ORGANIZATION OF

Work in Hotel Interior Goes
On—Painting Stage Is
Reached

Concessions for the Admiral Beatty Hotel have been completed and they will be operated entirely by local men, H. A. Peters, general manager, informed the Times-Star this morning. The list will be presented for formal approval by Mr. Peters at a meeting of the board of directors this afternoon in the office of Barnhill, Sanford & Harrison. Pending this sanction, details of the list were not given out. That Mr. Peters has been able to complete his contracts for this important part of the Admiral Beatty's work was considered a distinct feather in the manager's cap, especially in view of the fact that the hotel will not open for another two months. With this matter of his mind, Mr. Peters will now perfect his plans for his organization and in this respect also the hotel will follow the policy of securing local help wherever possible. Such important posts, however, as chief steward, chef, and auditor will probably be filled by trained men from outside.

The concessions list include a barber shop, a shoe shine stand, a cigar store, the taxi and valet service and the garage. In addition, there will be a store devoted especially to ladies' apparel and what was first intended to be used for two stores will now be occupied by one large up-to-date drug store, running along the front of the hotel to the King Square entrance and thence at right angles along the entrance itself.

At the hotel itself, plastering and metal lathing are well up to schedule with practically all the ground floor remaining for this process to be completed. The next stage is the painting and already on several floors this has been started. It will be some time yet before furniture is moved in. The refrigerator installation is now proceeding rapidly, this being located on the ground floor.

DECLARES HYDRO IS
LOSING IN SAINT JOHN

J. D. McKenna, M. L. A., Declares
Sussex Contract
Only One Paying

By D. LEO DOLAN
Special Correspondent of The Times-Star
FREDERICTON, April 8.—Legislation from the city and county of Saint John had another field day before the corporations committee this morning.

Two bills being promoted by the Hydro Commission, one asking for power to make assessments on insurance companies doing business in the city and not paying the \$100 license fee, and another, asking for the right of the Hydro Commission to sell electrical power in Lancaster and Simonds created discussion. Both bills were strenuously opposed.

MCKENNA OPPOSES.

J. D. McKenna, M. L. A. for Kings during a discussion on the hydro bill declared that the hydro development was owned by the people of New Brunswick and any sale of power to any municipality should be made by the regularly constituted body—the N. B. Hydro Commission. And he opposed in the strongest manner possible the measure which gave the city of Saint John the right to buy the hydro power of the city. Mr. McKenna said he was not satisfied with the manner in which hydro is being handled and declared that the rate at St. John had in fact been paid out further that instead of Saint John being the best customer of hydro it was the worst.

LOSING PROPOSITIONS.

Moncton and Saint John, he argued, were losing proposition so far as the New Brunswick Hydro Commission is concerned and, in fact, every town made by the Hydro Commission is in a loss except that within the town of Sussex, which is paying its way because of the higher rates being charged. There should be no more contracts by the commission, said Mr. McKenna, whereby power is to be sold under cost but if these contracts are to be made the commission should be made to make the other municipalities in Kings county will demand these advantages. He claimed Saint John should be satisfied with its contract because the city is securing power at a cheaper rate than any other municipality and below the actual cost of production.

Mayor Potts, Felix McMillan, chairman of the Hydro Commission, and Councillor Simpson of Simonds, all supported the bill, as did Councillor Wignome. Mr. McKenna declined to be speaking not as a city commissioner but as a resident and taxpayer of Lancaster.

Councillors O'Brien and Murray Campbell opposed the bill declaring that Lancaster would at the proper time make application for hydro from the N. B. Commission and not the city.

Mayor Potts secured the strong approval of the Liberal members of the committee when he declared that any credit for the reduced rates for electricity power in Saint John must be given the present Government. He claimed the city was the best customer of the Musquash development and referred to the saving that had resulted the city from the sale of the bill was being asked to enable the city to dispose of the power it was not using to the other municipalities Lancaster and Simonds.

He suggested if Lancaster did not wish to accept the offer of the city they would withdraw from the bill and the city be empowered to deal solely with Simonds, which offered the contract. The Mayor said the Municipal Home, the Boys' Industrial Home and the Hospital were in the district referred to in the bill and the city felt it should be enabled to supply these.

POTTS LAUDS GOV'T.

