

## APOLOGY.

Mr. George Jeffrey begs to apologise to those Ladies who owing to the press of business were compelled on Saturday to leave the Store without being attended to, and in order to prevent such an occurrence again would respectfully suggest the advisability of their purchases being made in the morning as the rush always occurs in the afternoon.

find a feasible route by Fraser valley or by the Chitukeweytik river which falls into Fraser River north and the Similkameen Valley, near Princeton, joining the route No. 1 on Fleming's Map, near Kamloops. Horetzki will penetrate the Cascade range by Gardner's Inlet, which is navigable far inland, and from which a good passable route is reported by Francisco Lake, Fort Fraser and Nechas River to the north bend of the Fraser. This route, if finally adopted, will enable the Government to reach the Pacific waters by a shorter line than any other, but at a point more than one hundred miles north of Vancouver's Island. The party of engineers who will locate the line finally from the Lake of the Woods, or Winnipeg River, will start in a few days. The line from Thunder Bay, or Kaministiquia River, to the east end of Lac des Milles Lac summit level, will also be located immediately. The length of this line is about sixty-three miles. The construction of it, and a section from the Winnipeg River to Fort Garry (about 100 miles) will be proceeded with as soon as the line can be located between these two points. Some contemplated improvements on portages between the line of lakes and rivers will make the route an exceedingly short one for summer travel and freight. A small party will start from the head of Nipigon Bay to explore this country eastward on Lake Superior shore, with a view of ascertaining whether it is not possible to construct a road north of that lake. Mr. Hazlewood will commence work at once on the French River, and explore for a line to Ottawa River, near Pembroke. To carry out the wish of Parliament, as expressed by a deputation to the Premier, an engineer has been appointed to explore the supposed line of the Huron & Ottawa Railway, from Ottawa City to Parry Sound. He is now organizing his party, and will proceed west about the middle of this week.

THE GRAND TRUNK.—It now appears that Mr. Hickson has been made President of the Executive Council of this road in Canada, while Mr. Seargeant is made Vice-President of the Council, and the same time the active manager. The London correspondent of the Globe says that the management of the road in Canada is vested in the President in Council. All acts of the Council are subject to approval by the London Board. The four departmental officers—the locomotive and car, the engineering, the passenger and the freight—attend the Council without votes, and those four chief officers and their immediate staff have an interest in the dividend of the Company after the second equipment are paid, equal to about 25 to 35 per cent, on their salaries. Mr. Potter leaves for Canada on the 1st of August, accompanied by Mr. Seargeant.

In the first four years of his residence in London, J. M. Ballow, the electionist, contributed (by preaching and reading) five thousand pounds to the charitable institutions of the metropolis.
