## Citizens of Elmira Met Last Evening

When Matters Affecting Labor Were Discussed.

Organization Meeting Will Be Held Later.

The meeting held in the school house at Elmira last evening for the purpose of discussing the advisability of organizing a branch of the Labor League, was attended by about one hundred and fifty persons, including a number of ladies.

Reeve Meyer occupied the chair, and in a brief speech outlined the reasons why the meeting had been convened. He stated the idea of the meeting was educational, and felt sure the exchange of ideas and opinions of those present would be helpful in educating the public along lines directly affecting their own interests.

One of the chief reasons why organization was necessary was to protect the citizens against high prices and profiteering, and if this was accomplished and nothing more, the organization would be fully justified.

He emphasized the fact that the meeting was non-political, and scouted the idea that the presence of the Liberal M.P. would cause the gathering to develop into a political meeting.

Mr. W. D. Euler, M. P., upon being asked to speak, stated he was present at the invitation of the committee, and merely as an evidence of good will. Had he felt that his presence in any way had detracted others from being there he would regret it very much. He came in good faith, and had not the remotest intention of talking politics nor to interfere with the internal affairs of the Elmira people.

He understood that the meeting was for the purpose of creating an interest in the things that affected the working people, socially and in the municipal and national field. So long as entire selfishness does not rule the world so long will organization be necessary for self protection.

The workingman was entitled to organize in his own interests. "Manufacturers were organized, the farmers are organized and labor is doing likewise. Just so long as any of these bodies do not make an unfair use of their powers they are performing a useful function to themselves and the country."

"If the workers of this or any other constituency feel that their interests would be better served by working-

men representing them in Parliament, then it becomes their duty to go out and elect them.

"With the many tremendous problems with which Canada will have to deal in the coming year, it becomes absolutely necessary for the people of Canada to interest themselves deeply in public matters. Doing that intelligently and casting their ballots only as they thoroughly understand the issues, they will wield an enormous and beneficial influence in the life in this country."

Mr. Euler outlined some probable legislation with which governments of the future will concern themselves. Among these are the questions of wages, hours of labor, the employment of women and children, compensation, vocational training and public ownership.

Commenting on the fact that the cost of food for a family of five has risen from \$7.68 in August 1914 to \$13.41 in August of this year, and of the difficulties of making ends meet, Mr. Euler felt that the time will come when the laws of this country will guarantee to every man and every woman who is willing to do his or her share, and who may become incapacitated, the certainty of a sure and comfortable living, without the constant thought of the future which makes life a dread to so many people.

Once the business people, and capital and labor recognized the principle that every business transaction in the way of wages, or the sale of commodities, should involve mutual benefits, and observe this thought in all its significance, a great many of the troubles now existing will disappear.

Other speakers were Aldermen N. Amussen and J. Reid of this city and Mr. Morris, a former Elmira Labor official.

Before the meeting adjourned it was unanimously agreed that a meeting to organize the Elmira branch of the Labor League be held in the town fire hall on the evening of October 16th. next.

## Ultimatum To Germany

BURNING OF CAMBRAI AND ST QUENTIN SHOULD BE NOTED

Washington Oct. 3.—An ultimatum to Germany regarding the ruthless destruction of cities and private property in northern France and Belgium is being urged on the allies and is under consideration.

The burning of Cambrai and St. Quentin and the devastation of one of the most populous regions of Europe as the Germans retreat has aroused great indignation and it was said in diplomatic circles today that Germany would be warned soon that if she allows the work of destruction to continue severe reprisals will follow.

It is suggested that the cities of the Rhine should be marked for destruction and the Berlin Government told that for every French and Belgian city ruined without military reason a city equally important and valuable sentimentally and materially will be laid waste.

LARGE QUANTITY OF BOOTY IS CAPTURED BY ADVANCING SAMMIES.

WASHINGTON, Oct. 2.—Gen. Pershing's communique to-day says that a partial count of the material captured during the last week by the American troops advancing between the Meuse and Argonne rivers shows 120 guns of all calibers, 750 trench mortars, 300 machine guns, 100 heavy tank guns, thousands of artillery shells and hundreds of thousands of rounds of small arm ammunition.
