

With one or two exceptions the above course of lectures was adhered to, and were enjoyed by appreciative audiences.

The Association has pleasure in recording its gratitude to the Rev. Principal Grant of Kingston, who, at considerable self-sacrifice, responded to our request and gave in a forcible and eloquent lecture an exhaustive description of "The World's Congress of Religions in Chicago," at which he was the Canadian representative. Dr. Grant had a large and enthusiastic audience.

To Mr. A. C. Hutchison the thanks of the Association are also due for a highly interesting lecture, illustrated with views and sketches, of English and Scotch ecclesiastical architecture. The lecture was highly appreciated.

Physical Culture was ably treated by Dr. J. C. Cameron, who is perhaps the most valuable authority on that subject as well as its most enthusiastic promoter among the college students. Valuable assistance was rendered by Dr. McKenzie of McGill College, and Miss Barnjum, who, with illustrations, gave additional interest to the lecture.

The season closed with a Ballad Concert under the direction of Mr. J. Henry Robinson, and was a success in every respect.

The proceeds of the concert and the balance on hand will be devoted to the object of the North-West Mission as usual.
