

TYPHOID RATE IN HAMILTON

Lowest of Any City on Continent, Says Dr. Roberts.

Alderman Thinks Doings of Drunks Should Be Suppressed.

Mayor Says Times Report Was Perfectly Justified by Facts.

"On the number of cases reported to date I am willing to challenge any place on the continent of America to show a lower typhoid rate, than Hamilton," said Dr. Roberts, Medical Health Officer, this morning. That the charge of indifference on the part of the Health Department over the water supply is not justified is shown by the steps already taken. Samples of the water were forwarded to Professor Amoyt, of Toronto, for analysis to-day and are now in his hands. Dr. Roberts was most emphatic in declaring that he was not urged to this action by the criticism hurled at him by a newspaper yesterday. This is proved by the fact that with Chairman Quinn he visited the filtering basins a week ago and then immediately wrote to Toronto for sterilized bottles with which to collect samples of the water. The bottles arrived this morning. Chairman Quinn proposed that the Board of Health would bear the expense of the analysis. Dr. Roberts declared this morning that the water was not being analysed through any fear as to its purity but to back up the assertions made that there is no justification for the persistent knocking of the city water. He has made enquiries among the city physicians and promises a report on Saturday that will support his statement that Hamilton has the lowest typhoid rate of any city in America. The doctor treated the report that he was going to resign because his salary was only \$1,800 as a joke. "I am going to stay with the Board," he said, "until it is worth twice that much and the people will be glad to pay the money." He says the criticism of the department yesterday for lethargy in having an analysis of the water made was quite amusing in view of the action taken a week ago. Dr. Bingham, who was mentioned in a local newspaper yesterday, as strongly condemning the water and intended bringing the matter before the Medical Association, Dr. Roberts says, denied to him that he had any intention of doing such a thing and said that the words were put in his mouth.

"A last dying kick on the part of Mr. Fitch's friends to get the city to buy his property," was City Engineer Barrow's comment on the latest agitation over the water. He was at the basins yesterday, and said the sand sucker was cleaning the basins out without stirring the water up as much as the weeds were taken out with an ordinary rake. There is very little stuff on the sides of the basins, where they slope, he says, but on the bottom it is from one to two feet deep. "Of course it is better out of there," said Mr. Barrow, "but it would do no harm, when not stirred up with the water." About half of one of the basins has been cleaned, and work on the roads at the end of the basins begun.

Ald. Lees complains that the three newspapers of the city have made too much of aldermanic displays at recent Council meetings, and fears that the reports will not be for the good of Hamilton. He especially takes exception to the severity of the criticism of Monday night's meeting, which he contends was a model business session. The Times wants to treat the aldermen with strict fairness, and it presents this view, which men share with him. A study of the reports, however, as they appeared in the three papers does not convince us that censure was misplaced, especially of Tuesday night's performances. May it not be that point of view has something to do with the judgment? Mayor Stewart, at least, hopes for improvement, and intends to use the power he possesses to that end. And the Times will not be ungenerous in chronicling it.

One of the aldermen who shares the view that the papers have no business chronicling some of the matters that happen at Council meetings or indulging in criticism conferred to a Times man that he was responsible for getting the alderman, who was intoxicated, to the meeting, so that the motion to submit a by-law to return to the ward system should be defeated. He did not think, however, that such a "trifling matter" as an aldermanic display in this state and interrupting business should be reported in the papers. It was this alderman who Mayor Stewart warned Ald. Lees and two other members of the Council against canvassing while the vote was being taken.

Permits were granted to-day to J. Rastick & Son for a brick house at the corner of Queen and Stanley avenue for O. S. Hillman, to cost \$800, and to Robt. Dyet for a frame house at the corner of Bay and Strachan streets, to cost \$1,200.

Dr. Roberts says Eva Hutchinson, the smallpox patient, under quarantine in a Merrick street house, is progressing favorably.

Mayor Stewart was requested this morning by Ald. Lees to be one of a deputation to wait on the city papers and protest against the criticism of the Council meetings and complain that the proceedings were not being fairly reported. He emphatically refused to do this. The Mayor when asked for an opinion of the Times' report said he could find no fault with it.

"Do you consider the business was transacted in a model way on Monday night?" he was asked.

"No, in my opinion all the business should have been cleared up by 10 o'clock and there should have been no necessity of a meeting on Tuesday night." There is talk of an effort being made to get the Council to pass a vote of censure on the papers at its next meeting. Ald. Lees is being rather severely criticized in municipal circles for going to the convention of the Ontario Union of municipalities at Toronto at the city's expense and strongly opposing the effort Hamilton was making to get the convention to recommend the Government to make the laws governing the housing of industries more stringent, so that Hamilton would not have to compete with the inducements offered manufacturers by smaller places.

At a meeting of the special games

committee of the Board of Education last night to make arrangements for the field day of school sports to be held some day next month, all the principals were present and the programme as outlined by Drill Instructor Huggins, was discussed in detail. A committee consisting of Messrs. Ward and Woodell, of the Board, and Messrs. Huggins, Smye, Kelly, Nichol and Simpson, will arrange the details of the day and programme and report to the meeting of the Board of Education to-night. All preliminary races will be run off at the various schools during September, the field day being devoted to the finals in all events and the deciding of the trophy and the medal contests.
