

# WELLS FARGO BANK

NEW YORK, N. Y.

## TO PREPARE THE PATIENT

For a surgical operation, and to ascertain that  
the patient is in a condition to undergo the same.  
In cases where the condition of the patient  
is such that it is necessary to resort to  
surgical treatment, it is the duty of the  
physician to prepare the patient for the same.

In desperate cases, the influence of  
the patient's condition is of great importance.

In many cases, the patient has a  
weak constitution, and it is necessary to  
strengthen the same before resorting to  
surgical treatment.

WELLS FARGO BANK is a most accessible  
institution, and is especially adapted to  
the needs of the patient.
