

# THE BEST

AMERICAN PUBLICATION DEVOTED TO  
HYGIENE.

(New York Herald.)

"THE SANITARIAN sustains its reputation for warfare in the cause of preventive medicine. Its honest and conscientious physicians are using more and more Nature's healing giving remedies. Pure air, water and sunlight are potent agencies in the ARMAMENTA MEDICORUM. To parody Carleton, physicians, those deserving of the name,

Open the blinds when the day is bright,  
And God gives their patients the bright sunlight,  
They open the windows when the day is fair,  
And God gives their patients the pure fresh air.

Such journals as the SANITARIAN are most valuable to non-professional readers, in showing how in a thousand ways disease may be prevented, and when it does occur, the intelligent physician will be all the better appreciated by those who are conversant with the facts such a publication disseminates.—The Living Church.
