**KENDALL'S SPAVIN CURE**

Works thousands of cures annually. Endorsed by the best breeders and horsemen everywhere. Price, \$1.00 per bottle. As a liniment for family use it has no equal.

West Lorne, Ontario, Can., Dec. 14, 1898.

DR. R. J. KENDALL, ONT.

Dear Sir:—A year ago I had a valuable horse who got lame. I took him to the Veterinary Surgeon who pronounced it a spavin and gave me little hope, although he applied a sharp blister. This made matters very worse and the horse became so lame that I could not stand up. After trying everything in my power I went to a neighbor and told him about the cure. He gave me one of your bottles and I applied it carefully and heing resolved to do the utmost in favor of my horse, went to the nearest drug store and bought your Spavin Cure and applied it strictly according to directions. In four days the horse was able to move about and when the seventh bottle was about half used, my horse was completely cured and without leaving a blemish on him. After ceasing treatment I gave the horse good care and did some light work with him and to see if it had effected a cure I then started to work the horse hard and to my entire satisfaction he worked as well as ever and showed no more lameness than the horse I bought. I can recommend Kendall's Spavin Cure as a most excellent, but as a sure remedy to any one that it may concern. Yours truly, SAMUEL THURTELL.

Ask your druggist for Kendall's Spavin Cure, also "A Treatise on the Horse," the book free, or address DR. R. J. KENDALL COMPANY, CHICAGO, ILL.

## INGERSOLL WINS BALL GAME

ST. THOMAS TEAM TURNED DOWN HERE ON FRIDAY.

Brilliant Work by the Locals—Some Heavy Hitting—About 300 Spectators—Grand Concert in the Evening.

The aggregation of base ball players from St. Thomas who visited Ingersoll Friday fell down before the home team by a score of 19-11. It was expected that the game would be close and that the visitors would put up a better game in the field. About 300 people attended, and the home team have demonstrated that they can play ball. Gurvin was on the rubber for the visitors and he pitched good ball, but was hit pretty freely at times, fourteen hits being made off his delivery in seven innings. Neil went in the box in the eighth and five safe ones, including a three-bagger and a homer, were made off him. The support given the pitcher at times was good, but as will be seen by a glance at the error column at other times it was rank. Some of the errors were made from comparatively easy chances.

It would be hard to pick a star out of the home team. Burnett's work in the box was good, and outside of the sixth inning he kept the hits scattered. He only issued four passes and six batters were retired on strikes. The infield were at their best, Bell and Myers played their new positions in professional style. Williams put up his usual steady game at first. Reid also played a good game. Hutt's work behind the bat would do credit to a professional. He kept the visitors from stealing bases and made a number of difficult stops with men on bases. The outfield worked hard, but were weak on "grounders." They can handle a fly ball, but one that comes to them on the ground seems to be out of their line.

Frezell covered lots of ground in right field and behind Williams every time the ball was thrown to him, ready to take care of a bad throw. Robinson got under a couple of high ones in left and his homer in the eighth with two men on bases was the feature of the game.

The visitors went to bat first and were retired in the one, two and three order. In the visitors' half Reid led off with a safe one, Bell followed with a liner at Jones, which he failed to handle and Reid got second safely. Williams tried to bunt to advance the runners but was unsuccessful and struck out. Burnett hit safely and Reid struck out. Myers picked out a three-bagger and Bell and Burnett scored. Hutt flew out to Stewart and Myers scored on the throw. Treusch hit safely and Frezell reached first on Jones' error. Robinson hit to Jones and was thrown out at first. The visitors were blanked in the second and third and the home team got two in the second, but were blanked in the third. Three hits and a charity gave St. Thomas two runs in the fourth, and Ingersoll made four by five hits and a sacrifice and a couple of errors. The fifth was eventless.

In the sixth, seven hits, including two three-baggers, and a charity gave the home team the score read 10-8 in favor of the home team. Ingersoll got two in their half of the sixth. The visitors were retired in the seventh without a tally. When the home team went to bat they had to face a new pitcher. Burnett was first man up and he tore off a three-bagger. Myers flew out to Stewart. Hutt hit to Wheeler, who threw Burnett out at the plate. Treusch and Frezell both hit safely and Hutt scored. Robinson followed with his homer, scoring both Treusch and Frezell. Reid was thrown out at first. St. Thomas got two in their eighth and one in the ninth and the home team made two in their eighth making the score 19-11.

The University of Toronto Alumni Association has started upon the publication of a monthly magazine, the first number of which was received at this office this week. In the salutatory it announces that it is established to promote no other interests than those of the university. It has no doctrines to propound, no praises to sound and no reforms to advocate. Its pages are open to receive articles which may propose wholesome doctrines which may sound deserved praise or which may advocate reforms. The first number is exceedingly well gotten up and merits the liberal support of its graduates as well as others who are interested in its work.

