There are many good reasons why you should "KLEAN UP" your house.

Paint preserves wood from decay. A painted house will outlast an unpainted one. People are judged by the appearance of the house they live in, a shabby looking house is a reflection on the people who reside therein. A house which is painted every 4 or 5 years expresses in a forceful manner the cleanliness and character of its occupants. Buy enough "KLEAN UP" Paint now to improve the appearance of your house.
