OILS, PAINTS AND GLASS.—The week has developed little change in these lines. Lead prices are subject to a slight revision, and we quote chemically pure at \$5.50 to 5.75; No. 1 red lead can be bought at 4c. Glass as before. Linseed oil is generally jobbed at 61 to 62c. for raw; turpentine, 55 to 56c.; castor oil can be bought at from 8½ to 9c. as to lot, and can hardly get lower. Steam refined seal oil 47 to 50c. according to lot. Nfld. cod dull. We quote:—Leads (chemically pure and first-class brands only) \$5.50 to 5.75; No. 1, \$5 to 5.25; No. 2, \$4.75; No. 3, \$4 to 4.50; dry white lead, 5 to 5½c.; genuine red do., 4½ to 4¾c.; No. 1 red lead, 4c.; London washed

whiting, 50c.; Paris white, 90c. to \$1; Cookson's Venetian red, \$1.75; other brands of Venetian red, \$1.50 to 1.75; yellow ochre \$1.50 to 1.75; spruce ochre, \$2.25 to 2.50. Window glass, \$1.40 per 50 feet for first break, \$1.50 for second break; third break, \$3.25. For 50-box lots some concession would be made on these figures in most cases.

Wool.—Millmen are buying in a quiet way, and we hear of some moderate transactions in Cape at 15 to 15½c. Two cargoes of Cape have reached here during the past fortnight, and a third is shortly due. Not a bale of Australian here; B.A. 35 to 38c.; N.W. fleece, 16½ to 17c.

TORONTO MARKETS.

BOOTS AND SHOES.—Although factories are busy on fall and winter goods, present sales show no sign of improvement. Harvest prospects all over Ontario are pointing to splendid results, something ahead of years past, and the reports from North-west equally encouraging. Some Winnipeggers in the city this week have been talking of the North-West having over 25,000,000 bushels for export, and of a yield of 70 lbs. to the measured bushel. Our boot and shoe manufacturers are inclined to think good times are in store.

DRUGS.—Business is reported quite slack, with payments fair. Glycerine has taken a sharp advance abroad, which has caused a sympathetic increase here to the extent of two to three cents per lb.; castor oil remains easy; opium, ditto; turpentine has dropped a little and is easier. Citric acid has declined slightly since last report, and cream tartar is easier. Mercury and preparations are easy; bromine and preparations have slightly declined. General list of drugs much about the same, rather sluggish, if anything, and there are very few changes in quotations.

DRY GOODS.—There are no country merchants in the city at present purchasing goods, and the business doing may be said to be purely travellers' orders, which are reported as fairly good. Next week will see a commencement in the delivery of fall orders; houses
