#### FIERCE HAILSTORM VISITS KERWOOD

Great Damage to Crops-A 12-Acre Field of Oats Destroyed-Hail-

was most disastrous in its effects, al- nard. most totally destroying oats, corn, mangels, etc.

Where it was at its worst was about a mile west and southwest of Kerwood. A heavy gale from the northwest accompanied the hail and rain, and most of the houses in this vicinity have the north windows badly

The hail in its course struck a 12acre field of oats, completely battering the standing grain, laying it flat on the ground.

One of the stones, by actual measurement, was found to be two and a nalf inches in length. The fences shows the marks of hailstones as if hit by bullets. An unlucky hen happened to be in the path of one of the hailstones. She never smiled — or tackled-again, and an inquest was considered unnecessary

Altogether several thousands of dollars' damage was done in this neighborhood, practically all the crops not harvested being ruined.

#### SUMMER MONTHS FATAL TO SMALL CHILDREN.

Every mother must know how fatal the summer months are to small children. Cholera Infantum, diarrhea, dysentery and stomach troubles are all common at this time, and many a precious life is snuffed out after only a few hours' illness. As a safeguard mothers should keep Baby's Own Tablets in the house. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes on suddenly, will bring the little one through safely, Mrs. R. E. Sanford, Inverary, Ont., writes: baby was sickly for over a week with stomach and bowel troubles, and cried night and day. Nothing helped her till I began giving her Baby's Own Tablets. but they helped her right away, and now she is a big healthy child with fine rosy cheeks. The Tablets are certainly a wonderful medicine, and I recommend them to all my friends who have little children." Sold by medicine dealers or by mail at 25 cents a box, from The Dr. Williams · Medicine Company,

# SCHEME EXPLAINED

on Monday for their new home in Billings, Montana, after a pleasant visit with relatives here.

Municipalities Through Which the Line Passes Have Reen the Line Passes Have Been Buying Stock.

## NO PROPOSITION IS MADE

City Council of London Met Representatives of the Company Yesterday But Nothing Was Done.

A conference was held vesterday afand W. H. Bugg, of Berlin, representatives of the People's Railway Company, and the city council relative to bringing the railway to London. No definite action was taken on the propwill be received.

Mr. Bugg explained the proposition. The railway was a people's railway, in that the people put up the money. The company was capitalized at a million dollars, and had a charter for 116 miles of railway.

A People's Railway.

"Our scheme is to make it a people's railway in truth," said Mr. Bugg. "We issue preferred stock six per cent to the Manager Dark Makes Recom= municipalities. The interest is cumulative. We issue this stock to the extent of \$3,000 per mile. A number of municipalities have taken up this stock; in fact, we have succeeded in every municipality where the scheme has been properly placed before the people. New Hamburg took \$20,000 worth, Wilmot Township \$30,000,

Wellesley Township \$15,000, Wellesley Township \$15,000, Blenheim Township \$15,000, mitted in Guelph for \$85,000. You see the municipalities have responded well when the question has been considered. No Definite Proposition. "So far as London is concerned we

have no definite proposition to offer you as yet. We are merely spying out the land, and have come before you to inquire as much regarding the prospects here as to make you an offer Of course, you would be expected. rather you would be asked, to take preferred stock in the concern. The amount would be determined by the number of miles of railway in this district. We do not ask you to decide offhand what you should do. Look the proposition over. It is merely government ownership applied. There will e no watered stock. We will be bonded up to \$16,000 a mile, a low estimate indeed. The promoters are getting nothing out of it but common stock, and they have that much faith in the enterprise that they are confident the common stock will pay interest from

the beginning. Mr. Bugg had no plan for entering he city as yet. Their engineers had not gone over the ground at all, but would do so shortly. When they had done that a proposition would be submitted to the council of London.

Is Now Assured. Miss Myrtle B. Charlton entertained house party last week, consisting of lined the scheme.

Mr. J. C. Moody, of Berlin, also outlined the scheme. There was much system. There was excellent farming country round about.

"What do you think of the prospects Moody asked the aldermen. "I think the time is ripe for a system of radials in Western Ontaro, said Mayor Beattie. "Radials would be a good thing for London, and the city would profit greatly by them."

"What would happen the charter of the North Midland Railway?" asked Ald. Fitzgerald. "You know they have charter over practically the same ground.

"If we built first, I do not think you would hear much of the other road, as it would, if built, duplicate our railway," answered Mr. Bugg. "It looks very much as if the road built first would be the only one. Await Further Information.

After a desultory discussion on the question, it was decided to await fur-Mr. Bugg pointed out that fifty miles of the road was under construction at the present time, and if the members of the council could at any time come to Berlin they would gladly show them round and explain the proposition. Those present were Mayor Beattie,

The office will be open on Tuesday. The taxes are due, July 31, but this osition, but a further conference will falls on Sunday, and as Monday is a be held later, when further information holiday, it has been decided to open on Tuesday to accommodate those who could not pay their taxes sooner.

# ON A SPRINRBANK MAIN

## mendation Which Is Adopted by Commissioners

At a meeting of the water commissioners held last night in the city hall. It was decided to purchase a self-registering Venturi meter to cost \$1,063, to be installed on the Springbank main to the city. Manager Dark recommended this sort of meter, as it would be possible to tell at any hour what the consumption of water was, and records could be kept. On motion of Mayor Beattle, it was decided to make the purchase.

Manager Dark presented a sample of a sealed tap to be placed on lawn services when not being used. It looked satisfactory and will be used.

# STOCK OF GOLD "I Honestly Believe 'Fruit-a-Tives'

# The Greatest Cure For Rheumatism In The World"

Knowlton, Que., Oct. 12, 1909.

"For many years I suffered from Rheumatism, and the attacks were ery distressing and prevented me from doing my ordinary work. I tried many remedies and physicians' treatments, but nothing seemed to do me much good, and I was becoming very anxious for fear I would become a ermanent cripple from the disease.

"I tried 'Fruit-a-tives,' and this medicine has entirely cured me and I honestly believe it is the greatest Rheumatism cure in the world."

Such a statement could not be bought from a man like Mr. Mills. He hinks too much of his good name to sell it or sign it to an untruth, Mr. Mills tried "Fruit-a-tives" after all other treatment failed-and "Fruit-atives" cured him of Rheumatism. In the goodness of his heart he wrote the above letter in order that sufferers in all parts of Canada would know that there is one remedy that actually does cure Rheumatism. This testimonial was entirely unsolicited on our part. We did not know that Mr. Mills was aking "Fruit-a-tives" until we received the above letter.

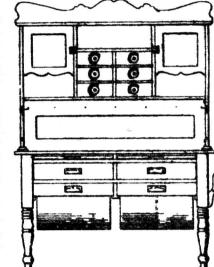

It is a case like Mr. Mills' that proves the wonderful powers of 'Fruit-a-tives" in arresting and curing disease. It may be stated, without fear of contradiction, that "Fruit-a-tives" will positively cure Rheumatism when properly used.

"Fruit-a-tives" is the only medicine in the world made of fruit juices

and is the greatest Rheumatism cure known to modern science. Fifty cents a box, six for \$2 50, or trial box 25 cents. Sold by all dealers or sent postpaid on receipt of price by Fruit-a-tives, Limited, Ot-
