Notice of Estray Cattle for inspection: JOHN HOWEY, Managing Editor; C. F. HAYES, Business Manager.

MONDAY, APRIL 3, 1911.

A FIND.

The Toronto News has found a new one, surely. The reciprocity agreement, it explains, would turn the industries of the country and what these ruined, Canadian towns and cities could not borrow money from the British investor with which to carry on public improvements.

AN "INTEREST."

The Nor-West Farmer says in reference to the reciprocity agreement: "It is true that the Winnipeg Grain Exchange, the Manitoba Legislature and a few other interests have succeeded in passing resolutions condemning it, but it is a pretty safe guess that at least seventy-five per cent. of the people of Canada want of the Great Lakes are in favor of its being passed."

MR. BORDEN AND HIS PLACE.

Rumors of Mr. Borden's retirement from the leadership of the Opposition are again in the air. Reports have been set in circulation practically every time the Opposition has looked horns with the Government on an "important" question for several years past.

THE "ANTIS" ATTACK THE WESTERN FARMER.

The News of St. John, Quebec, is one of the papers favored with the patronage of the Anti-Reciprocity League. The following article, clipped from its columns, shows the kind of campaign the League is carrying on in Eastern Canada.

TO HOLDING THE MARKET AGAINST COMPETITION.

In short, the view of western progressives is that the tariff has ceased to be a National Policy, that it is administered to serve a set of interests in league with the Government, and that the time has come for a thorough examination into the bearings of the fiscal system upon the western provinces.

MR. BORDEN AND THE ALLIES.

Mr. Borden's trouble it seems came not from his ambitious lieutenant but from the allies. Having joined the Conservative party, Mr. Borden's party in the House to fight reciprocity, and undertaken to put up the stakes for the war, the allies were not to be in the war for the fun of the thing, nor for the political fortune was to be made out of the campaign.

THE WHIP FOR THE WEST.

Toronto Globe.—Last autumn the editor of the Toronto News took a trip through the West. The object of studying the problems of the part of the Dominion. On his return Mr. Willison wrote a signed article under the heading "The Whip for the West," in which he followed up a line developed during the summer in the columns of the News.

HOIS DE COMBAT.

The Calgary Herald admits that C. A. Magrath, M.P., for Medicine Hat, seems to have zested his fate so far as that constituency is concerned by his resignation, and has stopped running the series of "special articles" provided for it from the pen of Professor Leacock on the beauty and blessedness of the protection, and the interest—absolutely it seems—in the reciprocity controversy.

THE UNITED STATES.

"The outlook is that in case of ratification many farmers cannot possibly benefit as much as they think under reciprocity. The probability is that the Canadian farmer's home market for early fruit, vegetables, and eggs will be ruined by American competition. He will of course have the privilege of shipping to the United States agricultural products which that country already grows in abundance.

WATER POWERS IN THE WEST.

Canadian Mail, London, England: The Dominion Department of the Interior under the Hon. Frank Oliver's management has established a policy for the utilization of the waterpowers in the west, and of those in the railway belt of British Columbia, which by a recent decision of the Judicial Committee are vested in the Federal Government.

IS ALLEGED TO BE A FILIBUSTER.

After All Night Vigil Off Sandy Hook Yacht Loyal is Prisoner of War. New York, March 27.—The 76-foot schooner yacht Loyal, as trim a vessel as is to be seen in New York harbor, lies a prisoner today alongside the destroyer Seneca, off the Tompkinsville wharf station.

TAKE YOUR CHOICE.

That an anti-reciprocity journal should annihilate one day the argument it advanced on the preceding day is common to excite comment. But that one should succeed in destroying in the later half of an article the whole case it built up in the first half of the same article is a feat that is not to be despised.

THE BOARD OF RAILWAY COMMISSIONERS.

"The Board of Railway Commissioners, in the first instance, and subject to revision by the Board at the end of each period of seven years during the continuance of the license, on the third, the rental charged by the government for the cost of the power under the license is subject to change at the end of each twenty-year term during the continuance of the license.

ASSAULTED CONSTABLE.

Montreal, March 31.—The four men who assaulted Constable Meagher about a week ago injuring him so severely that he had to be taken to the hospital and has been off duty yesterday afternoon, and were today sentenced to pay a fine of \$50 each.

TO EXHIBIT AT REGINA.
