

The Evening Chit-Chat

Letters From a Successful Business Woman to Her Niece.

Dear Joan: That natty little sample chevoit that you is always right. You don't have to sent me certain- watch her, you don't have to worry ly ought to make suit. Yes, I do f a w n-colored corduroy. I think t h e gentleman

w h o said "a

word to the wise is sufficient" must have had you in mind for his title role. While we are or this subject of clothes, I want to two or three misspelled words and tell you a little experience that I had three or four commas omitted, and

I've been wanting a good seamstress to do some plain sewing for me. Last night I heard of one and hustled right down to see her, because I was told she was pretty hard to get hold of. She was, all right. When I asked her for a week sometime this month she said, "I'm afraid that would be quite impossible. I have every day taken."

I said, "Well, I'll be willing to wait you can possibly do for me?" Then she sort of blushed and

stammered, as if afraid I wouldn't believe her, and said, "Well, to tell the truth I have all my time engaged for a year and a half."

What do you think of that niece? She charges a dollar and a half a day and she does only plain sewing. She has never advertised in any way and yet her time is spoken for fo a year and a half ahead.

I talked with one of her customers and she says it's because the seamstress is a woman in a thousand. "She does only plain sewing doesn't dressmake at all, you knowbut she is worth every cent of the

money because everything she does

about her work, and you never hav an ideal office to rip out anything." I know another seamstress in thi like it very much city-a medium good worker-who better than the charges only one dollar and a quarter -twenty-five cents less than this woman-and yet she hasn't half the

> work she wants. That's the difference between doing work so-so, and doing it right.

That's the difference between get ting your dictation all right except getting your dictation RIGHT. That's often the difference between

hanging onto a job at ten dollars a week, and having the job hang onto you at three times ten. I think the story of that sewing

woman ought to be told at every business college, and every other college, and every other kind of college, for that matter, in the country. If I didn't have too much else

my hands I almost think I'd go around telling it. Yes, I know I'm a regular crank

But I've always had an idea that the reason cranks are called cranks is because they are what mak the world go 'round. So I don't mind Laugh at me if you want to, bu

please don't forget that woman whose work was Right-with a capital R. As ever.

Your "Queer Old" Aunt.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think

clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachis. Blood diseases are found where there is unclean blood.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

Fads and Fashions.

Cut velvets or velvet brocades are among the most elegant of the new materials for handsome reception

Feather and fur toques or turbans are again in favor. Swansdowne, grebe and moleskin are in special de-

Halifax People are Interested-The Company was Originated in this City Five Years ago and has Pros

A Victoria, B. C., despatch says: The Mackenzie & Mann interests will, about December 1, take over the business of the Pacific Whaling Company, which they have bought as a going concern for one million dollars, and will organize a new company with a capital of two or three million

The deal will be followed by an imnediate enlargement of whaling operations and the institution of halibut and shark fishing, in connection with which freezing plants and storehouses will be erected at Sechart, in the Queen Charlotte Islands, and in all probability at other points.

Five new whalers have been or dered, and will arrive early next year. It is expected that three will reach Victoria in February and two in March.

The exploitation of the halibut fishing on the Pacific coast as planned by the new owners of the whaling company, will, undoubtedly, result in the building up of the industry.

Up to the present time nearly all the halibut caught off this coast has been taken to Seattle, as the lack of freezing plants, storage facilities, and railway transportation has prevented profitable fishing by Canadian oncerns. With the building of the rand Trunk Pacific and the Canalian Northern Railway, mainland lines and the erection of adequate lants at advantageous points the industry should prove a most lucrative one, especially when it is combined with the catching of whales and sharks.

It will be remembered that plans are already being prepared by British capitalists for the establishment of immense fisheries on this coast in connection with the Grand Trunk Pacific at Prince Rupert, a project in which Sir George Doughty, who recently visited the coast upon the advice of Governor-General Grey, is interested. The operations of the two concerns will certainly result in the building up of British Columbia fisheries to a stage where they will be real rivals, in point of value, to those of the east coast of England.

The purchase of five new whalers by the Mackenzie and Mann interests will bring the coast fleet of these vessels up to ten, and it is proposed o immediately secure sites for the two new whaling stations from which he new vessels can be operated. In reference to the above, a Re corder representative called on Jas. F. Donahoe, of this city, this morning. and was informed that the despatch was correct. He stated that the meetng of the Pacific Whaling Co. was neld at Victoria, B. C., on Oct. 14. when the sale to A. D. McRae, of Vancouver, and Andrew B. Davidson of Winnipeg, was agreed to. He stated that the action at this meet ing was almost purely formal, ar rangements for the purchase of the property having reached an advanced stage, and five new whalers ordered by the Mackenzie & Mann representa tives.

Mr. Donahoe stated that the purchasers had put up \$25,000 as a forfeit in case the deal was not completed. But now it had been and the starcholders will benefit materially. \$75 cash for each share of preerred stock.

Each holder of common stock will get \$62.50 a share.

Besides this each holder of stock whether preferred or common, will receive five £1 shares for each share held in the old company.

The par value of the Pacific Whaling Co's, shares was \$50, -Halifax Recorder, Oct. 25.

Married On Deathbed

Nova Scotia Couple Have a Strange Wedding.

Somerville, Mass., Oct. 24 .- As an heroic measure adopted as a last hope to put her on the road to recov ery, Miss Alwida H. Harlow, lying on what is believed to be her deathbed match a lower skirt trimming or that was maried at 1 p.m. to-day to Frank A. Chute, at 671 Somerville Avenue, Somerville. The bride, who had been apprised that her end was near, and who had been ill since last July, was closely watched during the ceremon by her physician, who, fearing that sudden rush of emotion might result disastrously, stood ready to administer a heart stimulant. She is reported a trifle better but her life is still despaired of. She was taken ill at Port Mouton, N.S., her native place, last July, while on a visit with her fiance. Both are natives of Nova Sco ia met in Nova Scotia, and have reatives there. She is 34 and he is 40 They had been engaged for 15 years The bride is ill with typhoid fever and an ensuing complication.
