DO YOU KNOW

that 90% of the telephones used by Canadian farmers have been manufactured by us? We are proud of this fact, for we think you will agree with us that it is a guarantee that our telephones give satisfaction to the farmer; it was to satisfy the farmer that we spent \$100,000 in designing and developing our 1117 type Telephone Set, which contains the most up-to-date features of any telephone set in your own locality. The book costs nothing—write and ask for Bulletin No. 786 and we will send it FREE.

"How to Build Rural Telephone Lines"

is the title of a most interesting and instructive book which we have just published and which we will be pleased to send you FREE. It not only contains a full description of our telephones, but it also tells the complete story of the organization and construction of a Rural Telephone Company from the time the first post hole is dug until the last telephone is installed. With this book you have something definite to work on and can recommend your neighbors and organize a community-owned system in your own locality. The book costs nothing—write and ask for Bulletin No. 786 and we will send it FREE.

SMILING JOE HAS RELAPSE

Brave Little Lad Who Though Strapped to a Rack for Four Years Was Always Cheerful and Smiling.

(Publishers Press News Service)

New York. — Poor "Smiling Joe" seems doomed to spend another long season strapped to the rack. For "Smiling Joe" had had a relapse. They thought he was cured for good when they loosed him from the board on which he had been strapped for four of his 10 years, but he shows signs of increasing weakness.

Little Joe was able to totter about with his brothers and sisters a few weeks ago. A few days later he was

taken away to Roosevelt hospital to see what could be done for the pain in the back that has begun to bother him again.

He went away smiling still, true to the brave spirit that has given him his name.

"Smiling Joe" is known the country over by his picture used in advertising. Little Joe went in his smiling face helped to bring in \$250,000 to a crippled children's hospital.

NEW WOMAN IN UNITED STATES

For the First Time in the History of the United States a Woman Speaks About Politics.

New York. — The wife of Congressman Martin W. Littleton is a great help to her eloquent husband. Recently he was unable to keep an engagement to address a political meeting. Mrs. Littleton went in his place and made the speech.

And the oratorical brilliance of Mrs. "Peggy O'Brien" Littleton, her intimate knowledge of the big political issues of the day, and her sledge hammer directness in dealing with them, forced the big audience to rise at the conclusion of her speech, and cheer her as no other woman orator has been cheered before.

Mrs. Littleton is a dainty winsome woman, devoted to her husband and to her two children, and the spotlight of publicity is the farthest thing from her thoughts.

"Am I a suffragist?" she says. "I can only say what I did in my address, that among the good things we have inherited and added to are peace, freedom, justice, education, religion, opportunity and suffrage."

"Woman is the teacher of men. Her work in politics is to teach her children the love of country, the responsibilities of suffrage, the constitution and laws of the country and how they can be preserved. Her work should begin at the cradle to make her children good citizens and should only end at the grave."

INSIST SPANISH RIGHTS Temporary Backlash With France Over Morocco

Madrid. — The Franco-Spanish negotiations on the subject of Morocco are temporarily in abeyance because of Spain's insistence on the establishment of a separate Spanish protectorate over the south and west of Morocco. Spain is willing to give up the hinterland, but refuses to abandon the coast zone. Spain also claims a conditional right to the collection of customs in the Spanish zone, which France opposes, on the ground that this would destroy the French plan of reimbursing the holders of the Moroccan debt through the collection of the customs by French functionaries.

SPAIN HAVING HANDS FULL

Barcelona. — General Wyler, captain-general of Catalonia, in an address recently to a contingent of troops bound for Melilla to reinforce the troops there who are having hard fights with the Rifis, said significantly:

"Perhaps we shall meet at Melilla soon." This is generally construed to mean that the situation in that part of Morocco is so bad that General Wyler is going there to take the supreme command.

DANGER PERIOD OF WOMAN'S LIFE FROM 45 to 50

Interesting Experience of Two Women—Their Statements Worth Reading.

White Oak, Ont. — "At Change of Life when doctors could do no more and I was given up by my friends, Lydia E. Pinkham's Vegetable Compound came to the front and did wonders for me. I had been having female troubles for years, my head troubled me severely at times, I had bearing down pains and backache and I was very anaemic from excessive flowing. I recommend your Compound highly and do all I can to advertise it as a genuine woman's medicine." — Mrs. SYLVESTER MANNING, White Oak, Ontario.

The Case of Mrs. Kirilin.

