Farmers of Canada

\$3,600 in Cash Prizes for Farmers

READ the conditions of the Prize Contest we are conducting for the farmers of Canada. \$400.00 in prizes will be awarded to each Province. These prizes will be divided into four groups, consisting of:

PRIZE "A"—\$100.00 to be given to the farmer in each Province who will use during 1911 the greatest number of barrels of "CANADA" Cement. PRIZE "B"—\$100.00 to be given to the farmer in each Province who uses "CANADA" Cement for the greatest number of purposes. PRIZE "C"—\$100.00 to be given to the farmer in each Province who furnishes us with the photograph showing the best of any kind of work done on his farm during 1911 with "CANADA" Cement. PRIZE "D"—\$100.00 to be given to the farmer in each Province who submits the best and most complete description of how any particular piece of work (shown by photograph sent in) was done.

Every farmer in Canada is eligible. Therefore, do not be deterred from entering by any feeling that

you would have little chance against your neighbor. For remember, Prizes "C" and "D" have no bearing whatever upon the quantity of cement used.

As a matter of fact, your success in this contest will depend to a great extent on your careful reading of our 160-page book, "What the Farmer Can Do With Concrete." In this book—sent free on request to any farmer, full instructions are given as to the uses of concrete, and plans for every kind of farm buildings and farm utility. You'll see the need of this book, whether you are going to try for a prize or not. If you have not got your copy yet, write for it to-night. Simply cut off the attached coupon—or a postcard will do—sign your name and address thereto and mail it to-night.

Please send Circular and Book.

The Good Dairy Cow.

The dairy cow possesses a long face, thin slender neck, a sharp projecting shoulder. She is not very wide in the chest, but her capacity of chest is due to her depth, which is greater in proportion to her size than you will find in the beef animal. She possesses large barrel, which indicates a good capacity for digesting her food. Her depth here should exceed her depth in any other portion of the body. A dairy cow should have a good width at the hips. Her thighs should be lean and free from muscling. She should be open between her thighs.

PHILIPPINE VOLCANOS.

Mayon is the Most Famous, and the Taal Comes Next.

The most famous Philippine volcano and one of the finest volcano cones in the world is that of Mayon. Its height is 8,970 feet, and the volcano is visible at a great distance. Since 1766 records have been kept of its eruptions. In that year many plantations and villages were buried under a stream of lava which flowed down its eastern slope. About 1,200 lives were lost in the eruption of 1814, which buried the country around a part of the base of Mayon under the outpourings of lava and dust. A similar calamity in 1825

OPEN SORE BAFFLES DOCTORS.

Morriscy's No. 4 Eczema Ointment Healed Like Magic.

Nauwigewauk, N.B., Oct. 3, 1910

"I can gladly recommend dear Dr. Morriscy's Eczema Ointment because it cured me of a sore which I had on my ear for over 8 years. I did everything to have it cured, and had the most skillful doctors treating it, but it would not heal up. I went under treatment with Father Morriscy's Ointment, and in a short while it was cured. That was 3 years ago, and I am sure the cure is permanent. When I think how quickly No. 4 Eczema Ointment cured me it seems wonderful indeed, because you know I doctored with several skilled physicians who could not help me. You surely must have a big demand for this wonderful Salve. My only regret is that I did not use it at first, as it would have saved me over 8 years of pain, to say nothing of an unsightly ear and expensive doctor bills."

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morriscy prescribed it for 44 years, and it cured thousands after other doctors failed. Price, 50c. per box at your dealers, or Father Morriscy Medicine Co., Limited, Montreal.

destroyed the lives of about 1,500 persons. In the nineteenth century there were a number of severe eruptions, including one in 1887 which continued about nine months. An eruption in 1897 killed 350 persons and destroyed much property. Twenty-two violent eruptions of this volcano are on record.

