Mrs. McIntyre gave a practical paper on "Unexpected Guests," emphasizing the importance of hospitality. It is not the grandeur of the home that makes the visit pleasant, but the wel-come that is extended. Too frequently the hostess is in such a state of excitement over trivial things that she misses the most important part of the visit. An instance was related where a clergyman called unexpectedly. When they knelt for family prayer, the woman was attired in a soiled nouse dress, but when they rose she was arrayed in a handsome gown.

Miss B. McMartin of Calgary, gave a very interesting address ou "The Canada Girls' Welfare Guides" outlining some of the work accomplished in the Western provinces by this organization that tended to develope the physical, intellectual and spiritual phases of life.

August Sale of FURNITURE & RUGS

History repeats itself. The August sale of Furniture and Rugs is now on, preparations have been completed for the second week events, and a bigger and better sale is assured for this year. There are many reasons for this, but the main factor is an anxiety of the manufacturers to dispose of surplus production by way of the August Sale, which works all to the advantage of those who need furniture, as reductions are as great as 50 per cent.
