Regarding the further development of the property, Mr. Milne says that J. B. 2, the freehold section of the Little Nipissing Mining Company property, will be the next part of the property to be developed. J. B. 2 adjoins the Princess Mine, which is that pertion of La Rose property from which the richest ore is being obtained. The veins on the Princess Mine run directly into J. B. 2. veloping their property as a mine, not as a stock market proposition. No matter what the stock market may be doing it will be found on investigation—and he has the facts and figures to prove what he says—that the Little Nipissing Mine is being mined.

As an indication of what is being done on the property he says that from Nov. 5 to Dec. 14, every day on an average they bag 3 1-5 bags of No. 1 ors and 14 3-6 bags of No. 2 ore. They have from thirty to forty men working every day on the property, and the wages roll averages \$105 a day. The actual pay list for November was \$100. Already this mine has epipped half a car of No. 1 grade ore. On Wednesday of this past week two cars of No. 2 were shipped, the first car weighed 56,000 and the second 57,000. They are getting ore from two levels at the 275 foot and the 225 foot. The returns from the low grade ore more. MASSEY HALL SATURDAY, DEC. 31 ONLY APPEARANCE IN CANADA

Many of them feel that it would be preferable to build a bridge east of the Sunnyside crossing, as agreed upon previously by the city and Grand Trunk.

The extension of Queen-street north of the tracks will, be down below the level of the raliway by several feet, as the tracks are to be raised there. That means that the lake will be invisible until High Park subway is reached.

There will be no crossing to the lake front between Dowling-avenue and this proposed subway. That will give no facility for reaching the new sea wall for nearly a mile.
