They may rely upon having any order committed to our care executed in the most prompt manner and in such a style as will defy competition, while the charges, as usual, will be much below any other office in the county. We have an immense assortment of new type and all the latest styles in cards, inks, &c.

ACTING TO THE LIFE.—The realistic tendencies of the modern drama have recently received a fresh and curious illustration in Philadelphia. An actor named Mordant, at the Walnut-st. Theatre, being cast for the part of Mr. Dickens' murderous house-breaker, Bill Sykes, argued that, as Mr. Sykes was "a drunken ruffian," it was necessary for his representative to be a drunken actor; and therefore, before paying his devotion to the hybrid goddess who presides over melodramas, and whose name is unknown to us, Mr. Mordant sacrificed at the shrine of Bacchus with such reckless devotion that, as his manager averred, he was quite incapable of playing a brute with propriety and discretion. Expelled from the stage, this jovial actor made an assault upon the treasury of the theatre—not a la Sykes, with a jimmy and false keys, but with a summons to the manager to show cause why he should not pay Mr. Mordant a full week's salary. The latter will not likely be able to show satisfactorily why he should have it.

FATAL ACCIDENT AT LYNDON.—A correspondent of the Spectator narrates the following terrible calamity. At a railway on Big Creek, a pretty large stream which flows through this section of the country into Lake Erie, and which is now covered for miles with pine logs for the American market, two men, named Francis Pratt and Henry Miller, were at work rolling logs into the creek. Having ascended to the top of the railway Miller seated himself on a large log which appeared to be frozen to the ground, for the purpose of resting himself, and while Francis Pratt, who came up a few paces behind Miller, was in the act of doing so likewise, the log started to roll down the fearful declivity. Miller fell backwards but Pratt being in front, sought to save himself beneath a small projection below him, in endeavouring to do this the log rolled over his body, crushing him so shockingly, that he died within an hour. A post mortem examination revealed a sad state of things. His ribs were broken and embedded in the liver, the diaphragm ruptured, and the lungs and other internal viscera greatly congested. He was a young man, in the prime of life, and greatly beloved by all of his many amiable qualities, and consequently his sudden death has shocked, not only his aged parents, who mourn the loss of an excellent son, but everybody who knew him.

BOILER EXPLOSION.—On Monday 30th ult. the boiler of Mr. E. H. Potter's steam mill on the Boswick Road, in the township of Middleton, County of Norfolk, exploded, killing four men—a father and a son named Little, Peter McKinley, and one named Vincent. Another was very slightly wounded. The engine house and part of the engine are completely wrecked. One portion of the boiler was thrown a distance of forty rods. The bodies of the unfortunate men were interred in Tilsonburg, on Wednesday, after a funeral service in the Presbyterian Church.

A FAST ENGLISH BOY.—A young lad was recently brought before a Liverpool magistrate, charged with embezzling nine pounds from his employer. On investigation it appeared that the boy, less than 14 years old, had spent the sum in entertaining his sweetheart (aged twelve) with pleasure trips on Sundays, donkey rides, and other refreshments. The young lady testified to that effect, and also averred that she had frequently drawn on young Lothario to the amount of two and three shillings, and that drafts were always honored through a female friend, who acted as messenger. The young scapegrace admitted the charge, and coolly told the magistrate that he "allowed Miss Taylor 6s. a week."

THE DEAF AND DUMB INSTITUTE TO BE REMOVED FROM HAMILTON.—We regret being compelled to make the announcement which seems to be quite authentic, that Hamilton is about to effect the Deaf and Dumb Institute, at present located at Dundas Castle, for the support of which our citizens have contributed so generously during the years it has been mainly dependent upon private subscription. Now that the Government has assumed the management, the claims which Hamilton would have for its permanent location are quite ignored, and, without previous notice, the decision is announced to remove the Institute to Brantford. The Kirby House, at present occupied by the military, but which is shortly to be vacated by the removal of the troops from Brantford, has been secured by the Provincial Government for the permanent location of the Institute.

BANK PROFITS.—It is stated by the Montreal Gazette that the profits of some of the Canadian Banks are enormous. Those making the largest percentage of profit on capital are said to be the Bank of British North America and the Royal Canadian Bank. The former made, during the month of February, \$114,645, or at the rate of 28 per cent per annum; and the latter made \$16,323, or at the rate of 25 per cent per annum. The Bank of Montreal made 6 per cent; the Niagara District Bank 8 1/2 per cent per annum; the Bank of Commerce, a most flourishing institution, 11 1/2 per cent per annum; The Merchants' Bank, however, instead of making anything, lost \$866 during the

EDUCATION IN ENGLAND.—The Royal Commission on Middle Class Education have at length closed their labours. They propose to place all endowed schools under a Central Board, and to divide England into eight educational districts. They further propose to divide schools into three grades—the first for boys who are to be educated up to eighteen, and to be taught Latin and Greek; the second for those who are to be educated up to sixteen, and taught Latin and two modern languages; and the third grade for those who are to be educated only up to fourteen, and to be taught the elements of Latin and French. It is proposed that every parish is to be allowed to levy a rate for a school of the third grade; every town of 5,000 inhabitants to be allowed to raise rates for a school of the second grade; and every town of 20,000, for a school of the first grade.

A NEW AND GRAND EPOCH IN MEDICINE.

DR. MAGGIEL is the founder of a new Medical system. The quantities whose internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite with from one to two of his ordinary Pills, and cures the most virulent sores with a box or so of his wonderful anti-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which full taken, creates an absolute necessity for another. One or two of Maggiel's Pills suffices to keep the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping and no reaction in the form of constipation if the liver is affected, its functions are restored, and if the nervous system is feeble, it is invigorating. This last quality makes the medicine very desirable for the weak and delicate females. Ulcers and eruptive diseases are literally extinguished by the disinfectant use of Maggiel's Salve. In fact, it is here announced that Maggiel's Bileous, Dyspeptic and Diarrhoea Pills cure where all others fail—Warts for Burns, Scalds, Chilblains, Cuts, and all Abrasions of the Skin, Maggiel's Salve is infallible. Sold by J. HAYDOCK, 11 Pine Street, New York, and all Druggists, at 25 cents.

COUNTERFEITS.—Buy no Maggiel Pills or Salve, with a little pamphlet inside the box. They are bogus. The genuine have the name of J. HAYDOCK on box with name of J. Maggiel, M. D. The genuine have the Pills surrounded with white powder.

FRIGHTFUL BURNS!—Frightful Scalds!—Dr. Maggiel's Salve stops the most violent pain of Burns, scalds, etc. It is unerring. Sold in Guelph by A. B. PETRIE, Druggist, Market Square.
