

The New Brunswick Elections. We observe that the Government organs are always boasting of having carried the Lower Provinces. We commend the following extract from the St. John Freeman to their attention: "The Ottawa Times says: 'It is childish and absurd to attempt to deny that the wonderful change in public feeling is largely owing to the policy pursued by the Dominion Government.'"

In 1867 New Brunswick sent to the Canadian Parliament eleven representatives generally regarded as Government supporters, and four others who avowed the intentions of giving the Government a fair trial. Of the representatives returned only four or five are generally supporters of the Government. There has been a change.

It would amuse the editor of the Freeman (Hon. Mr. Anglin) to see the Ontario Ministerial papers classifying himself as a supporter of the Government.—Globe.

A Chemical Food and Nutritive Tonic. Without Phosphorus no thought, say the Germans, and they might add, no action, since Phosphorus and the compounds are known to be the main power of the nervous and muscular system. The constituent more than half the material of the human body being found in every tissue, and their presence is absolutely essential to nutrition, as they promote the conversion of albumen in the food into fibrin, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of all the Consumptive and Venereal diseases, which are caused by impoverished or poisoned blood; and in diseases of women suffering from irregularities, obstructions and exhausting discharges, in pale, puny children, and that condition of nervous and physical prostration resulting from bad habits, excessive use of stimulants and tobacco, and all that train of evils known as "Nervousness." The great reliability and promptness in its effects in immediately and permanently restoring the deranged constitution has made DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES and CALISAYA a great favorite with the Physicians and Public. Sold at \$1.00.

EQUITABLE Life Assurance Society, No. 120, Broadway, New York. Wm. C. Alexander, President. Henry B. Howell, Vice-President. Net cash assets, 1st Feb. 1872 \$18,000,000. Annual Income 8,000,000. Total paid policy-holders, 1871 3,459,340.37. Surplus, 1871 1,700,000. New Business, 1872 \$41,804,027.00. The Largest of any Company in the World.

This Society has led the van in the insurance world for many years; it has introduced more improvements and given greater security to the business than any Life Company in the United States, and is deserving in this respect of the praise and gratitude of the community.

There are many reasons for selecting the Equitable Life Assurance Society. 1st—No company has such large annual transactions, thereby infusing into its business a constant accession of public confidence. 2nd—Being one of the most progressive institutions of its kind in the world, it is ever prepared to seize at once upon all the improvements in the business that science can suggest.

The Equitable Life Assurance Society issues every recognized form of policy, and especially the FORTUNE SAVINGS FUND INSURANCE which the Company introduced. This new plan has become very popular, as equalizing among those who are insured, under the advantages which arise from the profits of the business, without in any respect infringing upon the normal results for which Life Insurance was first instituted.

The EQUITABLE feels that it has the strongest claims upon public confidence. Under the management that distinguishes it and the principles by which it is guided, perfect security is given for the future, than which no greater inducement can be held out to all who wish to insure their lives. Further information regarding the different kinds of Policies issued by the Society can readily be obtained at THE COMPANY'S OFFICES, 120 Broadway, New York, Or from any of its representatives throughout the United States and Canada.
