

cedar and black ash spread in different directions and might be drained with the greatest facility.—The timber is spruce, beech, ash, maple, birch and basswood; the spruce greatly predominating.—Watered by 2 or 3 rivers and by many less considerable streams, all of which ultimately fall into the St. Francis; it is also watered by some small lakes in which are trout, suckers, chub, perch and eels.—Though large grants have been made to several persons since the year 1700, they have attracted but few settlers.—The roads improve but slowly, and there is one bridge.—At a private school from 12 to 15 scholars are instructed.—The population in 1827 was 60 and is now 83.—*Un-granted and unlocated, 1,000 acres.*

**CLINTON**, township, in the co. of Sherbrooke, is a small tract, only equal in dimension to the quarter of a township. It is most agreeably situated at the s. extremity of Lake Megantic, joining Marston n. and in other directions surrounded by Chesham and unsurveyed wastes. The soil in general is of the very first quality, exhibiting many large patches of luxuriant pastures. The timber is pine, beech, maple, birch, fir, spruce and cedar.—It is watered by the river Arnold and some other streams falling into the lake. No part is settled, although the t. abounds with numerous excellent situations, where the land is fit for every species of agriculture.

**CLORIDON**, seigniory, in the co. of Bonaventure, fronts the n. Ristigouche. The boundaries of this S. were formerly settled by an agreement between the heirs of René d'Encau and Mr. de Fronsac. This S. extends from the mouth of the n. Percepée up the n. Ristigouche.—It has never been settled and is now the property of the crown. An historical account of it and its extent are included in the title.

*Title.*—"Par Acte de Foi et Hommage rendu le 3me Juin, 1730, par Jean Claude Louet, au nom d'Anne Morin, son épouse, veuve de René d'Encau et au nom du Capitaine René d'Encau, son fils, pour le fief d'Encau il paroit

qu'il exhiba une ordonnance de Mr. de Champigny, Intendant, du 28me Mars, 1691, annexée à une requête, faite par feu le dit Sieur d'Encau, exposant que ses titres lui avoient été enlevés par les Anglois, et demandant d'être maintenu dans sa possession de la rivière Ristigouche avec huit lieues de terre de front sur pareille profondeur, le long de la dite rivière, et les isles et battures qui se trouveront devant de la dite étendue, avec droit de chasse, pêche, &c. La susdite ordonnance accordant le contenu de cette requête, sauf seulement les oppositions que pourra faire Mr. de Fronsac, Seigneur de Miramichi. De plus un accord entre les héritiers du dit feu Sieur René d'Encau et Mr. de Fronsac, par lequel Cloridon fut borné comme suit, savoir, commençant à l'entrée de la rivière au Percepée, qui tombe dans celle de Ristigouche, en montant la dite rivière Ristigouche; et que les rums de vent des terres du dit Sieur d'Encau soient Nord-est et Sud-ouest pour la profondeur, conformément à ceux du dit Sieur de Fronsac, et à l'égard du front ou largeur Sud-est et Nord-ouest."—*Ins. Cou. Sup. lettre D. folio 53.*

**CLYDE**, river, rises in Lake William in the t. of Halifax, whence, through the line that divides that t. from Inverness, it enters Lake Lomond, taking an e. course. After running through that t. it is soon increased by the Black River from the n. and the Bullet River from the s. After receiving Chaffer's Brook it runs to the division-line of Inverness, near which it enters the n. Becancour in the 14th range of the t. of Nelson.

**COATICOOK** or **KAWATIKOUCK**, river, in the co. of Sherbrooke, rises in the state of Vermont and a little below the v. of Norton enters the rear line of the t. of Barford at its s. w. angle; then running along the boundary-line it enters the 7th range of the t. of Compton and running through that t., bearing to the n. e., enters the 7th range of the t. of Asecott, where, near the v. of Lennoxville, it empties itself into the R. St. Francis.—In Compton it turns Conroy's mills in the 5th range and Pennoyer's mills in the 2nd. It is so much obstructed by falls, which form good sites for mills, that its only advantage for transport is the running of logs to the different mills.

**COLERAIN**, a projected township in the co. of Megantic, bounded n. by Thetford and Ireland, e. by Tring, s. by Winslow and w. by Garthby. Watered by lake St. Francis and some small lakes and streams.

#### COLUMBIA FALLS, v. OTTAWA, R.

**COLUMBIA POND** is a small lake in the t. of Hull at the e. extremity of the 5th range. It is fed by a stream that rises in the 7th range, which passes through the lake and conducts its waters to the Ottawa a little s. of the estuary of the Gattineau.

#### COMETHIEUX, (R.), v. KACUATHIEUX.

**COMMISSIONERS' LAKE**, in the co. of Saguenay, is on the n. Oniatouchouan and is separated from
