vances position in all matters to which it addressed itself when it had reason to believe that it could infinence the Department and prevent it from blundering. It is, perhaps, now too late for us to do much good in adding another to the many previous and neglected warnings we have given on the subject, but we take occasion to say that the attempt to confine parent salmon in the Carleton Mill Pond at St. John at the present time, for the

salmon in the Carleton Mill Pond at St. John at the present time, for the purpose of procuring their ova and milt for hatchery purposes in the latter part of October next, ought to lead to the retirement from that branch of the

service, at least, of whoever is respon-sible for the cruel and unscientific blunder. To those who understand the habits of salmon and the conditions necessary to their propagation, the iggorance displayed in impounding sal-mon in such a place for such a purpose is intexplicable and well calculated to bring the Department into com-tempt. It is to be hoped that some the result of the absurd experiment of our fresh-water friends at Ottawa, and pidity—in repeating the frands and im-positions already exposed by our efforts. The Stanhope has apologised, for the positions already exposed by our efforts. The Stanhope has apologised, for the positions already exposed by our efforts.
