

Q-85 One of the charges that are against you here, McKinnon, I would like to ask you a question -- did you have any difficulty getting off the train down near -- when you were on your way to Windsor, Nova Scotia?

A- I don't remember, sir, how I got off the train. I knew I had been on the train, and the next thing that come to me was that I was running across a field. I knew I had been on the train and the next thing I knew I was off it.

Q-86 When you came to yourself, then, the next thing was to go home, was it?

A- The next thing I thought of, sir.

Q-87 Have you been examined by any doctors or anything, or psychiatrists or anything of that nature?

A- Yes, sir; I have been examined by a psychiatrist.

Q-88 Did the doctors say there was anything physically wrong with you?

A- The doctor that I went up to see if I was fit to stand trial here, told me that I should have a reboard, and for one reason I was in my cell just a period coming up over here was what I say, a week or so ago I passed out in my cell and the doctor come up and examined me and told me that it was my nerves. My heart started to thump and I couldn't get my breath, and the doctor said it was my nerves.

---CROSS-EXAMINED BY THE PROSECUTOR:

Q-89 McKinnon, you are charged with absenting yourself from the 86 Bridge Company, in the first place. Were they leaving Camp Borden at the time you stayed away? were they going overseas then, or did you know?

A- I didn't know, sir.
