# SNAP-SHOTS AT VARIOUS SPORTS.

Harry Stinson, driver for Miss Wilks, leads the list of winning drivers down the Grand Circuit. If Sadie Mac and Katherine L. keep on edge, he will wind up the season much in advance of the rest of the bunch of

For the first time in eight years Canada won the international cricket And they did it quite handily. The Canucks batted well and fielded better than usual. The bowling was decidedly better than for many years. One thing in connection with the game was the justification of newspaper critics, who insisted on Cameron being on the team. He certainly did fine work. He would not have been on the team if a kick had not been made. In these games, society dudelets are fine as bric-a-brac, but as cricketers-not much. The best players are wanted, and wire-pulling for a place on the team should be left out. A rare thing about the game was the fine work of the regimental "youngsters," Terry and Saunders. Their work was giltedged.

That horse Allerson, in the fast pacing class, is great. He is one of the great sensations of the year. He won a seven-heat race the other day-winning three heats, and being second in the other four. The fastest time was 2:06 3-4. and the slowest 2:12 3-4. It's a game race-horse that can stand a journey like that.

There will be only three teams in the senior O. R. F. U.—the Hamilton Tigers, the Toronto team, and the Londons. These three will furnish some good Rugby, but a line on the abilities of the Torontos or Londons will have to be given before it can be judged what sort of a race it will be. The Tigers will be fast, no doubt of that. The Toronto outfit, with several old 'Varsity men in, should make a run. As for London, keep your eye this way.

The O. R. F. U. executive have organized an intermediate series, and there are twelve teams in it. This series ought to be a great series. The quality of Rugby should be the simon-pure stuff. Dundas has gone up to this

The junior teams are as numerous as sand-lots. The "kids" always play hard, and furnish a good article. London will have a good junior team,

Clark Griffith is champion derrick artist of the American. Over 50 times this year he has ordered some one of the Highlanders to back-pedal, and hie them to the club house, when there was a cloudfest brewing. That is somewhat of a record. Connie Mack, of the Athletics, also uses the sling to

Rube Waddell is champton game-saver in baseball. He is called upon more often than any other twirler in the business to stop the slaughter of some other twister. Rube is great at that stunt.

The aftermath of the C. L. A. senior series is coming out now. Brantford is digging deep in their pockets for the change to pay up the back salaries of the tourists. The change is hard to find. That will about hold them.

According to the minutes of the O. R. F. U. executive, they are going to suggest a single home-and-home series with London, and a double home-andhome series between Hamilton and Toronto, London is supposed to like that fine. Now, steady, Hogtown, what do you want? What's the matter with a straight home-and-home series, and if you and Hamilton want to play extra games, get together for a post-season series? It is all right to infer that the London team won't do in senior company, but don't go that way about it. If the team is not fast enough for your senior ranks, back the team into the intermediate series. Don't play the superior team racket at all. The pose does not become you well. If Hamilton and Toronto want to have a senier series among themselves, let them say so. London team is in the senior series, and is in there to stay. As you are from Missouri, we will exhibit for you, and demonstrate that the game can be played outside of Toronto. Likely, if Peterboro had come into the senior ranks, that executive would have placed that team and London in a district by themselves, and allowed Toronto and Hamilton to play together. London asks no favors. A straight schedule, and no hang-overs is the demand from this section. Jockeying for
