Kept a Diary.

Hensen says that he kept a diary of doings of the eventful days that llowed the departure of Captai Bartlett, the English captain of the Roosevelt, at latitude 87 degrees 48 nInutes, when Commander Peary lecided that the moment had come or a last dash inward, in which no white but himself should have the

"We hotsted the Stars and Stripes twice at the Pole," said Hensen, the only civilized man, according to Commander Peary, who ever reached the Pole. "We arrived at the Pole just before noon, April 6, the party consisting of the commander, my self four Eskimos and thirty-six logs, divided into two detachments qual in number and headed respec rively by Commander Peary and my We had left the last suppor ing party at 87 degrees 53 minutes separated from Captain Bartlett, who was photographed by

Some More Tommy Rot. "Captain Bartlett regretted that I did not have the British flag to erect on the ice at this spot, so that the hotograph might show this as the England had been advanced. I kept a personal diary during

historic dash across the ic Our first task on reaching th Pole was to build two igloos, as eather was hazy and prevented tak ing accurate observations to confirm distance travelled from Colum Having completed the snow houses we had dinner, which included tea, made on our alcohol stove and then retired to rest, thus sleep ing one night at the North Pole. 'The Arctic sun was shining when enough to blow out the small flags The ensigns were hoisted toward noon from tent poles and tied with fish lines. We had figured out the distance pretty closely and did not go beyond the Pole. The flags were up about mid-day, April 7th, and were not moved until late that even

early, but we waited some hours t Made Three Observations. "We made three close together When we first raised the American flag its position was behind the in oos, which, according to our initia observations, was the position of the pole, but on taking subsequent of ervations the Stars and Stripes were moved and placed 100 yards west of the first position, the difference in the observations being due, perhaps.

Having spent eighteen years with Commander Peary, and a considerable portion of that time in the Arccontinued Hensen, "I have acuired a knowledge of the dialect of Northern Greenland Eskimos. who are probably superior to any other. It is known to travellers in the far north the Eskimo entertains prejudice toward any tongue but heir own, and it is therefore necessary for successful dealing with them their unwritten language.

When the flag was placed, Commander Peary exclaimed in English: plant the Stars and Stripes

"Commander Peary shook hands all round and we had a more liberal dinner than usual, each man eating as much as he pleased. The Eskimos danced about and showed great pleasure that the pole was reached. For years the Eskimo had been trying to reach that spot, but it was always with them. "Tinnelgh," which trans-counts of Dr. Cooks, alleged polar of the sub-ject as it, now stands. To do so I will debate of the sub-ject as it, now stands. To do so I will never law and unconscious in a barn be issued.
