the farming interest in this neighbor-

hood at the present time, that there is

almost an uninterrupted series of farms

reaching from Washington to Worthing

On the last day of October Sir Oliver Mowat completed his twenty-third year as premier of Ontario. No other statesman known to the history of English. speaking countries has been able to boast of a continuous term of office so long, and no man in public life could ask for a better testimonial than that which lated with dignity and impartiality and the leading province of the Dominion has voluntarily given its veteran premier. Those who know anything of the political records of the province are well aware that Sir Oliver's success has not arisen from accident or from advent' tious circumstances. Nor has he you his way without overcoming the opposition of able men. It needed a political giant to do battle successfully with such opponents as the late M. C. Can. eron and the present Chief Justice Meredith, men whom any province or country might be proud to have in its service. To be the victor in so many political battles with antagonists so strong constitutes a triumph of no common order which could only come to a man of pre-eminent ability and integrity-one whom the people thoroughly trusted. And whatever may be said by his opponents within the province, there are few outsiders to be found who will say that Ontario has not done well to maintain her confidence in her veteran premier. The record of his long term of office displays a careful and honest guardianship of the province's interests; its affairs have been administered without a suspicion of corruption or plunder, en for the price of some salmon, and croachments from without have been through a mistake as to the time of the successfully resisted and a progressive sitting of the court, was nonsuited. He though not revolutionary policy has been sued again and got judgment. The desteadily adhered to. It is quite certain the magistrate had no jurisdiction to try that if Sir Oliver were obliged to appeal the case a second time and also on the to the people of Ontario to-day for a ground that the cause of action sounded new lease of power he would be given in damages and the court had no juriswhere to find the man in whom Ontario the appeal and F. Higgins contra.

THE VICTORIA TIMES has placed so much confidence appearing THE CASE OF THE SHELBY MR. WHITE'S RESIGNATION

The First of the Seized Sealers The Late Member for Cardwell Has cause it will give me an opportunity of hearing once more from the lips of our Comes Before the Vice-Admiralty Court.

are always interesting; they are always Evidences for Both Sides Heard, and the case Taken Under Advisement.

> The trial of the Queen v. the ship Shelby was commenced this morning before Chief Justice Davie. The court room held many interested in sealing and also several British and American

Mr. Pooley opened for the crown and read the pleanings. The claim alleges that the Snelby was siezed on the 11th of May last in latitude 52 degrees, 52 minutes 10 seconds north, and longitude 134 degrees, 10 minutes 58 seconds west, being a point within the prohibited waters of the Pacific ocean as defined by the Behring Sea Award Act, 1894, fully manned and equipped for sealing and then engaged in sealing. The Shell by was sent to Victoria and the seals

sold for \$899. Lieut, Hall, of the United States cutter Corwin, was the first witness. On the 11th of May he boarded the Shelby. which was then sixty miles west of the He made search of the vessel and found arms, ammunition and some seal skins on board. He was placed on board to take her to Sitka, 260 miles away. The wind on the 6th of May and between that time and the 13th of May was time a broad-minded man, in favor of mostly from the north. The prevailing wind in those waters at that time of the year is westward, and favorable to the Shelby coming to Victoria. The guns on the Shelby were strapped up to beams in brackets.

On cross-examination he said he had not been to the North Pacific before, his knowledge of the winds was gleaned from data. The official and ships' logs and a

prosecution Benjamin Laurenson, gunner of the was one of the party that boarded the Shelby. He examined some skins, which were bloody and looked

white and fresh. Commander Moggridge of the Royal Arthur picked out on the chart the position of the Shelby on the 30th of April and also the position on the 11th of May, the two positions being about 400 miles apart. According to the Shelby's log no distances were given; it did convicted as among the worst miscreants | give the direction from which the wind was blowing, but not the force of it. The ship's proper course was E.S.E. magnetic, but the entry in the course column of the log showed that that course was would be hard to award either one of not taken on the 2nd, 3rd and 5th days

> Captain Munger of the Corwin gave practically the same evidence as Lieut. the last two sessions for his constituen-Hall. To Mr. Helmcken he said the schooner when boarded was in her pro-

SHOWING UP THE BOODLERS A Lexow Committee Begins a Herculean Task at Tacoma.

