THE P. R. A. RIFLE MATCH CONCLUDED YESTERDAY

Captain W. E. Forbes of
Sussex is the P. R. A.
Champion --- He Wins
Grand Aggregate.

Sussex, N. B., Aug. 16.—The 41st annual prize meet of the P. R. A. closed last afternoon and in respect of marksmanship, attendance and interest taken proved one of the most successful yet held. From the first the weather conditions were favorable and only a few drops of rain fell throughout the four days of the meet. The majority of the riflemen are returning to their homes tonight, some with a goodly amount of prize money.

St. John members were more than ordinarily successful, eight firsts falling to their lot.

Captain W. E. Forbes, of Richibucto, led in the grand aggregate, which is made up from the scores made in all the individual matches with the exception of the Pugsley. He also won four firsts.

Sergeant I. F. Archibald, of the 3rd R. C. A., St. John, had three firsts to his credit. Good words can be said also for the work of Captain E. A. Smith, of St. John, and Pte. H. H. Bartlett, of St. John, who tied for second place in the grand aggregate. In the shoot off Pte. Bartlett made a possible with three shots at 800 yards and won second place.

Though he lost the Prince of Wales cup, which he captured last year, Pte. Bartlett takes home the Fowler and McLean trophies.

The only cup which passes out of competition is the McLean, which Captain Forbes retains as he won it in 1902 and again this year.

The two important matches, the Sinclair cup match, and the County shield match, were both won by St. John.

Pte. H. H. Bartlett, 7th, cup and 100 points.
Lt. D. L. Campbell, 7th, 80.
Capt. E. A. Smith, 8th, 75.
Capt. H. Forster, 8th, 70.
Sergeant I. F. Archibald, 3rd R. C. A., 65.
Sergeant J. Downey, 6th, 60.
Sergeant J. G. Sullivan, 8th, 55.
Sergeant J. D. McLean, 8th, 50.
Sergeant J. W. Dale, 7th, 45.
Sergeant J. W. MacFarlane, 7th, 40.
Sergeant I. F. Archibald, 3rd R. C. A., 35.
Sergeant J. D. McLean, 8th, 30.
Sergeant J. W. Dale, 7th, 25.
Sergeant J. W. MacFarlane, 7th, 20.
Sergeant I. F. Archibald, 3rd R. C. A., 15.
Sergeant J. D. McLean, 8th, 10.
Sergeant J. W. Dale, 7th, 5.
Sergeant J. W. MacFarlane, 7th, 0.

MAINE CHAMPION SINGLES.
It is up to the semi-final now in the seven tennis tournament at the Swimming Club, Bar Harbor, for the championship of Maine, and the galleries are picking S. M. Howland, a former Harvard star, and S. M. Cutting, of New York, for the final, the winner to meet DeKoven Bowen, of Chicago, in the challenge round.

Looked Like Intended Suicide.
The action which was seen brandishing a razor, says it wasn't suicide, but comes that he was thinking about. Needless to say his wife bought him Putnam's Corn Extractor and hid the razor, very wise, because Putnam's cures in twenty-four hours. Try it.

Mrs. Smith—I wish I could think of something to keep my husband at home in the evenings.
Mrs. Jones—He'd be out more than ever if I did that.
Mrs. Smith—No, indeed! My husband bought one last week, and the doctor says he won't be out for six weeks!

Or is it intended to run away? Don't punish it with a cruel brush and comb! But just ask your doctor if Ayer's Hair Vigor, new improved formula, won't make it stay at home on your head, just where it belongs. See what he says.

We publish the formulae of all our preparations.

J. C. Ayer & Co., Lowell, Mass.

Does Your Hair Mind?

Shoe Polish

When you buy a pair of shoes buy also the polish that will preserve and keep them in good shape, as well as give a brilliant and lasting shine. 2 in 1 Shoe Polish is a true leather food, causing it to remain soft and last longer.

If you ask for 2 in 1 it is a poor dealer that will take chances on his reputation by trying to sell you a substitute. 2 in 1 costs him more, but it is worth it and is the same price to you.

Black and all colors, 10c and 25c line.

August 17, 1907—Four hundred and twenty-four years ago today the young Princes, Edward V. and the Duke of York, were smothered by order of Richard III.

Find the two Princes.

MARATHONS AND "VICS" TODAY

Champions in Two Leagues
Clash Twice on Victoria
Grounds—A Battle Royal
Promised—Two Cracker Jack
Pitchers to Face Each Other

The two games between the Marathons and Victoria, on the Victoria Grounds, will without doubt be hair-raising. Both teams have been getting in lots of practice since their last meeting in Moncton, and the weak spots put in shape. The teams will line up as follows:

Marathons. Catcher. Smith.
Rooter.
Gilmour.
Murphy.
Stubbs.
D. Malcolm.
Bradbury.
Copeland.
Totten.
J. Malcolm.
H. Stone.