Mayor Potts lauded the strong approval of the Liberal members of the committee when he declared that any credit for the reduced rates for electricity power in Saint John must be given the present Government. He claimed the city was the best customer of the Musquash development and referred to the saving that had resulted the city from the sale of the bill was being asked to enable the city to dispose of the power it was not using to the other municipalities Lancaster and Simonds.

He suggested if Lancaster did not wish to accept the offer of the city they would withdraw from the bill and the city be empowered to deal solely with Simonds, which offered the contract. The Mayor said the Municipal Home, the Boys' Industrial Home and the Hospital were in the district referred to in the bill and the city felt it should be enabled to supply these.

OTHER BILLS

The committee decided to consider a bill relating to permanent streets and sidewalks in the parish of Lancaster in private session.

The committee considered the bill relating to fire alarms in the County of Saint John. Councillors Golding, Campbell and O'Brien, of Lancaster, were heard in support. P. J. Hughes, M. L. A. for the corporations committee, offered objection to the powers sought in regard to use of pole-lines and conductors. The bill was referred to private consideration.

The committee considered the bill to amend the Saint John City Assessment Act, 1916. Mayor F. L. Potts, of Saint John, explained that the purpose of the bill was to encourage building. The bill was referred to private consideration.

S. S. MELITA MAKES

Word has reached the local office of the Canadian Pacific Steamships, Ltd., that the S. S. The previous record of the season was held by the S. S. Montrose, which arrived here last Saturday with 1,010 passengers. In addition to the Melita, the Montrose is due on Saturday with 798. This will bring the total number of passengers during the week-end up to 2,018.

The Canadian Pacific steamship Minnetota is scheduled to sail late this afternoon or this evening for Cherbourg, Southampton and Antwerp, with approximately 75 cabin and 100 third-class passengers, in addition to a large general cargo.

LANCASTER'S WANTS.

Councillors O'Brien and Campbell said the people of Lancaster were not supporting the bill and when Commissioner Wignome said he as a taxpayer was a supporter and believed a large percentage of the people there were in support of the bill, Mr. O'Brien retorted that the commissioner was receiving his salary as a city commissioner and was simply before the committee to promote legislation which would provide for the sale of hydro power. The councillor declared they were not opposed to hydro development but they were opposed to the Hydro Commission and the Hydro Commission's wants known to the legislature.

L. A. Curran, M. L. A. for the county of Saint John suggested that the bill stand over until it could be ascertained definitely the exact views of the people of Lancaster in the matter.

A. F. Bentley, M. L. A. for Saint John, said the county, was opposing the bill and he was again made eloquent reference to the great benefits derived from Musquash. He took occasion to criticize the opposition for their continued criticism of Musquash.

LIVELY TILTS

This brought J. M. Ellswelling, Conservator, Charlotte, to his feet with the most emphatic declaration that the opposition is not opposed to hydro development in New Brunswick. He called upon Mr. Bentley to withdraw the remark and a lively tilt ensued. Mr. Bentley said this continued antipathy to the Hydro Commission in Saint John was simply a courtship disaster and he pleaded for some amicable agreement between the Hydro Commission and the Hydro Commission.

P. J. Hughes, K. C., appeared in opposition. He declared on behalf of the N. B. Power Company and told the committee that the passing of the bill would allow the Civic Hydro Commission to compete unfairly with the power company. The bill was referred to private consideration.

IMPERIAL PACKED
TO HEAR ORIENTALS

Jovedah de Rajah and the Princess Alga, Oriental mystics, are continuing to attract immense crowds to the Imperial Theatre. In addition to their three daily demonstrations of telepathy, mind-reading and occult science tomorrow (Thursday) afternoon they will give a special hearing to ladies after the matinee, so that private questions may be whispered personally to the Princess and answered with equal privacy. On Friday afternoon, after the matinee, this privilege will be accorded the gentlemen.

The disclosures of Jovedah and the Princess are greatly interesting the city at large. A lady telephoned the Imperial yesterday that she found a lost insurance policy where the Princess had directed her to look; an elderly gentleman, who came specially to ask about an heirloom ring, was assisted in finding it. A great many are asking about school examinations, there is a large percentage of questions relative to business changes and personal health matters, and the disclosures of the Princess, as to paper money, coins, etc., she described, etc., are very baffling.