Tacoma, Nov. 4.-Tacoma has a fuilfledged Lexow committee. It is made up of some members of the chamber of commerce committee of fifteen, of which L. W. Roys is chairman, and property owners who belong to the tax pay

ers' league. Since Monday last the committee has been conducting a rigid investigation into municipal affairs; particularly in reference to matters connected with the city treasury. It is known the commuttee was back of the movement in the city council which resulted on Mon day in the ousting of City Treasurer McCauley and the election of Frederick T. Olds to the office.

Most of the sessions of the committee have been held behind closed doors, and the members refused absolutely to disclose anything whatever regarding what has been accomplished. From what has been learned, however, it is known that the committee will make a report in about ten days, and that it will be a

A prominent member of the committee said to-day that the investigations it is now making are thorough, exhaustive and without fear or favor. Every detail of municipal government is being examined, the work being systematically divided. Every vestige of evidence of criminal transactions is being dug up, and the member said that no guilty person will escape, no matter what his position is. In other words, the committee is looking upon those in office as complete and utter strangers.

If the committee accomplishes nothing else, it is promised that the standard of official and businesss integrity in Tacoma will be materially raised.

CUBA'S FIGHT FOR LIBERTY.

Many American Towns Hold Meetings Sympathizing With the Insurgents. Chicago, Nov. 4.—Dispatches to a ocal paper indicate that yesterday was a popular day for meetings in sympathy

with Cuba. Among other places Bloomington, Kankakee, Ottumwa, Marshalltown, Fort Wayne and Decatur, Ill., held successful demonstrations. The resolutions adopted generally "urge the people of the United States to express themselves upon this subject, so that congress shall know that the American heart beats for the oppre lands." and requests members of con gress to do all that they can to promote Cuba's liberty.

Mayor McKenna presided at an enthusiastic meeting in Pittsburg. New York, Nov. 4.—The Cuban junta in this city has received information that Hubert George Howard, second son of the Earl of Carlisle, and now in his 25th year, has succeeded in joining the insurgent army, and is now a captain under General Antonio Maceo. Before sailing from this city for Cuba the young Englishman announced that he intended to join the insurgents so as to obtain material for a book upon Spanish

methods of warfare. Colon, Nov. 4.-The Brazilians, according to a Rio de Janeiro dispatch, are determined to recognize Cuba. In Chili the Democrats especially are using violent language in regard to Spain. conflict between the Democrats and the

Spanish in Chili is imminent. Kingston, Jamaica, Nov. 4.-The steamer Larauda, though strongly suspected of being a filibuster, was not detained here. The government took no action in her case because she is an American ship. This is the vessel from which it is reported Cespedes and 20 men, with an immense quantity of arms and ammunition, landed near Guantanamo last Sunday. Her captain and other officers deny everything, although several rifles, supposed to be samples of those he carried to Cuba, were found on board.

GOLD AT OUR DOORS.

Mary Todd Island and its Promise of Yielding Up Treasure.

Day after day Victorians learn of rich strikes being made in various parts of the province, and day after day the centre of interest seems drawing closer to Victoria. From far-off Cariboo down through

Kcotenay; then Alberni; and now Mary Todd Island, at our very doors, is to be worked for the rich treasure it is thought to hold within its narrow lim-This barren, rocky isle, of about five

acres in extent, is situate in Oak Bay, almost within hailing distance, and first attracted interest among mining men about two menths ago. Four distinct ledges have been traced, and assays have shown from \$5 per ton in gold up to as high as \$44 per ton in gold and 55 oz. in silver. A company composed of J. St. Clair

Blackett, A. A. Davidsen and B. John has acquired the island with all mineral privileges, having bought out the original locator of the claim, and a squad of men commenced development work to-day.

Practical mining" men who have examined samples from the island say that the rock has every appearance of being true gold-bearing quartz and that it resen bles much the Alberni ores.
