ONTARIO
ELECTROTYPE FOUNDRY,
28-29 Colborne St., Toronto, Ont.

A Long-Felt Want Supplied.

It being a universal remark that Electrotyp-
ing cannot be done in Canada as well as in the
United States or England, on account of insuffi-
cient experience in the art of moulding, which
is the key-branch of the profession, I take great
pleasure in notifying Printers, Publishers, and
others, that I have at last overcome the above
difficulty, by securing the services of

MR. WM. GRANT, of Boston, Mass.,
a well-known American Electrotype Moulder
of 18 years' experience in the United States.
I would also inform you that I have added the
latest American Improved Electro Moulding
Press, also a Steam Drying Press for Stereotyp-
ing purposes, doing away with the slow and
injurious process of drying by coal fires, which
has been the means of destroying so much val-
uable type.

The services of a most efficient staff of com-
petent finishers have been secured, which will
enable me to carry out orders promptly, and
give every satisfaction.

Soliciting your patronage, I remain,
Respectfully yours,
ROBT. SMITH.
