DOMINION PERMANENT LOAN COMPANY-NG STREET WEST

THE STAND I HAVE TAKEN FOR THE LEGITIMATE DEVELOPMENT OF MINES - AS SET FORTH IN MY FIRST ANNOUNCEMENT THIS WEEK-IS RECEIVING THE ENDORSEMENT OF INVESTORS - -

When I announced my views on mining and mining investments, and the plan and policy I would follow to develop and establish a mining enterprise based upon Canadian mines, I felt sure that investors would not only see the merits of Spear's Canadian Mines Development plan, but that the principle involved the stand I have taken in the interests of a fair dealwould be approved of by thinking, conservative people.

A gentleman well known in Toronto, and connected with one of the daily papers, came to my office and said to me: "Mr. Spear, I have always been willing to make a little investment in mining, because I know that, with the successful development of mines, a large profit can be made on the amount invested. I am willing to take whatever chances there may be in a mine proving to be a good one, but I have in most cases been afraid to invest. I have never seen many mining investments offered where I could feel that the public would ever know anything about what they were getting into, until I received your proposition.

"If everybody would take the stand you have to satisfy investors, as you propose doing in your announcement, it would not be long before fake or wildcat mining would be a thing of the past."

This gentleman applied for five memberships, and said that he might take a few more later.

Another party called at my office and subscribed for four memberships, and congratulated me on the absolute fairness of my proposition, and the position I have taken and publicly announced in the interests

Several others have applied for an interest, and praised my stand for a fair deal in mining.

This is all very encouraging. I feel that the public will appreciate an honest effort to develop paying

There is no reason why this proposition will not develop and firmly establish one of the great mining enterprises of Canada, and return a very large profit and income to those who invest.

I will continue to receive applications for the \$50.00 memberships in Spear's Canadian Mines Development plan, as per my first announcement.

This offer provides that when the properties have reached a producing, paying stage, the amount of subscriptions, together with 6 per cent. Interest from date of application, will first be returned to holders of the first certificates issued.

This offer is limited, and will be closed not later than January 31st. Positively but a limited number of applications will be accepted containing this special offer. In addition to this offer of interest and return payment feature, those who apply for first allotment of memberships will be given the maximum number of shares of the mining company to be incorporated, for each membership.

I will soon announce a date at which there will be a monthly meeting of all investors held in my main offices. I want to submit the financial statement for the preceding month, and consult with my investors about what we are doing. This financial statement will be mailed to all who cannot attend these monthly meetings of investors.

The first of next week I will announce the SECOND PROPERTY secured for this Mines Development proposition.

Remember, the first applications for membership will receive a certificate providing for the return of the amount invested, together with 6 per cent. interest, and also the largest number of shares of the mining company to be incorporated will be given to the first allotment of memberships.

Memberships are \$50.00 each, and can be paid for in small monthly payments of \$5.00 with application and \$5.00 each 30 days, or 10 per cent. discount will be given to those who will pay in full with application, naking each membership cost \$45.00.

Make all payments to my order. Mail applications or requests for any further information to my offices: 61 Victoria Street, Toronto, Canada; Plainfield, N. J., U.S.A., or New England Office, 213 Essex Street, Salem, Mass. (W. H. Glidden & Co., Representatives), or to any authorized representatives.

L. W. SPEAR.

Chicago Gossip.

Ennis & Stoppani. wired to J. L. Mitchell:

Wheat—A surprisingly strong market in Liverpool and a realization of the fact that a railway receivership did not increase wheat supplies, and, in fact, that the financial world took it as a matter of course, caused a sharply higher opening in wheat. At the advance there was a renewal of yesterday's selling pressure, but the slight decline resulting was met by influential buying orders. There were more elements of strength shown in the situation than at any time yet, and the market stubbornly resisted bear attacks all day. Receipts in the northwest and at primary points continue light. There was a decided improvement in export demand, 53 loads being taken. Cash markets show improvement, and we think every setback should be taken advantage of to buy wheat.

Corn—There was a heavy tone early under general selling, based on better weather and predictions of a heavier movement. Firmness in wheat stimulated bullish sentiment and prices recovered the loss; closing at the top.

Oats—There were no new developments in the oat situation price, closing unchanged.

Provisions ruled fath strong market in Liverpool and a realization of the fact that a railway receivership did not increase wheat supplies, and, in fact, that the financial world took it as a matter of course, caused a sharply higher opening in wheat. At the advance there was a renewal of yesterday's selling pressure, but the slight decline resulting was met by influential buying orders. There were more elements of strength shown in the situation than at any time yet, and the market stubbornly resisted bear attacks all day. Receipts in the northwest and at primary points continue light. There was a decided improvement in export demand, 53 loads being taken. Cash market stubbornly resisted bear attacks all day. Receipts in the northwest and at primary points continue light. There was a decided improvement in export demand, 53 loads being taken. Cash market stubbornly resisted bear attacks all day. Receipts in the northwest and at primary selections of a h wheat-A surprisingly strong market in

changed.
Provisions ruled fath strong under moderate demand from local element and commission houses. Trade was not large.
Charles W. Gillett to Peter J. Morgan:
Our market closed near best prices of

out costs, and H. C. Tomlin \$25 and

the day, and a further advance was only prevented by sellers of U. P. Cables should come higher to-morrow, and we look for somewhat higher prices in the local market.

Corn—There were numerous reports of larger movement from first hands, and it is to be expected that receipts will increase with the present weather. Sales of new crop have been so small that this increased movement is overdue, but we doubt if it will reach a volume where accumulations will become burdensome, as the shipping demand will take care of receipts for some time to come. Cash prices were steady and buying of futures was by the best interests in the trade, while selling was by receiving houses in the way of hedges. All reports from the country indicate prices will be pretty well maintained and that purchases on reactions offer best results in the way of profits.

Oats—Elevator interests sold oats in a moderate way, but otherwise the market was without feature and closed about steady. Unless receipts increase materially we think oats should be a purchase on reactions.

**Cont—There were numerous reports of larger movement from first hands, and lin, questioned Inspector Awde closely as to the accuracy of the scales with which he had weighed the bread in both instances. Mr. Ardagh pointed out to the magistrate that in his opinion the evidence was very slim.

Several witnesses testified that the bread delivered was under weight.

The had weighed the bread in both instances. Mr. Ardagh pointed out to the magistrate that in his opinion the evidence was very slim.

An Old Treaty Applies. NEW YORK, Jan. 9.—England's com-

mercial relations with the United States are still governed by the treaty of 1815, which ended the war of 1812, according to a decision handed down by the board of general appraisers here to-day. Several importers of British whiskies protested emiret the tariff of \$2.25 a gallon

tested against the tariff of \$2.35 a gallon,

when French liquors were admitted for \$1.75. The board, however, held that Great Britain was barred by the treaty

from "the most-favored-nation list, and sustained the collector's charges.

Buried in Gravel Pit.

FERGUS Jan. 9.—Buried beneath several feet of gravel, Daniel McDermott was killed in the pit in which he was working in West Garafraxa, near here.
