Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

Filled and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now dispart them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble.

Mr. Bentley next told of the old regime leaving the stumpage at \$1.50 for ten years in exchange for the graft they had received from the lumbermen. The leaders in the old days had tied themselves up with a corrupt bargain. He pointed to the fact that no scandal had occurred in the Foster government, a remarkable change for the better. Teed was chosen secretary. After considerable discussion it was decided to support three of the independent Labor-Farmer tickets—J. S. Martin, C. J. Morrisey and J. Vanderbeck. A ballot was taken to decide the fourth and Fred Fowlie the fourth member of the ticket, was selected over J. L. Stewart, J. Y. Mersereau and F. D. Swim. Thus the opposition in Northumberland is sup-porting the full Labor-Farmer ticket.

The diversion of the sewer line in First street, off Cranston avenue, which started some two weeks ago, is nearing completion and probably will be finished this afternoon. The pipe line extends a for some 300 feet and gives a better service to the area than under the former arrangement.
