TWO OFFERS FOR CITY DEBENTURES

NUMBER 180

Edmonton city debentures are growing in greater demand every day and are being eagerly looked for by Cana. dian and British financiers. All that the city now have on hand is the \$135,000 issue for the payment of the Strathcona street railway franchiss and the completion of the system for operation. It was intended by the civic authorities to hold these over until next year, but unexpected offers will probably lead to a sale at once. Two offers for their purchase have just come to hand, one being from George A. Stinson & Son, of Toronto and the other being from the recent large purchasers, Coates Son & Co., of London, England. The price in each case for the 5 per cent. forty year issue is practically par, but the Eng lish offer is slightly better At the council meeting tonight one of the offers will likely be accepted and a sale made.
