NEEDS OF UNIVERSITY PRESS
FOR GREATER FINANCIAL HELP

Board of Governors Are Embarrassed and Hindered in the Administration of the University by Lack of Sufficient Money—They Send Out Broadcast an Appeal For Sufficient Monetary Backing to Meet Necessities.

In the beginning the University of Toronto was laid down on broad foundations, and its standards have always been the highest standards of scholarship. But in the past few years the university has been unusually active in widening its sphere to meet the educational demands of the time. It has had to expand its old facilities, create new ones, and launch new departments. It has had to keep pace with the increased educational activity in Ontario, that speeding up which has been a natural consequence of the country's growth and of changing social and industrial conditions. The salary scale of the university has been increased, a necessity caused by the rising cost of living. The standards of education and of professional training have risen rapidly. The number of students who enter the classic precincts of the university has increased. A number of new buildings have been constructed. The university began to outgrow its old buildings some time ago. The pressure of the educational necessities of the province has made necessary expansion and development in the university to an extent few people realize. The average citizen, with some feeling of pride, thinks of the university as occupying a high place in the public annals of Ontario. But he does not realize that the administrators of the university have for some time been endeavoring to do a larger amount of work on a smaller income than is undertaken by almost any similar institution in America. He does not consider that the University of Toronto, while it has received some notable gifts, has for the most part been outside the field in which public generosity has been exercised. It is very apt to think of the university as an institution of splendid academic efficiency, as a great instrument for good, and as bringing honor and distinction to the City of Toronto and the Province of Ontario.

Large Expenditures
But he is not likely to think of its small revenue and large expenditures. He does not realize that its great need at present is abundant means to carry on its work. The university is at present in a stage of development in which large immediate expenditures are unavoidable. Least the university recede, and risk the diminishing of its great reputation, it must spend large sums within a few years.

There are five centres of great pres-

sure which should soon be relieved—the main building, the old engineering building, the anatomical department, the botanical and forestry division, and the university schools. For years complaints have been uttered against the condition of the main building, and the increase of students has rendered it worse than before. Too many students for its cubical content are using this building, and professors and lecturers have not proper accommodation for their work. To relieve the situation, the north front of the quadrangle should be completed within a short time. The old engineering building, which is unsuitable for the kind of work and the classes which it now accommodates. Expensive machinery is installed in a building readily inflammable, and it is set up in such inadequate floor space as to occasion not only inconvenience, but possible peril to the students using it. This building must in a short time be replaced by a more suitable one. In the anatomy and botanical divisions the need is hardly less urgent for more spacious quarters. The students are crowded together in rooms which are altogether too small for them. The university schools are much too small. They are lacking in class room accommodation for the teachers-in-training. There is no good assembly hall, no gymnasium for the boys, and the playgrounds are insufficient.

Something Needed.
The convention hall, the museum and the botanical plant-house should be finished. The chemical laboratory is too small for its use. A botanical garden and an observatory are essential for the best scientific work. The rapid growth of medical science will make development in this faculty necessary very soon. In the Province of Ontario a great deal of attention is devoted to music, and the university should have in the not remote future a professorship of music, a department of the arts cannot be long delayed. The large attendance of women students has caused a necessity for a building for their social and athletic activities, such as is being constructed for the use of men students. Happily the household science building, the splendid gift of Mrs. Massey-Treble, is provided with a gymnasium and a swimming pool, which are to be at the disposal alike of all the women students. More residences, both for men and women students, must be erected, if the university is to fulfill its obligations to its undergraduates. Residences are of the greatest importance to the life of a university.

The great increase in the attendance of students, who must be provided for

MCGILL OUTCLASSES
VARSITY SWIMMERS

Blue and White Boys Unable to Cope With Easterners, Who Were Minus Hodgson.

McGill completely outclassed Varsity in the intercollegiate swimming and diving events, winning by the score of 18-15. They won the water polo game, 14-2. Even their star swimmer, Geo. Hodgson, was defeated at home thru sickness, they had little difficulty in taking the majority of the events. The 200 yards was won easily by McGill. The plunge for distance was won by McGill, winning out in the last plunge. The 40 yards was a good race between McKay of McGill and Varsity, the former winning out by only a few feet. The McGill divers were neater in taking the plunges. Varsity got their only first when Shives of Varsity defeated Draper of McGill in the swimming on-back event. It was a thrilling finish. In the 100 yards Simpson of Varsity was left in the wake of F. McGill of Montreal in the first heat, and only by inches. The relay was won by McGill, when F. McGill got a good lead on F. Foote in the first forty yards.

