Products/Services
Horizontal bathing systems

Current Export Markets
U.S.A., Europe, Asia, Latin America, Caribbean

Company Summary

Regal Medi-Spa Co. Inc. was established in 1985 to design, manufacture and market bathing systems for ambulatory, semi-ambulatory, geriatric, chronic care and burn patients worldwide. The company's Medi-Spa horizontal shower units consist of a fiberglass chamber with top and bottom spray jets. A transporter trolley for transfer and bathing is equipped with a lower drip tray and a clip-on hair wash basin. The device provides visual and hands-on access to patients to meet special cleansing needs, in a controlled draft-free environment. The device has controlled water temperature and automatic soap injection.

Regal Medi-Spa — bed to bath and back in one step.

Products/Services

Plastic snap cap prescription vials • Graduated glass and plastic prescription bottles, ointment jars, pill and capsule containers

Company Summary

Richards Packaging Inc. was founded in 1912 to distribute containers to the retail drug trade, the pharmaceutical industry and related clients. The company quickly expanded and developed its own extensive line of glass ampoules, prescription vials and other articles. Richards, which employs 130 people, services the North American market from two modern manufacturing facilities, totalling 15,750 square metres (175,000 square feet) and located in Ontario and British Columbia. In 1986, the company purchased Med-A-Safe Inc., a manufacturer of patented plastic child-resistant prescription vials and has since expanded its line of prescription containers.