Next to Mayon the Taal volcano is the most remarkable. It is on an island in the lake of Bombon, and the island, built up by its outpourings, has an area of 220 square miles. The volcano is incessantly ejecting dust and vapor from its crater. Taal as well as Mayon has been the center of numerous destructive earthquakes, but no very great eruption has occurred since 1864, when four villages around the mountain were completely destroyed.

LENGTHY VISITS.

The Unstinted Hospitality of Old Virginia.

Virginia hospitality is a byword. The old time country house, says Mrs. Roger A. Pryor in "My Day," was built of elastic material, capable of sheltering any number of guests, many of whom remained all summer. Indeed, this was expected of them.

"My dear sir," said the genial master of Westover to a departing guest who had sought shelter from a rain storm, "my dear sir, do stay and pay us a visit."

The guest pleaded business that forbade his compliance.

"Well, well," said Major Drewry, "if you can't pay us a visit come for two or three weeks at least."

"Week ends" were unknown in Virginia, and equally out of the question an invitation limited by the host to prescribed days and hours. Some times a happy guest would ignore time altogether and stay along from season to season. I cannot remember a parallel case to that of Isaac Watts, who, invited by Sir Thomas Abney to spend a night at Stoke Newington, accepted with great cheerfulness and stayed the rest of his life, nearly forty years, but I do remember that an invitation for one night brought to a member of our family a pleasant couple who remained for years.

Mozart's Musical Memory.

Mozart had a wonderful memory of musical sounds. When only fourteen years of age he went to Rome to assist in the solemnities of holy week. Immediately after his arrival he went to the Sistine chapel to hear the famous "Miserere" of Allegri. Being aware that it was forbidden to take or give a copy of this renowned piece of music, Mozart placed himself in a corner and gave the strictest attention to the music and on leaving the church noted down the entire piece. A few days afterward he heard it a second time and, following the music with his own copy in his hand, satisfied himself of the fidelity of his memory. The next day he sang the "Miserere" at a concert, accompanying himself on the harpsichord, and the performance produced such a sensation in Rome that Pope Clement XIV. requested that this musical prodigy should be presented to him at once.

Picturing the Face.

"Why do you photographers always photograph the left side of the face by preference?"

"Because it's the best looking," was the prompt reply. "The left side of the face is always the more regular, and it always shows least the marks of time."

"But," he continued, "if you want to bring out the real character of a face photograph the right side. There nature sets her print. There the lines are bold and unmistakable. There every defect, no less than every excellence, is stamped deep."

"The left side, where everything is softened down, for beauty. The right side, where everything is well rubbed in, for character. Those are the portrait artist's two chief rules."—New York Tribune.

Her Importance.

Herbert Spencer once told this story of a woman of his acquaintance: "Vain as well as vulgar minded, she professed to have a high admiration of Shakespeare and was partial to reading his plays aloud and considered that she declaimed the speeches extremely well. On one occasion, after enlarging upon her reverence for him, she ended by saying: 'Ah, I often wish that he were alive and that I had him here. How we would enjoy one another's conversation!'"

Sure to Know.

"I understand that you have bought some remarkably expensive gowns here in Paris."

"Yes, but what's the use? Few people know whether a gown is really expensive or not."

"Wait until you reach the customs inspectors."—Pittsburg Post.

Some men do not make fortunes for the sake of living, but, blinded by avarice, live for the sake of money getting.—Juvenal.

Temper.

"I know I have a temper," I heard a girl say the other day; "but, at any rate, I'm not sulky." And from the tone in which she said it, one would have thought that a temper was something to be proud of, so long as it wasn't a sulky one.

As temper ages people, and leaves more lines on the face than almost any other thing, it isn't very wise to indulge in it at all. And there is another side of the picture, too. The people we have to live with have to be considered to some extent, and if we could only realize all the pain we give near and dear to us when we indulge in fits of temper, we should surely try to get out of this bad habit. Life is too short to spend in wounding people unnecessarily, so the sooner we give up doing it, the better.
