CHICAGO, July 20.—The destruction of abomillion bushels of wheat by fire at Min apolis and drought news had a firm indue on the wheat market at the opening. Aug started 3c higher at 714c. The fluctuating of first hour sent it down to 704c to 71c and ur 714c. The latter figure brought about such eral offerings that it took but short time to about a reaction to 704c; still later it firmed again to 714c, principally on private despated psoorting damage by chinch bugs in the sou ern part of the state; at noon August six teady at 714c; the close was slow at 704c. Owas decidedly the centre of attraction at oping of board to day. The crywd all at or woke up to the fact that there was a company on the long s of corn, and that the drought had not yet sumed an unusually dangerous aspect. Neaeverybody began selling, and, as neally eve took it back to Sc. At this ligure the market became quite steady and firm. A little after moon reports were circulated showing that the growing crop in this state is not seriously in jured as was supposed, and the longs began to sell off to 37% and closed from which figure it reached to 37% and closed at 37%. Oats were easier, and with the exception of July sold down 10 from yesterday's closing figures. Provisions were active and unsettled. The lending futures closed: Wheat—July 693c. Aug. 70% to 70% c.
