CAMPAIGN AGAINST THE LORDS.

If Mr. Gladstone has his health for a year or two, and remains at the head of the British government, it will be a bad making to desert the sinking ship, is quite the home rule bill started the agitation. protection screw. and the lords have added other indignities against the popular branch by mang ling the parish council and the employers' liability bills, two of Mr. Gladstone's pet measures, which were aimed to cultivate favor with the masses of the people. Some of the utterances against the lords which we publish elsewhere to-day, show the fierceness of the attack to which they are to be subjected, and if the G. O. M. takes his coat off and throws the entire weight of his influence and his voice against the peers, they may as well pack their grips and abdicate. Gladstone has people, or he could never have persuaded seventeen he entered into partnership almost immeasureable power with the Commons which would pass a Home Rule and builder. Meanwhile he had become bill. In 1880 he was able to drive Beaconsfield out, by arousing the feelings of the people on the Bulgarian atrocities with which they had nothing to do; and with already a strong feeling in the "While his medical studies were still in that their abolition will not be a difficult progress a crisis took place in his history. matter to accomplish. In other days such an agitation as the liberals propose raising would have led to a revolution and blooduselessness of their hereditary legislators.