The following are the results:

200 yards (ten lengths)—1. F. McGill (McGill), 2:26; 2. J. Kerry (McGill), 2:45; 3. G. Foote (took cramps on last length). Plunge, for distance—1. Patterson (McGill), 51 ft. 6 in.; 2. Tebbes (Varsity), 47 ft. 6 in.; 3. Staver (McGill), 47 ft. 3 in. Forty yards (two lengths)—1. McKay (McGill), 21.1-5 seconds; 2. Tilton (Varsity), 21.5-5 seconds; 3. Jeffrey (Varsity), 21.5-5 seconds. Diving—Plain or swim dive, front kick, back dive, back jack-knife, come back, hand forward, cannonball, tuck and a half—Results: 1. McLean (McGill), 2; Draper (McGill). Swimming on back (forty yards)—1. Shives (Varsity), 27.1-5 seconds; 2. Draper (McGill), 28 seconds; 3. Jeffrey (Varsity), 28.4-5 seconds. 100 yards (five lengths)—1. F. McGill (McGill), 59.2-5 seconds; 2. Draper (McGill), 58 seconds; 3. Tilton (Varsity), 59 seconds. After the last event Mr. Corson, swimming instructor of Varsity, gave an exhibition of swimming with hands and feet tied, and then some fancy swimming with feet perpendicular in the air. Relay race (160 yards)—McGill (F. McGill, E. Staver, D. Williamson, A. A. Mackay captain), Varsity (F. Foote, Jeffrey, Simpson, Tilton). F. McGill got a good lead on Foote in the first quarter of the race. The rest of the swimmers were then about even. Time, McGill, 1:31 seconds; Varsity, 1:39 seconds.

The water polo match was won by McGill, 6-2. In the first quarter McGill forced Varsity and scored a goal. The blue and white boys came back, however, and forced one in, tying the score. In the second quarter McGill scored again, making the score 2-2. In the third quarter McGill scored again, making the score 3-2. In the fourth quarter McGill scored again, making the score 4-2. McGill won the game by a score of 4-2.

CAPTAIN BROWN
IS VERY LOW

Fireman Who Was Injured on Friday Night Has Small Chance.

At a late hour Saturday night Capt. Brown of the Bolton Avenue Station, who was one of the firemen injured in the collision on Friday night, was reported to be in a very critical condition, only the faintest hope being held out for his recovery.

Trusts and Guarantee Victors.

The Trusts & Guarantee Hockey team defeated London & Lancashire on Saturday afternoon at Little Vic rink by the score of 5-0. This gives the winners their section.

Last Race at Juarez.

SIXTH RACE—Five and one-half furlongs, selling: 1. Beda, 16 to 5, 5 to 1 and 3 to 1; 2. Fanuell Hall, 3 to 1, even and 5 to 1; 3. Bobby Cook, 8 to 1, 2 to 1 and 1 to 2; 4. Time, 1:11.3-5. Bell, Gift, Harlem, Mald, Roberts and Rosenda also ran.

Federal's Midnight Attack.

NEW YORK, Feb. 15.—Special dispatches received here from Mexico City early this morning, reported that the protecting powers, Great Britain, attack on the arsenal, and that President Madero had declared he would resign only in case the senate dictated such a course. Closing of cable communication shortly after these reports, made confirmation impossible.

ASKS COMMISSION
TO TAKE EVIDENCE

E. J. Chamberlin Granted Delay to Go Abroad For Witnesses in Anti-Trust Law Trial.

NEW YORK, Feb. 15.—Judge Mayer today granted the application of Edson J. Chamberlin, president of the Grand Trunk Railway, for the appointment of a commission to go abroad and take the testimony of certain London bankers and of the English directors of the Grand Trunk for use of the defence in the government's prosecution of Chamberlin under the anti-trust law. The government opposed the application for the commission on the ground that it would delay the trial of Chamberlin and Mellen several weeks, if not months.

Suffragette Fines Paid.

LONDON, Feb. 15.—Sylvia Pankhurst and Zelle Emerson, who were given jail sentences yesterday for smashing windows in London three days ago, were released from prison today, their fines being paid by an alleged "unknown person."

All Ready for Fighting.

MEXICO CITY, Feb. 15.—The rebel guns in the arsenal have been in spasmodic action during the greater part of the night, occasionally developing a very galling fire, which provoked a vigorous reply from the federal artillery.

FIGURES IN MEXICAN REVOLUTION

Madero, who is fighting to hold his job of president; his wife, and Francisco de la Barra, provisional president.

FIVE CENTS
is all I ask for
a Loaf of
Bread

And I guarantee to deliver for that price a loaf which, for weight, quality and flavor, cannot be duplicated in Toronto. Some bakers who ask six cents for bread say they can make better bread for six cents than for five. Perhaps they can—I hope they will—but they can't make a loaf as good as mine at any price. I ask you, reader, "Have you tried my bread?"

LAWRENCE'S
Home Made Bread

If you have not, do so; if you have, what is your opinion? Do you not believe Lawrence's Bread is the best bread in Toronto?

Every Loaf Fresh Every Day--Delivered at Your House
