The Brain's S. O. S.

Remarkable instances of thought transference were related by Dr. Stenson Hooker, the well-known nerve and diet specialist, to the T.B. man.

"On one occasion," he said, "I was a mile from home when I saw in my mind's eye a telegram awaiting me at my house. I 'sensed' a message that I was wanted in some distant town. I hastened back and found a telegram from my wife, who was away, asking me to join her, and bring her back."

"Another case occurred when I was making arrangements to visit a patient about thirty miles out of London. The invalid's brother explained the case and gave me the address, but no description of the house. Just after the brother had left I had a mental vision of the patient's bedroom."

"On going to the house I found that all was as I had seen it in my mind's eye. While the brother was talking to me his own mind had been focused on the sick room, and my mind, in sympathy with his, had received the impression."

"I was talking to a widow, and she told me she had never been the same since she had lost her husband. At that moment I saw her husband so plainly that I was able to describe him to his wife. She stated that the description was correct, although I had never seen him when he was alive. Again the thought of him conformed up in her brain had impressed itself on mine."

"Cases in which a dying person appears to a near relative are innumerable, and I can vouch for at least one in my own family. The man to whom the vision occurred did not believe in telepathy. He was travelling in Germany before the war. Sitting one day in his hotel, he was amazed at a visionary appearance of his father."

"Later a telegram reached him conveying the news of his father's death. He was actually dying at the moment his image appeared to his son."—T.H. Bits.

Sea Monster Sighted by Steamship.

BOSTON, Sept. 9.—Captain W. T. Holmes, of the steamship Calvin Austin, on arrival here from New York, reported sighting of Scituata, a sea monster of unknown species.

His officers and the members of the crew confirm his statement. Fearing ridicule Capt. Holmes was reluctant to discuss the matter but after being urged he stated that he sighted what at first appeared to be a seaplane lying motionless on the water, about a ship's length ahead. As the steamer approached the object was seen to move and then a ball shaped head shot out of the water and turned in the direction of the oncoming vessel.

Then it was that the Captain and pilot got a full view of the stranger. Its eyes were like large glass balls, while protruding from the neck were two fins, or flippers. The entire body of the huge monster was visible. The captain said it was nearly twenty feet in length and must have weighed a ton.

The pilot and the quartermaster who also saw the monster described it as even larger than the captain's estimate.

Repairs Needed.

A section of the road within the jurisdiction of the Municipal Council, leading to Mundy Pond from the head of Pleasant Street, is in an impassible condition owing to ruts and loose stones with which the thoroughfare is covered. It is hoped that in the interest of the large number of people who pass this way that repairs will be effected as soon as possible.

REMOVING THE ENGINES.—The work of removing the engines from the wrecked schooner Huntley began yesterday. It is hoped that when these are salvaged that the hull will float sufficiently to get it on dock.

The quality of Prince Albert Tobacco is widely recognized as unsurpassable in merit.
