

others just as good

If a placebo be prescribed, it matters little who fills the prescription. But when the issue is one of great moment, the dispenser becomes a most important party.

There are cod-liver oil "emulsions" on the market in which it is impossible to find a particle of cod-liver oil.

There are cod-liver oil "preparations" on the market in which there is not the slightest amount of oil.

Scott's Emulsion

of Cod-liver Oil, with the hypophosphites of lime and soda, contains a definite quantity of cod-liver oil thoroughly emulsified; and an exact amount of the hypophosphites.

The prescriber knows far better than the patient or the dispenser what remedy is best and whose preparation is the most reliable.

When Scott's Emulsion is prescribed, direct the patient to a druggist who will dispense this particular preparation.

The physician is often blamed for failure to cure, when the fact is his patient has not been taking what was ordered, but something else which he was told was "just as good."

Integrity and Palatability are two characteristics of Scott's Emulsion.