## GOLDEN WEDDING.

It is with pleasure we chronicle a celebration which took place Thursday, 19th inst., at the residence of Mr. and Mrs. Thomas Hielop, "Thorbank Farm," West Oxford. It was a family gathering and among those present were Mr. David and Miss Mattie Hielop, from Winnipeg, others of the family from Woodstock, Ingersoll, Petrolia and Toronto.

Tables were spread on the lawn and after a bountiful repast, presentations were in order.

Among the gifts was a handsome phonograph, accompanied by the following address:—

THORNBANK FARM,

West Oxford, July 19, 1900.

DEAR PARENTS:—The occasion which brings us together to-day is one which only a few in this world are privileged to enjoy.

There have been gatherings and home comings to this dear spot, but none have had such an interest and height of anticipation as this anniversary, marking fifty years of our married life and giving the opportunity of celebrating a golden wedding. As we think of all the years of love which you have bestowed on us in all ways and at all times, we feel how utterly worthless in expressing the thoughts that well up in our hearts.

Some poets have said, "Thoughts unexpressed, like bales of goods unopened, will rot and moulder and decay." Believing this we want to avoid the errors and are happy that such an opportunity is afforded of testifying our love and esteem in words and good wishes, and also in somewhat of a tangible form.

The elastic step of youth cannot be expected along with the years which our gathering to-day indicates, but man's ingenuity in constructing springs and wheels may all through life assist us, so we ask you to accept this phonograph with our best love.

There's room for two and a wee seat for the bairns, as we know the grandchildren will always be looking for a place close to grandpa and grandma, and so may hearth and home be ever bright with the joy and laughter of youth.

GOLDEN WEDDING LINES.

How beautiful at evening to behold the hill-top touched with gold of setting sun.

And doubly so when one can point to a lovely spot and say "yonder's my home."

Whatever of weariness the journey may have brought, 'tis all forgotten in the thought of rest and peace at home. 'Tis thus with life. The bride and groom of fifty years ago joined hearts and hands, started on life's journey amid congratulations and good wishes from kind friends. To-day the bright hill-top of "Golden Wedding" has been reached. And here amid their children and children's children—a goodly throng—our friends rejoice.

There has been ups and downs, places rough and smooth, steep climbs, but in quiet vale and smooth bright fields, the path has been. There may have been discouragements, and every hope and bright anticipation not realized, but heart has never been broken, and each day has passed—and who shall say, 'tis not success. Shall not this golden day, so crowned with happiness and peace, be called "Pleasure," from whence the bright beyond may clearly be seen?

Dearest ones—'tis thus we wish you—and ascribing praise for all things unto whom it rightly belongs, say, Amen.

Mr. Hielop replied in a neat speech, after which the bride and groom of fifty years ago were treated to a real triumphal ride in the carriage drawn by the children and grandchildren, amid bouquets and cheers from the assembled company.

Mr. Hielop scored. "Thorbank Farm," one mile south of Ingersoll, in July, 1849, and was married the following year to Miss Paine. Here they have lived ever since, and Mr. and Mrs. Hielop are both hale and hearty and we wish them yet many years of life and happiness.

The colored people of Brantford and West Oxford generally will celebrate Emancipation Day by a great demonstration in this city on August 1. Two thousand colored people are expected to come to Brantford. A gigantic picnic, with sports of all kinds of amusements, will take place in the afternoon at Mohawk Park. A big tent will be erected in the field, and the entire body of visitors will be fed and refreshed in old-fashioned camp meeting style. Mr. James Wilson, who is organizing the demonstration at this end, will arrange for a monster cake walk and concert in the drill hall in the evening. The cake walk will be the swiftest colored function ever given in Ontario, and among the competitors will be a colored lady who weighs 688 pounds without shoes. The white people will take a back seat on the evening referred to.—Brantford Expositor.

Most people suppose that new potatoes are apt to be injurious to the health while old potatoes are quite wholesome. Science says otherwise. Recent experiments show that potatoes contain a poison known as solanine. New potatoes contain comparatively little of this poison unless they grow above the surface of the ground and have a green skin. Old potatoes contain much more of this poisonous principle, solanine, and many cases of serious poisoning have occurred in the late summer when old potatoes were used. In 1892 and 1893 there was almost wholesale poisoning among the troops of the German army. In this case it was found that in old potatoes kept in a damp place and beginning to sprout there was 34 times as much solanine as was in new potatoes.

Jersey.....	222 215 218 655

Second Stage of the Queen's.

In the second stage (10 shots at 500 and 15 shots at 600 yards) of the Queen's prize the Canadians finished in the following order:

Smith, Sergt. C. E. Morse, Pte. T. A. Langstroth, Gunner Fleming, Pte. G. Milligan, Pte. A. Tink, Bombardier Bodeley, Lieut. D. J. Munro, Staff-Sergt. Morris, Sergt. Corrigan and Lieut. Ogg.

