Corn and oats declined early on further liquidation and aggressiveness on the part of bearish, traders. There was a part of bearish traders. There was fair recovery, however, and the market closed quite firm. The news was unintercepting but we continue to favor these tring, but we continue to lavor this creals, and think they will reach higher Melady & Co. had the following at the

Wheat-Liverpool cables were steady and arrested the declining tendency shown in our market yesterday. The tol export sales yesterday were placed at loads, and bids to-day were a shade higher, but go far only a moderate business has been confirmed. Trading was on a small scale and the market is a waiting affair. Until after deliveries are.

on a small scale and the market is a waiting affair. Until after deliveries are made on July 1 we do not look for any material advance in prices, and think the market will i present only moderate changes in the meantime.

Corn-Stocks are small and receipts barely sufficient to meet the shipping demand. The buying continues of a good character, and on any sharp break we think corn will be a purchase.

Oats-Ware weak, and we believe the will sell lower until July deliveries are out of the way.

IMMEDIATE ACTION IS NECESSARY

If you intend to purchase a block of the first issue of the LUCKY BOYS shares. We advise our clients that they must act quickly, as this first issue of one million shares is being rapidly absorbed. Telegrams and letters are coming in from all parts of the country for reservations, and we anticipate that this allotment will be largely over-subscribed.

This advice is for the benefit of those who were too late to get in on the first issue of the Blue Bell shares. One million shares of LUCKY BOYS are being offered at

SIX CENTS PER SHARE

Par Value One Dollar, Fully Paid and Non-Assessable.

Mr. John Young, Chief Engineer for the Lucky Boys Gold Mines, Limited, returned from Larder Lake last Thursday, and he reports the discovery of several new veins on the Lucky Boys proper-He states that on some of the claims there is a network of veins carrying large quantities of free Mr. Young is a mining engineer of world-wide experience, and he is very sanguine and enthusiastic about the future of the LUCKY BOYS properties. He returned to Larder Lake again last Friday with twenty-five more experienced mining men and additional mining supplies, in order to vigorously prosecute the development work. It should be remembered that there are no debts or encumbrances of any kind against the LUCKY BOYS COMPANY or the properties.

In buying the shares of the LUCKY BOYS you are becoming identified with Directors who are practical, successful mining men, who know how to operate, maintain and conduct a mine in a business-like manner, and who have been connected with the strongest and most successful mines in the Cobalt camp. These gentlemen are just the kind of mining men that investors should be glad to become associated with. We strongly advise investors to put every dollar that they can in these shares at the present price. Everybody will want LUCKY BOYS before long, and will be glad to get them anywhere above ONE DOLLAR. The Company reserves the right to withdraw the shares from the market, or to advance the price of the same without notice.

Your Opportunity

We are offering to the public 50,000 shares of the Monitor Cobalt Prospecting and Develop-

ment Company's Stock.

at the special price of 10 cents (TEN CENTS) per share.

We are now developing several large properties in Larder Lake District, which, from indications, point to very rich mines. The rush to Larder Lake has never been equaled since the Californian rush of '49. Miners are beginning to realize that Larden Lake contains more gold and other precious metals than has been known in the history of the North American Continent.

Citizens investing with us are assured of absolute security for their money. We invite the fullest investigation, either personally or through any mercantile agency, and, if the subscriber desires, we shall be pleased to take him over our vast properties, which comprise over 1800 acres of mineral-bearing land.

The assays received from our properties average over \$10,000 per ton.
