Preston East Dome showed considerable resiliency yesterday much to the discommune of

shorts on the mining exchanges. The break in the price from 57

to 43 1-2 was due to under-writers taking profits, and in no small way to speculative brokers who were short sellers. It is believed that a large short interest has been buff up on the stock, and that disgruntled brokers have tried to depress the shares because they were not let in on the underwriting.

not let in on the underwriting. Orders for 50,000 and 100,000

shares of Preston were made to-day, much to the consterna-tion of those who think they

have a grievance against the flotation. Some have so d shares,

of which they are not possessed. These they have to cover, and

in doing so the market will re-late the extent of losses they

take. United States investors are reported to have bought over 50,000 shares of Preston in two days, and with only 50,000

shares issued the present float-ing supply is necessarily limit-

Good Buying on the Reactions Feature of Local Mining Market

Porcupine Issues Off Early, But Recover Late in Day-Cobalts Generally Depressed-Chambers-Ferland the Strong Point.

Friday Evening, March 10.

The feature of the mining markets
to-day was the exceptionally good
buying of the Porcupine issues on the reaction. Prices for the gold mining stocks were off early, reactions running from fractions to several points, but a recovery was made later on, when a more pronounced demand arose. It is believed that much of the selling of the Porcupine shares during the last few days has come from traders who were taking the short side of the market, and it is altogether probable that some of to-day's buying on the afternoon board represented a coversing movement from those who had taken that side of the exchange.

Popular and Ability Manager o Kerr Lake Mining Company Goes to Europe on Sick Leave.

COBALIT, March 9.—(Special.)—The announcement has been made of the resignation of S. R. Heakes as general manager of the Kerr Lake and Wettlaufer Companies, and has been re-ceived here with general regret, as Mr. Heakes has been one of the foremost ligures in this northern district for the

past few years.

Altho a man of fine physique, Mr Heakes has by a slavish devotion to his work undermined a splendid constitution. He has been suffering for two years from chronic neuralgia which has baffled the skill of local physicians and outside specialists. He is now threatened with total blindness and antis for Europe in a few days.

sticess. A sticker for close attention to detail, and a hard worker himself, those in his employ gradually became imbued with these same ideas and the result has been that an esprit de corps existed at Kerr Lake that has been hard to duplicate.

A ready contributor to every worthy demand, Mr. Heakes nevertheless has always shrunk from all publicity and has never striven to be in the limelight. In times of stress, however—4s during the typhoid epidemic—the two big fires—his coat off and shirtsleeves rolled up, his time, money and abhity were at the camp's service. ### PORCUPINE TISDALE MINING CO., Limited

The Gold Boom in Porcupine Gold Stocks has just commenced. Now is the time to buy these stocks bef advance, which is sure to come. I offer a few shares of the above stock at 10 cents. This will shortly be sel 15 cents, and will sell very much higher. A vein 350 feet has been opened up nearly 8 ft. wide, which pans gold grass roots. When a few shots have been fired the results look good for the finding of spectacular values. Our who went through the Cobalt boom are commencing to buy Porcupine stocks at the low prices. Stock buyers well to buy quickly.

We recommend the purchase of PEARL LAKE GOLD MINES, LIMITED, near the HOLLINGER. This stock selling at 50 cents a share, and the company have valuable claims.

UNITED PORCUPINE is now selling at 15 cents a share. These claims are exceedingly well located, and a best purchases on the market to-day at the price.

threatened with total bilindness and sails for Europe in a few days, accompanied by his physician. The first few months will be spent either in the south of France or somewhere along the shores of the Mediterraneau.

Mr. Heakes came to Cobait five years ago from the gold fields of Nova Scotia and under his direction Kerr Lake has grown from a partially developed prospect to one of Cobait's greatest mines. During the Heakes regime, the Kerr Lake Co. has paid in dividends a sum equal to its capitalization. Model buildings have been erected and the comfort of the men working on the property has always been considered.

The loyalty of Kerr Lake employes to their manager has been a byword in the camp. This feeling has extended from the highest to the humblest worker.

In his great executive ability lay one of the chief reasons of Mr. Heakes' success. A stickler for close attention to detail, and a hard worker himself, those in his employ gradually became imbused with these same ideas.

We can now inform you that Great Northern twelve claims in Porcupine. We can now inform you that Great Northern owns seventeen well-located claims in Porcupine. Don't overlook the fact, however, that the silver claims owned by Great Northern make the stock a good speculation at twenty cents per share. Add to this the seventeen gold claims in Porcupine and liquid assets of over \$100,000.00, and you have a proposition that for speculative opportunities looks particularly attractive. When the public awaken to the fact that Great Northern, with a low capitalization and more than eleven hundred acres of mining properties and \$100,000 cash assets, is selling at less than half the price of its more highly capitalized neighbors, there will sure be something doing in the stock market. Buy Great Northern at the market and hold for a good profit. Wire us your orders.
