AT HANLAN'S POINT. Commencing Monday next, and every evening throughout the week, stupendous carmival attractions will be presented. Those desirous of good, wholesome and highly entertaining qualities will be favored this summer season in having presented such an aggregation of artists as has not been seen here before. Mr. M. S. Robinson has not spared either time or money in securing high-class standard attractions. The list of artists engaged for next week is beyond any attraction that has ever been placed at this popular resort. Heading the list is Emile Gauthier, the fearless Frenchman. His wonderful performances during his long and successful engagement in New York city have been the admiration of. all witnessing his startling and daring feats in horsemanship. F. Takezawa's imperial troupe of Japanese jugglers are ahead of all other Japanese troupes appearing in this country. Their startling feats are the most difficult ever presented. Then there are Silvern and Emerie, double aerial ring experts, a duo of masterly athletic exercises that are the wonder of all wherever they have appeared. Prof. Herbert's dog circus is the finest organization of canine sagacity now before the public. Marx and Smith are the paragon of all strong men, in their feats of muscular power, grace and endurance. Their equal has never yet been met. James Wilson, the Afro-American juggler, is, in his interesting line, the greatest ever on the continent. The great Judge is another marvel, defying the laws of gravitation on his unsupported ladder, and playing nine different instruments on the top-most round. This remarkable galaxy of standard artists will be witnessed by thousands of citizens desirous of spending a pleasant and entertaining evening, especially as the prices are placed within the reach of all, namely 5c, 10c and 15c.
