5. Provincial Electricity Authority etc.

B: Private Enterprises :

1. Manufacturers
2. Importers
3. Distributors

4. TIMING

After planning the research design at the beginning of July 1987, then we obtained some secondary data from various sources of information. And at the end of August, we started to interview with some officers, manufacturers, distributors and importers of the power generation and transmission industry.

After that we compiled the data and prepared for the report, Finally, we finished the report at the first week of December, 1987.
