the following notices :-AFrom the Montreal Gazette, December 24th, 1880.)

Army, 13 Phillip's Square, Moutreal. Read

We are pleased to notice that a great many of our best citizens have bought Dr. I. Souvielle's Spirometer, which is used for the cure of those terrible diseases known by the name of Nasal Catarrh, Bronchitis and Asthma, and it is so highly spoken of as if those instruments and preparations were infallible in the cure of such complaints, and, to satisfy our curiosity, we visited Dr. M. auvielle at his office, 13 Phillips' Square, Montreal, and gave a thorough examination of his invention, so that we can speak with our own authority of it. We think that such method, which conveys medicinal properdies direct to the organs affected by those distressing diseases, cannot fail to be a benefit to humanity, instead of pouring drugs into the stomach and deranging digestion. These wonderful instruments, with their centents, were invented by Dr. M. Souvielle after long and careful experiments in chemical analysis, and used in hundreds of cases treated by him In the hospitals of Europe. We find the Doctor a well learned gentleman, and he invites physicians and sufferers to try his in-Estrument free of charge.

Common Sense in Medicine. (Montreal Star, Junuary 5, 1881.)

Dr. M. Souvielle, the Parislan physician and inventor of the Spirometer for the scientific treatment of diseases of the lungs and air passages, who recently took up his residence among us, is meeting with excellent success. Already the doctor has had hundreds of patients, who have given his system a trial, and, so far as we have learned, with everything that could be done through medi-both satisfaction and benefit. Dr. Souvielle cal skill, but without relief. As a last resort makes a departure from the usual methods of I tried Dr. Thomas' Ecusoraic Oil, and in ten treating diseases of the air passages. He minutes found relief. I continued using it contends that the proper mode of treating them is by inhalation and absorption, not by pouring drugs into the stomach and thus upsetting and disarranging one part of the system in the hope of benefitting another. This argument certainly has the advantage of our family medicine." being common sonse, which is always the best kind of sense. The doctor certainly has the courage of his opinions and confidence in his system, for he gives a standing invitation to physicians and sufferers to visit him and test his instruments free of charge. His office is at 13 Phillip's Square, Montreal.

THE CANADA & ATLANTIC BAILWAY. OTTAWA, Dec. 28.—At a special meeting of stockholders and directors of the Canada & Atlantic Reilway Co, held this afternoon at the office of the company, a proposal from Hon. D. A. Macdonald was laid before the meeting, stating that, understanding that the company have not definitely decided upon the location of their workshops, if the company will locate their workshops at Alexandria he will have much pleasure in presenting the necessary land to the company. Ex-Lieut. Gov Macdonald stated that the proposal would never have been made if the city of Ortawa had been ready to fulfil the obligations which it had undertaken with regard to the \$100,000 bonus. Alexandria and the townships of Lochiel and Kenyon would be delighted to give substantial aid to the company in return for the benefits arising from the location of the workshops there. They would exempt the company from taxation and give aid in other ways. Messus. Ed McGillivray, G C Noble, A McNab, Duncan A Macdonald, James Fraser and Walter Shanly, C E, engineer of the company, were appointed to visit Alexandria and report to the board with all possible despatch upon the propriety of locating the workshops at Alexandria. Mr Walter Shanly, O E, was appointed chief engineer of the company. The portion of the line between High Falls and Corean, it is expected, will be opened for passenger and general traffic by the 10th of January. Mr. Thomas Ridout, Government Inspector of Railways, proceeded to Coteau

"The president in opening the meeting said that on account of the busy times it was hard so far this winter to bring up the membership and standing of the Society to that of the past winter. He had no doubt that the lecture to-night by a gentleman of well known ability would have a beneficial effect. He had much pleasure in calling upon Judge Ryan. The Judge in his pleasing manner and delivery delighted and edified the audience by a very able and carefully studied lecture on "Poets and Poetry, with special reference to American Poets," which was listened to throughout with much appreciation and applause. A cordial vote of thanks was passed to the lecturer, and as he retired he was warmly congratulated by all who could approach sufficiently near to shake bands with him."

A DISTRESSING SUICIDE.

A YOUNG HAMILTONIAN SHOOTS HIMSELF THROUGH THE HEART IN HIS EMPLOYER'S OFFICE.

Toronto Dec. 26 .- About 11 o'clock this morning a young man named Frederick Milne committed suicide by shooting himself through the heart. He was employed as book-keeper in the store of E. Goff & Co., on Yonge street, and is said to be the son of a prominent merchant in Hamilton. The rash act was accomplished with the aid of a small 22-calibre revolver. The ball entered just below the left breast and passed through the upper portion of the heart. Death was almost instantaneous. The deed was committed in the presence of Mr. Goff, in the office of the latter. The young man wished his employer a "merry Christmas," when he was greeted kindly with return compliments. A few seconds afterwards Milne stepped to the rear of the office, and addressing Mr. Goff said, "Here goes," and discharged a pistol in the place indicated. The young man was highly respected by a large circle of friends in this city.

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Serofula and all scrofulous diseases. Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tuniors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give Aven's Sarsapanilla a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. Ayer's Sausaramma is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and pre-scribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

From COL. L. T. FOSTER.

YOUNGSTOWN, Ohio, May 10th, 1880.

DR. B. J. KENDALL & Co., Genis:—I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a small one on the other which made him very lame; I had him under the charge of two veterinary surgeons which falled to cure him I was one day reading the advertisement of Kendall's Spavin Cure in the "Chicago Express," I determined at once to try it, and got our drugglets here to send for it, they ordered three hottles; I took them all and thought I would give it a thorough trial, I used it according to directions and the fourth day the colt cassed to be lame, and the sumps have disappeared. I used but one bottle and the colts limbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it. Very Respectfully.

B. J. KENDALL'S CO., Gents:—Having got a horse book of you by mail a year ago, the contents of which per-unded me to try Kendall's Spavin Cine on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure of Preston Ludduth, Druggists, of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenled very bad. I used your remedy as given in your book without rowelling, and I must say, to your credit, that the colt is enlirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it I would not take twenty five dollars for it.
