supplies of liquor on board ships have become effective.