## McKinnon Competition.

In the McKinnon competition England was first, Scotland second, Wales third and Canada fourth.

Domestic Rifle Association.

Ottawa, July 21.—The annual program for the Domestic Rifle Association meeting was issued yesterday morning. The council announced that in arranging the program it has had in view the convenience and comfort of competitors, and so hopes for an increased attendance of marksmen at annual meetings.

## BRITISH PAPERMAKERS.

What They Have Learned During Their Tour Through Canada.

Quebec, July 21.—The deputation of English paper manufacturers will leave for England to-night from Quebec, on the steamship Parisian. They have been seven weeks looking over Canada's vast pulp resources, paper mills and water powers, and are delighted beyond measure with all they have seen. In conversation with Mr. Marsden, that gentleman said, that while the English manufacturers were altogether in ignorance of Canada's wealth in this line, their present trip had broadened their impressions very much, especially what had been seen in the Province of Quebec, including Grand Mere, Shawenegan and Chicoutimi. He said their visit would no doubt result in turning English capital this way.

The English paper manufacturers have come to the conclusion that they have to look elsewhere for pulp, Sweden and Norway markets being seen in Canada satisfies them that the English paper manufacturers can be supplied from here for years to come. Mr. Marsden added that the paper makers of England had very little to learn in the manufacture of paper, either in this country or in the United States. Paper is gradually rising on the other side, and yesterday morning Mr. Marsden received a cable informing him that the price of paper had increased three cents.

The Government cartridge factory is to be considerably increased, according to an official announcement just made.

## THE CROPS.

Poor Outlook For Manitoba—Generally Improved Conditions in Ontario.

Winnipeg, July 21.—Crop reports to the Local Government show that the yield will not exceed five or six bushels per acre. The outlook is far from encouraging.

Toronto, July 21.—Improved crop conditions are reported in Canada.

## Hamilton.

Hamilton, July 21.—Word was received here yesterday afternoon that Jerry O'Connor, 47, Grand street, had been drowned at Montreal. O'Connor left here a few days ago to go to the Old Country. He was on board the steamer in Montreal harbor, when he was accidentally knocked overboard and drowned.

## Will Be Sworn in.

Sydney, July 21.—It has been definitely decided that the swearing in of the Governor-General at Federation Australia, and the inauguration of the commonwealth shall take place at Sydney. Lord Beauchamp, the present Governor of New South Wales, will probably retire in December.

## Will Run Against Sir.

Montreal, July 21.—A special from Vancouver says: Sir Hubert Tupper says that if his friend, N. S. constituents are willing he will run against Hon. Mr. Sifton in Brandon, Manitoba. Mr. Bostock, M. P. for Yale, says he will not run again.

## The Buffalo All-Steel Disc Harrow.

This is the only Disc Harrow made or sold in Canada, having independent, adjustable spring pressure upon the inner ends of the gang discs, allowing any amount of pressure to be thrown upon the inner ends of the gangs, by the foot of the operator. By this means a perfectly flexible action is secured and the ground can be worked to a uniform depth. Examine this Machine carefully and compare with others.

## The No. 12 Cultivator.

Is a MARVEL OF SUCCESS. The only Cultivator made that both lines of teeth will cut an even depth in the ground. Examine it and you will see why. The only Cultivator with a movable tooth set so that the angle of the teeth can be regulated to suit any condition of soil. Pressure can be regulated to suit differently on every section requiring it. The teeth are carried by the wheels instead of trailing behind, as in other machines, thus securing lighter draft. This machine is furnished with grain and grass seed boxes when required. It has reversible diamond steel points for the teeth; also, extra wide chisel-cutting points can be furnished. Examine it and you will buy no other.

## Wool. Wool. Wool.

Now that the Wool Clip for 1900 is about to be put on the market, where can you get the best value for your wool and the highest price in cash, is what all farmers should consider. The proper place to sell is to the manufacturer; he can always pay the highest price going. We will guarantee you one cent per lb. more for your wool than Toronto or Hamilton prices. All the Wool of Ontario is sold in these two cities that is not sold to manufacturers. As we use 120,000 lbs. of Wool in a year, and the clip of the County of Oxford is only 60,301 lbs., you can see we have to import a lot of Wool.

We carry a fine Stock of Tweeds, Flannels, Blankets, Sheetings, Yarns and Underclothing to exchange for Wool, or will sell cheap for Cash.

We also have a good stock of READY-MADE CLOTHING, so that if you bring your Wool to the Ingersoll Woollen Mills you can get Suits for your boys, and some good Blankets, that we guarantee will not shrink all up when washed.

Roll Carding. Parties from a distance can rely on getting and Manufacturing done in all their rolls home with them the same day.
