The *Athenæum* says:—"There is no more practical way of communicating elementary information than that which has been adopted in this series. When we see contained in 124 small pages (as in *Fast in the Ice*) such information as a man of fair education should possess about icebergs, northern lights, Esquimaux, musk-oxen, bears, walruses, etc., together with all the ordinary incidents of an Arctic voyage woven into a clear connected narrative, we must admit that a good work has been done, and that the author deserves the gratitude of those for whom the books are especially designed, and also of young people of all classes."