Victoria. Pitcher. Gallagher.

Right field.

Provided no sign of life can be seen or felt, nor the heart's action, must heard, promotion of breathing, not the first aim and effort. Lay the patient flat on his back, with the head at a slightly higher level than the feet, remove all tight clothing about the neck, chest and abdomen, and loosen the braces, belt or corsets.

The operator, taking his place at the head, with his assistant on one side, will turn the patient over until he is lying face downwards, his head resting on one arm. The operator should, after the assistant has given two or three sharp blows with the open hand between the shoulder blades, wipe and clear the mouth, throat and nostrils of all matter that may prevent the air from entering the lungs, using a handkerchief for this purpose.

This being done, they will turn the patient upon his back, pull the tongue forward (an essential but sometimes difficult operation), and keep it in position by means of a dry cloth, handkerchief, or a piece of string tied around the jaw. Every care must be taken not to let it fall back into the mouth, where it would obstruct the air passages.

These necessary preliminaries (which should take only a few seconds) having been attended to, the operator at the head will lift the patient, handling the head and shoulders carefully, in order that the assistant may place a roll of clothing or pillow under the shoulder blades. The roll being placed in position the operator will lean forward and grasp the arms below the elbows. He will then draw the patient's arms steadily upwards and towards, above the head, until fully extended in line with the body. Having held the arms in this position for about one second, the operator will carry them back again, and press them firmly against the sides and front of the chest for another second. By these means an exchange of air is produced in the lungs similar to that effected by natural respiration.

These movements must be repeated carefully and deliberately about fifteen times a minute, and persevered in. When natural respiration is once established, cease to imitate the movements of breathing, and proceed with the treatment for the promotion of warmth and circulation.

Friction by the assistant over the surface of the body must be resorted to, using handkerchiefs, flannels, etc. (by these means the blood is propelled along the veins towards the heart), while the operator attends to the mouth, nose and throat. The friction along the legs, arms and body should all be towards the heart, and continued after the patient has been wrapped in blankets or some dry clothing.

As soon as possible remove the patient to the nearest house, and further promote warmth by the application of hot flannels to the pit of the stomach, bottles, or bladders of hot water, heated bricks, etc., to the armpits, between the thighs, and to the soles of the feet. If there be pain or difficulty in breathing, apply a hot linseed-meal poultice to the chest.

On the restoration of life, a teaspoonful of warm water should be given; and then if the power of swallowing has returned, very small quantities of wine, warm brandy and water, beef tea, or coffee administered, the patient kept in bed, and a disposition to sleep encouraged.

Watch the patient carefully for some time to see that breathing does not fail; should any signs of failure appear, at once resume artificial respiration.

If the patient has been carried to the house, be careful to let the air circulate freely about the room, and prevent crowding round the patient.

(Persons wishing to receive instruction in correct swimming and life saving may communicate with Prof. Wilkinson at 645 Main street.)

THE TURF

Sydney Races.

Sydney, N. S., Aug. 16.—Bright sunshine, with hardly any wind, the events run off in good order and many exciting drives to win were conditions "hot" and the opening day of the week and meet of the Cape Breton Trotting Association an ideal one for horsemen. The summary is as follows:

2.15 Class.
E. Kremel, Bendall, Hailax 2 1 4 1
F. Schermer, Carroll, Hailax 2 1 2 1
P. Kelly, McKay, Grace Bay 2 1 4 1
S. Lander, Sydney 2 1 2 1
Best time, 2:19.

2.25 Class.
Buchanan, Pettit, New Glasgow 1 1 1 1
I. Brad, Carroll, Hailax 2 1 2 1
Dr. Farrow, Henry, Chatham (N.B.) 6 4 5
P. Kelly, McKay, Grace Bay 2 1 4 1
S. Lander, Sydney 2 1 2 1
V. Lander, Lewis, Reserve (N.S.) 4 4 4 4
Best time, 2:25.

TRACK TALK

A rumor was afloat at Readville yesterday that McHenry would drive Sonoma Girl in the Massachusetts race here next week, James Carpenter, who had the bay gelding Budd in the race with her at Poughkeepsie, says that if she had been driven right the week before won the race. He thinks McHenry would drive her so she would not make those disastrous breaks.

There has been a rumor that Jack Crabtree wanted to purchase the mare, but whether he has, could not be learned. It is certain McHenry can help the mare about breaking in scoring.