Circleville, Ohio. — "I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound. Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. If all women would take it they would escape untold pain and misery at this time of life." — Mrs. ALICE KIRILIN, 353 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.

Another Big Strike In Britain

London, May 27.—The dock strike, which has been conducted peaceably up to the present, assumed a disquieting aspect to-night by reason of the issuance of a manifesto in behalf of the strikers protesting against the use of police and soldiers in the employers' interests, and warning the government that such repressive action will provoke extreme measures on the part of the strikers and imperil the peaceful conduct of the dispute.

The probability of the strike becoming national, is increased by the belief that the carmen's strike will be a partial failure, and because of the continual diversion of London vessels to other ports.

Instructions were sent by the transport workers' federation to-night to Liverpool, Manchester, Glasgow, Southampton and other ports ordering the men to refuse to handle the cargoes on such vessels.

GIFT OF A DYING TOT

Savings of a Little Child Dying of Tubercular Trouble Goes to Help the Consumptive Poor

How true it is in many different walks of life that "a little child shall lead them." We have been shown a copy of a letter written by a lady of St. John, N.B., who only a month ago lost her little child, a girl of nine years, of tubercular trouble. The mother's words tell the story better than it can be told in any other way. She writes to the Secretary of the Muskoka Free Hospital for Consumptives at Gravenhurst in these words: "While my loved one was ill, I one night opened some literature from you at her bedside. She asked me what it was. I told her it was a paper asking for subscriptions to the Muskoka Free Hospital for Consumptives, and showed her the pictures in the pamphlet. She asked if she could not give what she had in her little savings bank. I told her 'Yes'—to give it to the doctor and he would send it. But she was too sick when he came again, so I am enclosing an express order for the amount I found in the bank, viz., \$1.75, a small subscription, but trust you will receive it in the spirit in which it was given."

The letter is typical of many that are being constantly received at the head office of the Muskoka Hospital, 347 King St. W., Toronto. These come from all parts of Canada, for patients are received from anywhere in the Dominion.

At the present time there are 156 patients in residence in the Muskoka Free Hospital, 123 of whom are unable to pay a single cent, and the other 33 only nominal sums—much less than actual cost of maintenance. During the nine years that the Muskoka Free Hospital for Consumptives has been opened, not a single patient has ever been refused admission because unable to pay.

THE WEALTHY

Life is Full of Wealthy Scots—Many of Them Men Who Could Not Be Called National Bards.

(Publishers Press News Service)

London. — In an article in the Strand Magazine by George Merrow he deals with the six richest men in the world. They are all elderly and include Rockefeller, Morgan, Astor, Strathcona, Carnegie and Rothschild. Merrow says the Canadian patriarch is credited with the largest fortune of

half a billion dollars. The six men could keep together one thousand millions of pounds. They could pay off the whole national debt of Britain, and could, if they chose, put a million men in the field and wage war for ten years. They could summon the whole population of Britain and pay them twenty pounds apiece. The six could buy all the railways in England and buy all Scotland. Millions upon millions of Lord Strathcona's holdings are in Canada.

SPIES SENTENCED

Seven Years' Penal Servitude Given Shipbroker Who Was Caught With German Naval Plans.

Leipzig. — Heavy punishments were meted out to English spies arrested at Hamburg and who have been on trial behind closed doors for several days before the imperial court.

Max Schultz, an English shipbroker, was sentenced to seven years' penal servitude. One of his associates, an engineer named Hipsch, was condemned to twelve years in jail; an engineer named Wulff, was sent to jail for two years, and a merchant, named Von Manack, and Max Schultz's house keeper, each received three years.

The judge in sentencing the men, said the arrest broke up a group of spies, whose activities were dangerous to the highest degree to the safety of the empire.

Hipsch, in particular, who had been twelve years employed as an engineer in a naval shipyard, was able to collect designs and information from all the German yards. This he delivered last January to agents of an English information bureau, thus exposing Germany's most important military secrets.

Max Schultz had organized, according to the judge, a network of spies through Germany.

Hipsch probably was the lowest salaried spy of importance on record. He was paid only \$10 a week. Wulff, it was stated, dealt with the question of submarines.

THE VATICAN AND GERMANY

Berlin. — It is officially announced that the Papal legate to Prussia was informed by Cardinal Merry del Val, the Papal secretary of state, when the special order of the Pope relating to court proceedings against the clergy was issued, that it did not apply to Germany. The order has been subjected to bitter attacks by newspapers on every side except the Catholic organs.
